SPARKS.

The weather continues delightful. Next Tuesday is election day. Be sure to vote.

There was a total eclipse of the moon last Saturday night. But few Milanese saw it.

A large number of our citizens went to Humboldt Monday, to hear Porter and Maynard.

Ye gentle and child-like drummer has been here this week—about seventy-five or forty of him.

Col. Savage is still circling around after Johnson, showing up his record. We understand he will address our people at some future day.

Maj. Inman states that work will commence at once on the Tenn. Cent. road and the work be put through without any further delay.

The Trenton News-Gazette doesn't put Dr Jordan's name at its mast-head with the balance of the ticket.

One of our lawyers had to continue an important case at the present term of the Law Court because his client was "in Olion bottom gathering walnuts."

A caged monkey attracted the attention of a crowd at the depot Monday. One of our prominent peace officers, like Darwin, thinks he is akin to the human race.

Vote the straight ticket next Tuesday. Don't be deceived into voting split tickets under any pretense.

An elegant bouquet was started to us by a charming young lady of a neighboring county a few days since, but some miscreant stole it while in transit.

Dr Jordan made a telling speech at McKenize last Saturday, just before the gubernatorial candidates commenced their debate.

The State docket was taken up Tuesday of this week. Some important cases will be disposed of this week.

A large crowd was in town Monday to hear Porter and Maynard speak.

The large Presbyterian Church was densely packed. Porter led off in an able speech exposing the Narraganset record.

Gov. Brown spoke yesterday to a large crowd.

Our community is at peace; every one is busily at work; no time for loafers.

The farmers have gathered most of their cotton and are now sowing largely of wheat, which we think is the only way to redeem our people from starvation or suffering.

CARROLL COUNTY ITEMS.

The Huntingdon Times of last Thursday contains the following items of interest:

There are in Carroll county 4,500 white, and 1,378 colored children of scholastic ages.

We learn that Mr Green McCaclin, residing four miles west of this place, while carefully handling a pistol yesterday morning, accidentally shot himself, the ball taking effect in his thigh, inflicting a very serious wound.

We regret to learn of the death of Mr Allen Bowden, an old citizen of this county, which occurred on last Monday. Mr Bowden was among the first settlers of this county, and bore an irreproachable name and left many friends behind him.

The Republicans in this county will have no means untried to elect their candidate for Representative. They already know that the election of a Republican to the office of Governor, member of Congress, State Senator, or Floater, is a moral impossibility; not so, however, with the election of Representative, for two years ago Mr Brooks was elected by a handsome majority, and to effect his re-election they will be willing to throw off on Maynard and Muse.

Whereas, The permanent establishing and sustaining of our agents, systems of trade and manufactures is of paramount interest to the success and prosperity of our order, believing them, from past experience in their business transactions, to be every way worthy of our confidence and patronage, and

Whereas, The Direct Trade Union, of Georgia, from evidence before us, seems to embody every element necessary to success and the ability to carry into effect the objects set forth in their charter, and by their proposed system of advancing three-fourths of the worth of cotton on arrival at their agency at Savannah, Georgia, which would be equal to or more realized at the home market, thereby giving present and permanent relief with the chance of securing the rise in the price, which is sure to come, and only pay a mere nominal sum, compared to the present system of advance storage, interest, &c.

Resolved, That we recommend and urge upon the members of our order in West Tennessee, to sow largely of wheat, grasses, &c., plant largely of the crops necessary for food for both man and beast, and that we are willing and more than anxious to cut down our cotton crops one half in acreage, thereby giving rest and improvement to our lands, and produce ample provisions for home consumption, and at the same time producing a crop of cotton that will yield as much in value as heretofore, and for the accomplishment of this we earnestly solicit the co-operation of all cotton growing States, by bringing this proposition before their subordinate Granges, and take such steps as will lead to a convention of said States to establish and set on foot a system that may secure a hearty co-operation that these ends may be accomplished.

Resolved, That the members of this Grange tender their thanks to Humboldt Grange No. 7, and to the citizens of the town and vicinity for the hospitable manner in which they have treated the members of this body while in their midst. And also the proprietor of Shaw's Hall and of the city hotels and to the different railroad officials for their kindness.

Resolved, That the Secretary of the West Tennessee Grange shall enroll on his books the member of each subordinate Grange represented, and where delegates represent a county council or in part, he or they shall bring the member of each subordinate Grange so represented as well the county council, and when any county council is only represented in part he or they shall give the member of the granges represented.

Resolved, That we further urge subordinate granges to unite themselves as soon as organized to county councils, and in such counties where no councils exist we recommend the formation of such.
