CULLEOKANS TO WAR ON LIQUOR TRAFFIC THERE

AROUSED OVER DISCOVERY OF STILLS WILL HAVE MASS MEETING TUESDAY NIGHT.

ORGANIZE FOR LAW AND ORDER

League for the Suppression of Drinking, Liquor Making and Selling and Gambling Will Be Formed at the Methodist Church.

Thoroughly aroused over the discovery of two distilleries in that section recently, of reports of carousing, drunken debauchery and gambling that always accompany the liquor traffic, the citizens of Culleoka have called a meeting to be held on Tuesday night for the purpose of organizing a law and order league. A meeting of the community club was held on Tuesday night and a motion that a mass meeting be called to organize for law and order, was unanimously carried.

Within the past few weeks two full fledged distilleries have been captured near Culleoka. Signs that there was liquor in evidence at the community fair last Friday aroused the people. It is also declared that there has been an unusual amount of drinking, carousing and gambling on Saturday nights and that unless this lawlessness is checked Culleoka's reputation for law and order and good behavior will be blighted. Therefore the people have determined to get without further delay to form an organization that will aid the officers in the discharge of their duties.

Said one of the leading citizens of that section here today: "We have a good officer, John Inman is doing his duty, but we cannot expect one man alone to police that whole section. He needs and should have the cooperation and support of every citizen. The bootlegger and the moonshiner are enemies of decency and good order. We are going to let our officers know that we are behind them and will actively help them in their good work. Culleoka has to much at stake to sit still by and surrender to mercenary ruffians who would consist our youth to hell for a few dirty dollars."

An effort is being made to have John Royal Harris as one of the speakers. There will also be several local speakers to appeal to the public for support of a program of decency and good order. The meeting will be held at 7:30 o'clock at the Methodist church.

HAMPSHIRE FAIR IS BIG SUCCESS FINE EXHIBITS

IDEAL WEATHER CONDITIONS BRING OUT ENORMOUS CROWD TO ENJOY THE DAY.

CANDIDATES WORK OVERTIME

Former State Superintendent R. L. Jones Is Principal Speaker—Fair Is Voted Most Successful in History of That Section.

An enormous crowd, coming from every section of the county assembled at Hampshire today for the biggest community fair in the history of this section.

The exhibits of farm, garden and home products were splendid and most profitable. Especially was there a good showing of fine corn and other grains.

The woman's department, however, attracted much favorable comment, and was the center of attraction. Although it has been reported that there is a shortage of canned goods in the county the Hampshire display did not indicate it.

The address of the day was delivered by Prof. R. L. Jones, former state superintendent of public instruction, and was greatly enjoyed.

The weather was ideal and the big crowd enjoyed the day immensely. In the course of the contest employed. They were busy as a flock of which engines shaking hands with their friends and supporters. The busiest man on the ground was County Agent Abernathy, and members of the fair committee, and their great mass credit for the success of the fair.

The Herald was unable to secure a list of the prize winners, but this is being promised and as soon as it is received will appear in these columns.

RED CROSS NURSES HOLD CONVENTION

MISS ADDISON SENDS THE HERALD INTERESTING ACCOUNT OF BIG MEETING.

The Herald is in receipt of Columbia, Ohio, papers containing most interesting accounts of the great national convention of Red Cross workers which opened in that city on Tuesday and will continue in session until Saturday. These papers were sent The Herald by Miss Sarah Addison, Red Cross public health nurse for X-ray county. Miss Addison, a nurse coming to Columbia has done a great deal of work over the county, and especially has she proven effective in the fight made against the spread of typhoid fever.

Miss Addison's health condition has been such that she will probably have to leave her work here.

AN APPRECIATION. After five days The Herald is again published on its own press. It could not have been published at all for the past five days except for the kindness and courtesy of Mr. Bowen of the Democrat. He has placed every facility of his plant at our disposal rendering The Herald under many obligations which are here and now publicly acknowledged.

The paper sincerely hopes that its mechanical troubles are over for a time at least and that from now on it can give uninterrupted service to its large army of readers.

WOMAN IS HELD AT POINT PISTOL STORE IS ROBBED

OFFICERS CAPTURE BANDITS SHORTLY AFTER UPON CHARGE OF HIGHWAY ROBBERY.

