SPLENDID MEETING OF MISSION SOCIETY

METHODIST WOMEN VERY MUCH GRATIFIED AT INCREASED MEMBERSHIP AND INTEREST.

The Woman's Missionary Society of the First Methodist church held one of the best and most largely attended meetings in months on Wednesday afternoon. There were no less than sixty or seventy of the members present and the liveliest interest was manifested in the work of the society. The contest for an increased membership between two teams is attracting much attention and many new members have already been obtained.

The feature of the meeting of Wednesday was the report of the president, Mrs. Raleigh Selkirk Hopkins, delegates to the recent annual conference at Murfreesboro. Mrs. Hopkins most interestingly and charmingly detailed the salient features of what she pronounced the best conference that the church has ever held. She gave a full resume of the masterly address of Bishop Lambuth, who had just returned from the mission fields of the far east, and who told them of the sufferings among the Chinese as a result of famine.

The members of the local society are very much gratified that the conference next year is to be held in Columbia, and already tentative plans are being made for its reception and entertainment.

Dr. Robison Will Leave Culleoka For Mission Field

(From Saturday's Daily Herald.) Dr. J. M. Robison, pastor of the Central Presbyterian church at Culleoka for the past twelve years, and one of the ablest and best known pastors of his denomination in the state, has resigned and will leave in about two months. Dr. Robison resigned to accept the pastorate and a place on the faculty of the Industrial and Agricultural High School of the Presbyterian church, U. S. A., at Alpine in Ocronton county, to which he has been called. This school has just finished buildings costing \$12,500 and work is now in progress on additional buildings to cost \$10,000. It has an enrollment this year of 135 pupils and fifty were turned away for lack of equipment. The school is under the direction and control of the board of mission of the church and is designed largely to give Christian vocational, industrial and agricultural education to the people of that section of the state. There will be general regret not only in Dr. Robison's own but in all other churches of the community he has served so well over his going. He has not only done great work in the church but he has been a community builder.
