Character is sometimes lost before a reputation is attained. Knowledge is what we learn. Wisdom is what we remember. Poems and babies are alike. Their parents always think they are clever. **CUNNING OF GAME.**

**Wyoming Elks Much More Wary Now Than a Few Years Ago.**

If any one wants an illustration of the way in which animals grow wise in the ways of the hunter, they ought to come out to this country and try to hunt after some of the bull elk that hang around here. Usually a bull elk is not remarkably cunning, and the elk that stay back in the mountains are still rather simple.

They use all the tricks that the sharpest buck deer or bull moose in Maine ever thought of, and in addition have invented a lot of brand new schemes of their own that are just suited to this country. When one remembers that only a few years ago these elk were just as stupid as the balance of their tribe, one wonders were they picked up all this knowledge. Such things as making a loop down wind before lying down for the day, watching their back track and things of that kind, are only a very small part of their plans to escape being killed. The intelligence which they display in picking out places in which to bed down for the day is remarkable. I put in a couple of weeks this fall trailing around after some bulls that stay pretty close to the house, and in spite of all I could do I never even saw a hair of one of them.

Their beds were always in a place where they could either see, hear or smell anything approaching them long before they can be seen themselves. Time after time I put in hours trying to get a sight of these old fellows, but with always the same result. After loop after loop down wind, after crawling for hundreds of yards at a time in snow a foot deep, and moving as silently as possible, I would find the bed just vacated. And if I waited until dusk before trying to close in, I always found that the cunning brute had, on getting up and commencing to feed, gone up wind into the thickest cover he could find, where it was absolutely impossible to get within sight, without making noise enough to spoil the stalk.

I guess the trouble is that the game is learning new tricks faster than us fellows, who learned to hunt when the game was tame, can figure out new ways of hunting. At any rate, I used to think that I could hunt, but when I chase around among a lot of elk for a couple of weeks and only get one fool calf that did not have any better sense than to stick its head out of the clump of spruce behind which the rest of the bunch were calmly watching me, I rather think that something is wrong with my woodcraft.

Civilization is spoiling the game, just as it is spoiling the Indian, the cowpuncher and, in fact, the whole West. And there is no other place to go, so I guess we might as well get civilized and be done with it.—Wyoming correspondence in Forest and Stream.

**Beware of Ointments for Catarrh That Contain Mercury.**

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often fatal to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists; price, 75c. per bottle. Hall's Family Pills are the best.

**Exposure Gives GRIP a Foothold and Unaided Nature is Powerless. Dr. Greene's Nervura Blood and Nerve Remedy Cures GRIP at Every Stage and Restores Physical Vigor.**

**DR. GREENE'S NERVURA**

is the untiring foe of the Grip. It wards off the attack in the beginning, and it drives the germ from the blood.

Do not think these are mere statements. They are absolute facts.

For the condition which follows Grip—the weakened, prostrated condition so well-known everywhere—Dr. Greene's Nervura is the true and certain restorative. It provides those elements in the blood which have been preyed upon by the Grip germ, and restores full strengthening vigor to the circulation.

Mrs. F. W. Grant, 490 Central Ave., Dover, N. H., says:

"I was severely attacked by Grip, which, after a long period of illness, terminated in a complete case of nervous prostration. Having heard of the wonderful curative properties contained in Dr. Greene's Nervura blood and nerve remedy, I concluded to give it a trial. After taking one bottle I was greatly improved, and before the third bottle was gone I was able to be about my work as usual. I can speak only in the highest terms of Dr. Greene's Nervura blood and nerve remedy to all sufferers from Grip and nervous prostration."

**Fortify Your System Against Grip with Dr. Greene's NERVURA BLOOD AND NERVE REMEDY, Which NEVER FAILS to Ward Off GRIP'S Attack.**

Robert J. Fox, 925 Passyunk Ave., Philadelphia, Pa., says:

"Three bottles of Dr. Greene's Nervura blood and nerve remedy entirely cured me of a complication of Grip and bilious fever. I had long been a victim of Grip and its attendant agonies. I could not attend to business on account of the intensity of the pains in my limbs and back, and was a daily sufferer from severe attacks of nausea, dizziness in the head, and extreme weakness. The pains in my back, my limbs, and my head were overpowering and almost beyond endurance. My wife had frequently urged me to try Dr. Greene's Nervura, and finally yielded to her entreaties. I can assure you the effects of the first bottle of Nervura were marvellous. My head became clear, and my appetite began to assert itself. I continued to take the Nervura and soon was out attending to my business again, and before long I was entirely well. Mrs. Fox and myself consider it a great preventive for Grip and bilious troubles."
