

MILAN EXCHANGE.

W. A. WADE, Editor and Publisher.

SUBSCRIPTION RATES. Two dollars a year...

THURSDAY, MARCH 19, 1874.

Last Tuesday was generally celebrated in the larger cities, it being St. Patrick's day.

The Worcester Spy advises Gen. Butler to go to Japan and stay there, which induces the St. Louis Republican to remark that "some folks never have any feeling for foreign nations."

The ceremony of cremation was recently put in practice in England, upon the body of Lemontina Smith, a famous gypsy oracle. More than a hundred Romany "chals" attended the funeral.

The New Orleans Picayune says that on the 2d instant one of the railroad corporations of its city threw into the Mississippi river forty-seven thousand counterfeit nickles, all of which had been received by its lines in payment of fares during the year.

Archbishop Purcell, of Ohio, as well as Rabbi Wise, of Cincinnati, has taken public position against the women's temperance movement. Like Dr. Wise, the Archbishop expresses the opinion that the moderate use of stimulants is not, in itself, a sin or crime, and that at all events it cannot be prevented.

Mrs. Phebe W. Cousins, of the St. Louis lawyer, who has been lecturing in N. Y., says she was in Washington during the excitement consequent upon the withdrawal of the name of Williams and Cushing for the Chief Justiceship.

The Boston Advertiser mourns over the Democratic victory in New Hampshire. It admits that the Republican majority, averaging four thousand five hundred in the last ten years, has been wiped out, and that the result "makes the inevitable tendency of our politics, the waning power of once popular leaders, the unwillingness of large classes of intelligent voters to give allegiance to a party which fails to keep its promises, the settled and increasing dissatisfaction of the country with the administration as it manifests itself in its appointments and in its treatment of the great questions of the hour."

Albert C. Franklin, a prominent citizen and noted turfman, living in Sumner county, died at his residence on Saturday morning last, and was buried in the cemetery at Gallatin on Sunday. He owned one of the largest farms in the county, and was prominently connected with the breeding of thoroughbred stock, being the owner of the noted Arizona and other fine racing stock.

It has been repeatedly stated, of late, in various quarters, that the horrors of the Juggernaut are a mere fable, or that if they ever existed they have no reality at the present day. On the other hand, the Christian Intelligenceur learns from an eye-witness that the ferocious superstition is as rife as ever, and continues to immolate its living victims.

The Savannah Republican reports an incident to the credit of the late Senator Sumner as follows: We are informed upon the most undoubted authority that during the pendency of the Senatorial election in the Virginia Legislature, Mr. Sumner warmly espoused the cause of Mr. Hunter. He sent word to Richmond begging that Mr. Hunter should be returned to the Senate, giving as a reason the Republicans were tired and disgusted with carpet-bag Senators, and that the country needed wisdom and experience, ability and patriotism to help to save it from disasters which seemed to be impending.

TENNESSEE NEWS.

Brownsville has shipped, to March 11th inclusive, 19,045 bales of cotton, and has still some six thousand on hand and in the country.

The Shelbyville Commercial of the 13th inst. learns that the leading men in the several districts of Bedford county are taking preliminary steps for the purpose of appointing delegates to meet in county convention to nominate candidates for county offices.

The Bolivar Bulletin says: If there is a man north, east, south or west of you who knows how to keep hotel and is desirous of securing one of the neatest hotel buildings in the State of Tennessee let him come to Bolivar. A splendid opportunity is now offered. We will thank our exchanges to make a note of this.

The Bolivar Bulletin says: The thousands of plum trees around town and in the adjacent fields are all in bloom, and, as yet, have sustained no damage. The same is true of the peach trees, and without a cold snap of weather comes upon us--of which little fears are entertained at this late day--there will be an abundance of delicious fruit in this section the present year.

The Murfreesboro News furnishes the following: The revival among colored folks, which commenced here some time during the latter part of the war, still continues with unabated interest. Brack's Ark and the 1st Colored Baptist church produce nightly scenes that beggar description. Singing, shouting, shrieking, ranting, tramping, are of regular occurrence until a late hour, and on Saturday nights, we are informed, the noise and confusion is kept up till the dawn of day.

