

AUTOMOBILE OWNERS, ATTENTION!

Automobile rates on insurance policies have been greatly reduced. The small towns do not have to pay for the city losses. Car owners cannot afford to take the risk when, for a small premium, they can be protected.

We will be glad to explain this protection.

THE MOST

DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

Sleep is the Body's Building-up Time

ONLY deep, sound sleep can restore the energy spent in your day's work. People who know the facts are going beyond the mere looks of a bed, and asking about sleeping quality.

There isn't anybody anywhere but will sleep better in a Simmons Metal Bed and Slumber King Spring.

THE Simmons Metal Bed is noiseless. It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle, or feeling of unsteadiness. It is perfectly rigid—feels and moves like one solid piece.

The Simmons Pressed Steel Corner Locks are protected by basic patents. They are the most fundamental inventions of modern bed manufacturing—exclusive with Simmons, not to be duplicated or imitated. And these patented corner locks have made possible the Three-piece Bed—the new Simmons idea—the spring forming a single unit with the side rails.

If you want the most relaxing and constructive sleep anyone can get, you'll find it in a Simmons Firm Bed. Everywhere people of refinement are learning that there's nothing like a separate bed for promoting perfect rest and good health. No doubt you're tired of trying to get the right kind of sleep in a bed made merely for looks. You'd be glad to get a good metal bed. The Simmons Bed comes in brass, and in enamel with or without brass trimmings. Also beautiful natural wood effects. We have them in stock now and invite you to see and judge their merits for yourself.
