TENNESSEE NEWS.

Hobbs' Choice—Either for the Banner or Beech to be Victorious—Journalistic Jealousies.

NASHVILLE, June 19.—Colonel John C. Burch, comptroller of the State treasury, instituted suit against the Banner yesterday for libel, laying his damages at fifty thousand dollars.

The Union has not been libeled that when the libelous charges relative to the sale of the comptroller by Mr. Hobbs, and the purchase thereof by Mr. Burch, appeared in a Radical paper last summer, these charges were promptly and explicitly denied by Col. Burch and Governor Brown and Mr. Hobbs, in cards over their own signatures.

It is reported that the charges until they have recently been revived, in a most offensive manner, by the Banner. The Banner yesterday also instituted suit against Colonel John C. Burch, Ir. P. Jones and Travis Williams, proprietors and part owners of the Union and American, for libel, laying their damages at sixty thousand dollars.

The declarations and specifications have not been filed, and will not be until the September term of the circuit court. The Banner, in commenting editorially on the suit brought by Colonel Burch, uses the following language, which is supposed to allude to the Womack-Hobbs suit here, which is a declaration filed in the law court of Davidson county, in which Ex-Comptroller Hobbs, in consideration of large sums of money, sells and lands real and personal property to be paid, is accused of having sold and transferred his interest in said office and in pursuance of an agreement entered into and transferred the same by a formal resignation.

What does this mean? On this hinges a great scandal, which the Banner nudily hinted should be cleared up. Is it for this suggestion that we are prepared to build a new church edifice. The Banner asks: 'Doesn't the regular session of the Dankard Conference in notifying the Connection that they wouldn't give the kiss of peace to the colored brethren unless they would call for an amendment to the civil rights bill?'

The election of \$450,000 of the publishing house of the Methodist Episcopal Church South, for property used and destroyed at Nashville during the late war, seems likely, from rumor, to pass the Committee on War Claims, in spite of the bitter note made against it by Judge Lawrence, the chairman of that Committee.

The Episcopal Convention sitting at Milwaukee, Wisconsin, elected Dr. Edward A. Wells, of Minnesota, to be the Bishop. The election of Bishop Wells was the result of a conference between the laity and the clergy, the clergy voting for God, and the laity voting for Dr. Wells, of New York, and the laity having as often rejected the nomination, Bishop Wells ranks high as a theologian and scholar.

A minister was once heard explaining to his congregation that Uriam and Thumonia were the names of two precious stones which were set in the high priest's breastplate of judgment, and when consulted they displayed the will of God by showing a wonderful brilliancy, though they showed no lustre if the water retired were disappointed. 'My brethren, this is what I mean! Jewish and Christian expectations tell us concerning these two precious stones. The stones are lost, but my christian brethren, we need them. We have a surer means of discerning the will of God, and still it is by Uriam and Thumonia, if we alter a single letter in one of these mysterious words. Take your Bible, my brethren, use him and thumb him, and you will discover the will of God as surely as ever the high priest did by the breastplate.

Phillips county, Ark., has cotton blooms.

Peaches and apples have begun to ripen in Southern Mississippi.

There is the best stand of cotton throughout North Carolina known for many years.

The late rains have been quite beneficial to growing corn and cotton in West Tennessee, but a very short outcrop is inevitable.

The Grand (Ark.) Beacon thinks the plum crop in that section is like a few politicians—it knows of a little worry and only about half developed.

The grain crop of Tarrant county, Texas, is almost if not entirely harvested, and is one of the finest ever raised in the country.

Crops in Cataosa, Hall, Burk, Murray, Houston, Pierce, Wilkes and Davley counties, Ga., and along the Ocmulgee river, are generally in a fine condition.

The Lynchburg, Va., News says: 'But very little tobacco has been planted, and even should there be a favorable season, the great scarcity of plants will prevent the planting of anything like an average crop.'

A man calling himself H. H. Williams has been imposing upon the good people of Covington for several days, by pretending to be an ex-confederate soldier and man, and says that he is subject to hemorrhage of the lungs brought on by a gunshot wound in the war. His manner of exciting sympathy is to fall on his back on the sidewalk in front of some dwelling, having previously filled his mouth with some fluid resembling blood. When turned over by some good Samaritan he ejects from his mouth an enormous quantity of this fluid and begins to talk in a whisper. We warn every one against this swindler and dead beat. The man is well and too lazy to work, and has been playing this trick for eight or ten years in different parts of the country. Pass him round.