The Jasper Herald of the 12th inst. says: There was an election in Jasper last Saturday for a Board of Aldermen, which resulted in the election of five colored men as members of the board; not a single white man was elected; the board is African all the way through. The negroes were put forward and elected by certain persons who are opposed to any municipal government in Jasper, for the purpose of defeating any attempt on the part of the citizens towards having a regular board. As to whether the newly elected board intend to qualify and serve we know not.

Last Wednesday evening says the Bolivar Bulletin, while beating around the bush and pounds for game, Joe Yourie unluckily received the greater portion of a load of bird shot from the gun of his companion in the hunt. Although severely peppered Mr. Yourie was not seriously hurt, and seemed to take his misfortune rather lightly. At the time of the firing the gentleman who held the gun did not see Yourie, and hence no blame is attached. But the lesson remains--gentlemen as well as youths should be careful when trying to kill birds lest they inflict damages on each other.

The following little tale is from the Paris Intelligenceur: There are two ladies in Henry county, one aged 61 and the other 63 years, who have lately cut their third set of teeth. Mrs. Culbertson, the younger, has only four of these new cut teeth--two above and two below, in front. A Mrs. Chapman, a widow, has a full set above and below. About six months since she had the remnant of the old teeth removed by a dentist, preparatory to having an artificial set put in. When the dentist came to take the cast for the artificials he found a full set of natural just coming through the gums.

GENERAL NEWS. Fourteen fathers in Quincy, Ill., have signed a pledge not to allow their daughters to take music lessons until they know how to make good bread.

Cyon, a Russian, has invented an apparatus which he calls the cardiograph, for heart-register. It is warranted to disclose the real feelings of the heart of the person to whom it is applied. Young men will at once see the advantage of supplying themselves with a cardiograph before popping the question. Our devil says that they are not needed in this place. Something to the reverse is needed, however.

A Vermont paper says the seal of the State was first engraved upon a horn drinking cup, with a jack-knife, by an English officer who frequently and secretly visited Gov. Chittenden. During one of the visits he took a view from the west window of the Governor's house of a wheat field in the distance, beyond which was a knoll with a solitary pine upon the top, which view he engraved upon the cup. The engraved cup attracted the attention of Ira Allen, who adopted the device as the State seal.

The Washington correspondent of the St. Louis Republican writes under date of March 11: "Almost before the warmth had left Senator Sumner's corpse to-day, Butler had sent telegrams to all his henchmen in Massachusetts in relation to the succession. His object is not so much to elect himself, for he knows that would be impossible, but he represents the white house in this action upon this matter." The question of Sumner's successor is being agitated in Massachusetts, and the probability is that the contest will be an exceedingly bitter one. It is thought the election will occur on the 24th inst.

THE RELIGIOUS WORLD.

The American Baptist Missionary Union requires annually \$250,000 to carry on the work of the society; but during the current fiscal year, which ends in April, only \$105,000 have been contributed. The deficit is attributed to the panic.

The Staunton, (Va.) Vindicator says that the "Rev. Dr. E. E. Wiley, President of Emory and Henry College, is spoken of for one of the vacant Bishoprics in the M. E. Church, South. It is likely that two more Bishops will be elected at the General Conference, which convenes at Louisville, Ky., on the 1st of May next."

The New Jersey State Senate rejected the constitutional amendment providing for the taxation of church property, by a vote of 16 to 1. A petition is now in circulation, and will soon be presented to the Massachusetts Legislature, praying the abolition of the exemption of churches from taxation. It is estimated that church property in that State amounts to at least \$25,000,000.

It will be remembered that some weeks since Rev. W. H. H. Murray, pastor of the Park street Congregational Church, Boston, preached a sermon, the animus of which was derogatory to the foreign missionary work. A few Sundays since, the collection in favor of foreign missions in that church amounted to \$3,622, which shows that a pastor's utterances are not always observed, and that the members of Park street have not yet determined to abandon the heathen who are not civilized.