STOLEN GOODS IS RECOVERED

Alleged Highwaymen Had in Their Possession Many Articles Stolen During Last Few Days From Columbia Automobile Owners.

Charged with highway robbery A. A. Weaver and Ed Woods, young men whose names might have meant from twenty to twenty-five years, were arrested last night, by Sheriff G. K. Jones and Deputy Sheriff Woodhouse. The charge of highway robbery was made against them by Mrs. Lizzie Matthews, who conducts a little grocery store near the site of the old ice plant at Waverly Springs.

To a newsman of The Herald, Mrs. Matthews interviewed them at the county jail last night and said that they had stolen the goods from her store and that they had taken the goods and had not returned them.

Officers J. H. Woodson, who they had the "dead road" on the highway, and Mrs. Matthews, whose store they are alleged to have robbed at the point of a pistol, has positively identified them and they have their sentences, which will exceed that of the crime.

They were taken to the jail at Pillow and are now being held in the county jail at this time, and at the time the goods were made this morning by their possession a Ford touring car, which bears an Alabama license, was taken to them.

The boys claim that they were taking them from Birmingham, Alabama, to come back to the north, but upon investigation of the car the officers discovered it considerable stolen goods, several trunks and suitcases, and other articles from Columbia, and the car was taken to the station at this time. The owners of the stolen goods have identified it and officers have returned it to them.

Officers said this morning that they had the automobile in which the young men were riding had been stolen somewhere in Alabama and that the car would be located within a few days. The car will be held for identification.

The young men said this morning that they had been in and around Columbia for three or four days. The merchandise stolen from the Hills grocery consisted of a piece of bacon, a can of corn, a can of salmon and light bread, but they had in their possession many tools, chairs, wrenches, "jimmies," etc., and officers are confident that they have made a most important capture.

SWEET POTATO YIELD LARGEST IN MANY YEARS

RECORD CROPS ARE BEING REPORTED BY THE FARMERS FROM OVER COUNTY.

HUNDREDS' BUSHELS TO 'ACRE

From 150 to That Figure Will Make the Tubers One of the Most Profitable Crops Grown—Planned Now to Build a Storage House.

Never have the farmers of Maury county known such a crop of sweet potatoes as they have produced this year. The acreage is not unusual, but the yield reported is simply magnificent, beyond anything that dealers and farmers declare they have known in recent years. Yields of from 150 bushels to the acre and upwards are not uncommon. McFall has a field that is producing at the rate of 300 bushels to the acre. Thomas D. Crowe has a patch that is producing about 150 bushels to the acre. His field was brought to town a few days ago a dozen potatoes that averaged about four pounds each. Some of them weighing as much as five and a half pounds. There have been plenty of big potatoes grown in the past but it is seldom that the large potatoes have been so general as they have been this year.

So far the growers of the record crop of sweet potatoes have been making big money off their crop. They have been getting around a dollar a bushel, but with the tremendous yield that price is not expected to last very long. But even at fifty cents a bushel with the yield that has been made the sweet potato crop will be one of the most profitable that the farmers will grow this year. So many have been encouraged by their success with the crop that already they are planning to greatly increase their acreage next year and there is a great deal of agitation for the erection of a potato house. It has been suggested that the farmers join together in a co-operative enterprise and erect the house at Columbia, where the crop could be marketed gradually and not all be thrown on the market in the period of a month or two.

The regular meeting of the Woman's Auxiliary of the American Legion will be held at the parlors of the Bethel House at 3 o'clock tomorrow afternoon. The members are earnestly requested by the president, Mrs. Woodson, to be present.

Drunken Man In Quarrel Shoots 3 and Suicides

Ford Advocating Higher Salaries For U. S. Judges

(By United Press.) DETROIT, Oct. 6.—Vastly higher salaries for United States judges as a step to speed progress to a "new era" was proposed by Henry Ford in a statement to the United Press today. Mr. Ford wants supreme court justices paid \$75,000 annually with no lesser federal judge receiving a salary below \$25,000. "The judges would then be 'secure from resentment of the powerful interests against whom they might be called upon to decide,'" the statement said.
