PROTECTIVE TARIFF.

In a speech opposing the Fordney emergency tariff measure Senator John Sharp Williams, of Mississippi, one of the brilliant minds of the senate, made some observations that caused even the "grave and reverend senators" sit up and take notice.

Senator Williams in the brief time that he occupied the floor utterly put to rout the protective tariff advocates and he did so in the most effective and scholarly manner too.

Following in the wake of the protective tariff seekers, every interest now that through bad guesses, or because of the war of for any other upward and unexpected incident, is threatened with loss of money.

COTTON ACREAGE.

Every possible encouragement should be given by the business interests of the nation to the movement having for its object a material reduction of the cotton acreage of the South.

The South is practically without a serious competitor in the growing of cotton and if only a reasonable acreage were planted and modern methods were invoked it should be the most prosperous portion of the globe.

It is not only a sectional but a national problem. The prosperity of the cotton states means greater prosperity for every section of the United States.

ARRANT DEMOGOQUERY.

It is always a favorite pastime with the politicians to try to deceive and delude the farmers with the idea that they are the especial objects of the love and disinterested service of the "country saviors."

still deluded with the idea that the surest road to politician fortune is to fawn and flatter the farmers.

These observations are given point by the recent enactment of a law in the Tennessee legislature to defer the collection of taxes from March 1 to May 1, "for the relief of the farmers."

Now what is the result of this extension? It has embarrassed the treasury of this and nearly every other county in the state.

If there are any departments of government in which the farmer has a vital interest they are the roads and the schools. If they suffer the farmers suffer most.

BACK TAX INVESTIGATION. If the statement made by the members of the legislative committee investigating the administration of the back tax laws are true it is better to be a revenue agent than president of the United States so far as compensation is concerned.

STATE BOND ISSUE.

Former Senator C. Y. Clarke very properly protests against the bill introduced in the legislature to authorize a bond issue of fifty millions of dollars for road construction.

LIBERAL RESPONSE TO APPEAL FOR HELP

MAURY COUNTIANS OPEN PURSES TO SUFFERING FAMILY DESCRIBED BY C. D. SARGENT.

LIBERAL RESPONSE TO APPEAL FOR HELP. (From Saturday's Daily Herald.) Maury county never turns a deaf ear to the cry of distress.

All of these contributions must be paid by the people of Tennessee and the other states.

Tennessee has been running behind its revenue for several years and in order to "make both ends meet." And extinguish this deficit taxes have been increased.

in his own hands. He is saved not in groups but individually, as a result of his own efforts and the purity and righteousness of his own life.

"I have not time and it was not my intention when I rose, to examine the bill in its details and differentiate it from other legislation which I regard as destructive of the rights of the states and the rights of communities, and destructive of that individualism, that spirit of personal independence, which lies at the basis of free institutions and which must persist if the government endures.

"I am not contending for the assertion of state rights that would dismember the republic, but I am contending for the preservation of the states so that the republic may be preserved.

"It must be apparent to all that the movements for federal participation in the domestic affairs of the states can have but one end, the submergence of the states, and the current carrying them will consolidate all authority in a centralized government functioning in Washington."

HIGH SCHOOL BAND SHOWS IMPROVEMENT

FURNISHES MOST EXCELLENT MUSIC AT BASKETBALL GAMES FRIDAY EVENING.

(From Saturday's Daily Herald.) Students of Central High School have just cause to be proud of the brass band, which has been organized by Miss O'Callaghan, director of music.

Before the games and during the intermissions last night the band furnished splendid music, snapping out some of the season's peppiest music like a bunch of old timers.

Mr. and Mrs. W. D. Hastings and W. D. Jr., Misses Genie Holland, Mary Lamb and Mittie Elam motored to Nashville Friday and heard Gluck Zimblist at the Ryman auditorium.