The revival of religion which commenced among the members of the United Society of Deaf Mutes, working in Freeman Place Chapel, Beacon street, Boston, some weeks ago, shows no diminution of the interest, but a decided increase. Thus far, five have come to a knowledge of the faith and have expressed the same. Others are still inquiring the way, and the number is weekly added to. Renewed remembrance is asked in behalf of the Society on the part of all lovers of the cause of Christ.

The Reformed Episcopal Church has received an accession in New Brunswick, Canada, the members having subscribed the following declaration: "We, whose names are hereunto appended, in humble reliance upon Almighty God, do hereby now declare our separation from the Episcopal Church of New Brunswick, presided over by the Right Rev. John Lord Bishop of Florida, and that we unite with the Reformed Episcopal Church of America, the Right Rev. George David Cummins, D.D., presiding.

A lady writing from Lapwai, Nez Perces, Indian Reservation, says: "It is a pretty sight on Sabbath mornings to see party after party of Indians on horseback, dressed in their gay-colored blankets, descending the winding trails on the steep mountain sides, to attend church. Some of them travel ten or twelve miles to church, and a more attentive congregation could not be, and, as in more civilized communities, the women outnumber the men. They sing hymns translated for them into their language, and their earnestness and apparent devotion atone for lack of melody in their voices, for they sing in a way that is peculiarly their own, and which it is impossible to describe. In their prayers they are very fervent, and display none of the hesitation and backwardness which we sometimes see in doctrinal meetings among our own race. They never pause for a word, but pour out their hearts with the true eloquence that is born of earnestness."

USEFUL INFORMATION.

Means of Checking Coughing, Sneezing, Etc.

The following is an extract from the second lecture of Dr. Brown-Sequard at Boston: There are many facts which show that morbid phenomena of respiration can be also stopped by the influence of arrest. Coughing, for instance, can be stopped by pressing on the nerves of the lip in the neighborhood of the nose. A pressure there may prevent a cough when it is beginning. Sneezing may be stopped by the same mechanism. Pressing also in the neighborhood of the ear, may stop coughing. It is so also of hicough, but some less so than for sneezing or coughing. Pressing very hard on the top of the mouth inside is also a means of stopping coughing; and I may say the will has immense power there. There was a French soldier who used to say, whenever he entered the wards of his hospital, "The first patient who coughs here will be deprived of food to-day." It was exceedingly rare that a patient coughed then.

There are many other affections associated with breathing which can be stopped by the same mechanism that stops the heart's action. In spasms of the glottis, which is a terrible thing in children, as you well know, as it sometimes causes death, and also in whooping-cough, it is possible to afford relief by throwing cold water on the face, or by tickling the soles of the feet, which produces laughter, and at the same time goes to the gray matter that is producing the spasm and arrests it almost at once. I would not say that these means are always successful. I would not say that we can always prevent cough by one will; but in many instances those things are possible, and if you remember that in bronchitis and pneumonia, or any other acute affections of the lungs, hacking or coughing greatly increases the trouble at times, you can easily see how important it is for the patient to try to avoid coughing as best he can.

CHARLES SUMNER.

The Body in Transit from New York to Boston.

NEW YORK, March 14.--Stephen Preston, Minister Plenipotentiary of the Republic of Haiti to this country, has received a dispatch from his government, directing him to assist at the reception of the remains of Senator Sumner and accompany them to Boston, and to attend the funeral in his official capacity.

The remains of Charles Sumner were taken from this city to Boston to-day in a special train, and the departure was characterized by almost a little demonstration as the reception last night. Only a few people gathered in front of the Fifth Avenue Hotel when the coffin was borne to the hearse, and the only organized delegation to accompany the remains to the depot other than those from Washington, was a committee of the Union League. The city furnished a police escort. As the funeral procession moved through Fifth avenue to the depot, many citizens removed their hats, but many seemed unconscious that the hearse contained the remains of Charles Sumner.

Boston, March 14.--Faneuil hall has seldom been the scene of a popular demonstration of love and respect exceeding the one exhibited at noon to-day. An hour and a half before the exercises commenced ladies were admitted to the balconies which were immediately filled, and soon after the doors were thrown open to the public and the hall filled to the utmost capacity. The hall was elaborately decorated. On the platform were Vice President Wilson and a large number of distinguished men. Opposite the platform was a portrait of the late Senator with the date of his birth and death. Mayor Cobb presided. Among the Vice Presidents were Wendell Phillips, Robert C. Winthrop, Richard H. Dana, B. R. Curtis, Sidney Bartlett and Wm. Lloyd Garrison. The services were commenced by the reading of an extract from the original manuscript of Sumner's eulogy on President Lincoln, which was followed by prayer by the Rev. Dr. Lathrop. Richard H. Dana then addressed the meeting, and offered a series of resolutions which were adopted. Addresses were also made by J. B. Smith, A. H. Rice, Rev. E. E. Hale, ex-Mayor Gaston, Ralph Waldo Emerson, N. P. Banks and others. Governor Washburn requests the officials of cities and towns throughout the Commonwealth to make provision for the funeral, three o'clock Monday, by the tolling of bells and such other services as they may deem appropriate.

Being to the limited capacity of Doric Hall, the funeral services over the remains of Senator Sumner will be held at King's Chapel. The Daily Advertiser strongly indicates its preference for Charles Francis Adams for Sumner's successor over Judge Hoar or Dawes.

The remains of Mr. Sumner, in charge of the Congressional Committee and Massachusetts delegation, arrived at 7 o'clock this morning. Ten thousand people were at the depot. A committee, composed of Mayor, Aldermen, members of the Legislature and Board of Trade, received the body; and, escorted by a detachment of the first battalion of cavalry and sixty police, conveyed it to the State House and deposited it in Doric Hall, which was heavily draped. A detail from the Shaw Guard (colored) will form the guard of honor. The remains will lie in state until Monday afternoon, when they will be removed to King street chapel, selected for the services. At 11 o'clock a depot in Springfield and Worcester immense throngs had gathered when the train arrived. The Congressional Committee was introduced to the Committee of the Massachusetts Legislature, and at the latter place a delegation of colored citizens took the train and accompanied the remains to Boston.

A CENTRAL AFRICAN CUSTOM.

At Masindi Sir Samuel Baker found about eight thousand men, among whom he could not see a single woman. This was regarded as a bad sign, for whenever you see plenty of women among the natives you were pretty sure of peace; the absence of women was a sure sign of hostility. Accordingly the King, a very bad fellow, behaved most treacherously, killing some men who had been sent back to Pattiko, and sending into the camp jars of a sort of iron cider, which was poisoned. The result was that forty of the troops were lying on the ground at one time, singing neatly. "The next morning the expeditionary force was attacked by seven or eight thousand negroes. Baker's men--four hundred Egyptian troops--being well drilled, protected the camp effectually, and the fifty Snider rifles with which they were armed saved the expedition. With their rockets also they set fire to and destroyed the whole town. Unfortunately the King escaped. This young man had distinguished himself by murdering his family under those circumstances. When a King dies, his body is placed in a sort of huge gridiron, and then is toasted by a fire kindled beneath. The body then lies in state unburied, and is the signal for civil discord. The sons fight until one of them is victorious, and he sticks his spear into the body of his parent as a symbol of victory. Then the funeral rites take place, corresponding with those recorded of ancient Scythians.

A large pit is dug in which some of the deceased king's wives are put, and the corpse is lowered down till it rests on its knees. Then there is a raid made on some of the neighboring villages, and the people captured are brought to the brink of the pit, where their arms and legs are broken, and in this mutilated condition they are thrown down to the corpse beneath. Then the earth is piled upon them, the people stamp it down upon this mass of writhing humanity, and the horrid rites are complete. Such had been the ceremony observed at Masindi, and the son who had succeeded to the throne then invited his relations to dinner and caused them all to be massacred. The Troy Signal says Hon. Thos. R. Shearon, will be a candidate for Congress from this district, and that he is willing to submit his claims to a convention.

A NEW CRIMINAL.

The Fayetteville Benedictine Organizing against King Macebohy.

The Fayetteville Express insolently remarks that "A few Fayetteville blockheads, who are hopelessly committed to matrimony, have inaugurated a movement, which however ridiculous it may seem, is intended as a counter-wave to the tidal wave of temperance," and says that "despite the noble character of the movement, it is not to be sneezed at. A meeting of the indignant husbands, all of whom labor under the erroneous impression that they are free agents, has been held in this place, to look to the best means of putting down snuff. Mr. Strong S. Mell was called to the chair, and Mr. S. Neze requested to act as secretary. In his inaugural address the chairman said: 'The women of the West, crossing against intemperance, although we that we have a duty to perform also. We must crusade somewhat ourselves, and what shall we crusade against? A million mouths, made to be kissed, suggest the answer. This enemy we must fight is snuff!' In conclusion he said: 'We must suppress the diabolical traffic by fair means if possible, by foul means if necessary.' P. U. G. Nose next addressed the meeting. He said: 'Dejected but determined Benedictine: I heartily endorse this grand movement. It is undoubtedly an admirable dodge, whatever may be said to the contrary by the amazonian female, who, although she acknowledges me at social gatherings to be her sovereign lord, compels me to manufacture her hickory toothbrushes.' The speaker was visibly affected at the close of his remarks, and all applause was suspended out of respect for his feelings. Several gentlemen, whose experience harmonized with Mr. Nose's, made feeling remarks.

A motion to hold prayer-meetings immediately in front of the dwelling houses of ladies addicted to 'dipping,' was favorably received and carried, and a committee was appointed to remonstrate with them privately as well. A church was then organized to furnish vocal music, and Mr. D. O. N. Key was unanimously elected first bass.

A Tullahoma special of the 14th, to the Nashville Union and American, says: "The whiskey war has been commenced here. A revival of religion being in progress at the Methodist Church, North, Rev. Mr. Wood accompanied by a number of ladies visited the saloons and commenced service by singing. One of the keepers being much exasperated, sat out a bottle of what was supposed to be powder with five cartridges and lighted the same, and a party, fearing an explosion, retreated about twenty feet and continued the service. The other keeper took things more calmly and set out chairs for them, and otherwise treated them kindly."

The Baptist 'Year Book for 1873' gives the total number of Baptists in the United States at 1,633,359, an increase for the year of 48,707. The present number of Baptist ministers is 12,598, an increase of 706; number of churches, 29,520, an increase of 800.

HOW THE LAND LIES.

The Political Complexions of the Congressional Districts.

The following tables will show the voting population and the political complexion of the congressional districts in this State:

Table with columns: Congressional District, Voting Population, and Political Complexion (Republican, Democrat, Unionist, etc.). Rows include I-Carter, II-Anderson, III-Bledsoe, IV-Clay, V-Redford, VI-Cheatham, VII-Hickman, VIII-Benton, IX-Crockett, X-Fayette.

TELEGRAPHIC EPITOME.

The Freedman's Bureau-General O. O. Howard court of inquiry resumed its sessions in Washington Monday, at which but little progress was made.

A bill passed the house of representatives Monday, appropriating thirty thousand dollars, to be expended in the course of the coming fiscal year in improving the mouth of the Mississippi river.

Judge Brady, of New York, has granted the motion of the counsel of Wm. M. Tweed to make the clerk's record of his sentence conform to the language used by Judge Davis, thus substituting the county jail for the penitentiary.

The steamship Locomo, from Alexandria for Algiers, with two hundred and seventy-eight pilgrims returning from Mecca, encountered a terrific gale in the Mediterranean sea, during which a huge wave washed off one hundred and seventeen pilgrims, none of whom were rescued.

A dispatch from Raleigh, North Carolina, says that passengers from Weston, on Tuesday morning's train, confirm the reports of rumbling noises on the surface, and a general upheaving of Bald mountain in western Carolina. The people living on or near the mountain are moving, and a volcanic eruption is expected. Reporters left Raleigh Tuesday evening for the mountain.

There are more than 60,000 Protestant churches in the United States. There are about 3,000 Roman Catholic churches. These are facts to think of when estimating the power of religion in this country.

NEW ADVERTISEMENTS.

NASHVILLE Union & American, (THE PEOPLE'S PAPER.)

The Great News, Family, Commercial, Political and Agricultural Journal of the South. It gives a telegraphic news from all parts of the world as soon as any other paper published in America.
