

FEEBLE BLOOD WORKS HAVOC

Gude's Pepto-Mangan Makes Red Blood; Liquid and Tablet Form.

When blood becomes thin and weak it is due to a falling off in the number of red blood cells. It is easily recognized by the pale skin or a bluish complexion, loss of appetite or unnatural irritability and a sensation of weakness. It is not dangerous at first. In fact, many people scarcely notice it and go on for days, thinking they will be better the next day.

The great danger is in the possibility of becoming seriously ill from disease, which can work havoc in a body that lacks the endurance and resistance in rich, red blood.

Taken in time and steadily, a few bottles of Gude's Pepto-Mangan are a great help. It improves the quality of the blood by adding red blood cells. They check the weakness, improve the appetite, and clear the complexion.

You can get Gude's Pepto-Mangan in liquid and tablet form at your druggists. Get the genuine with the name "Gude's Pepto-Mangan" on the package. Advertisement.

Missionary Society.

The pretty suburban home of Mr. and Mrs. W. D. Fry was thrown open Monday afternoon, October 30, to Circle No. 3 of the Missionary Society of the M. E. Church. The home was artistically decorated in autumn leaves, fruit and jack-o'-lanterns, a note of Halloween. Music and readings and a contest proved to be all very delightful, after which the guests were invited to the parlor to view the many pretty articles received. A nice sum was realized from the free-will offering. Delicious refreshments were served and expressions of genuine pleasure were extended to the hostess.

A Great Success.

Dear Sirs: Perhaps it will be of interest to you, and those interested in school work, to hear about our box supper at Turnage Schoolhouse.

We had our supper on the 29th inst. and realized one hundred fifteen dollars (\$115.00) from the sale of the boxes. One small box of home made candy, about 1½ pounds, sold for ninety dollars and forty-four cents, which we believe is a record, in this county, for one box.

We had quite a large and orderly crowd of patrons out to the supper. A great interest is being shown in the school and its work.

We are hoping, with the interest shown, to either remodel our schoolhouse or consolidate with another school and have a larger school with better facilities.

Hoping this will find space in your columns. Respectfully,

JAMES H. WISE, Prin. Elbridge, Oct. 31.

High School Locals.

Everyone knows, or should know, that two of the biggest games of our season were played last Friday on our courts. The first was the football game with the speedy eleven from Carr Institute, Fulton. The second was the basket ball game with Alamo High School, the first game to be played by the girls. Both games were fast and hard fought but we were victorious in both. And now our principal informs us, each and every one, that eight more important and difficult games will be held on Thursday and Friday, the 3rd and 4th—better known as the first quarterly exams.

On Monday night the Hi-Y Club, a very estimable organization, entertained the entire Senior Hi and faculty with a Halloween party in our gym. After games and other frolics were over delightful trappé was served.

The first joint meeting of the two literary societies was held last Thursday. A good program was given, including opening addresses by presidents of both societies.

Let's all be sure and see the game with the heavy South Fulton team on our court Friday.

Death of Mr. Will Hauser

Mr. Will Hauser died at his home in the vicinity of Pleasant Hill on the 14th of October. Deceased was 59 years of age. He had been sick for several months and was in bed nine weeks, but bore his suffering without a murmur and was ready when the Master called. Mr. Hauser professed religion and joined the Cumberland Presbyterian Church at Pleasant Hill in 1886. He lived a consistent christian and a faithful member and remained with the church after it was moved to Rives.

Mr. Hauser was married to Miss Mittie Holloway, December 8, 1887. Of the union there were five children and Mrs. Hauser and four children survive, viz: Aldrick, Roller and Polk and Mrs. Ruby Manesse. There are also two brothers and five sisters and a stepmother, besides a host of relatives and friends to mourn the passing of the good man.

Blessed is the thought that he is only sleeping.

"Asleep in Jesus, blessed sleep. From which none ever wake to weep."

Mr. Hauser was loved by everyone, esteemed as a citizen and neighbor and honored as a man of fine moral and personal character. We should follow his example and shape our lives to join him with the hosts of the children of God.

Funeral services were conducted by Rev. Thomas and the body was laid to rest in the Pleasant Hill Cemetery.

How's Your Stomach? and Your Liver?

Health is Most Vital to You

Durham, N. C.—"As for Dr. Pierce's Golden Medical Discovery which I use constantly, I don't believe there is a better liver medicine made. I use it for headache, stomach disorders and torpid liver. It is not unpleasant to take and does not leave a constipated condition as so many of the liver pills and medicines do. It does its work and leaves one feeling like a new person."—Howard Holden, 1306 Glenn St.

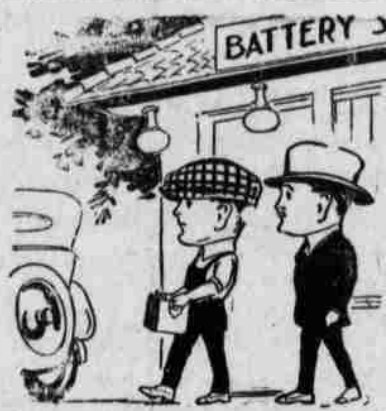

You can quickly put yourself in A-1 condition by going to your druggist and obtaining this Discovery of Dr. Pierce's in tablets or liquid, or write Dr. Pierce, president Invalids' Hotel, in Buffalo, N. Y., for free medical advice.

FARMERS, ATTENTION.

We are needing more live stock every week. Whether you have one animal or a car load, see us or call us up, we can use them at prices that will be interesting to you.

Help the little packers grow to be "big folks." May be we can soon double what we are now using. We are paying out the cash for live stock at the rate of nearly a thousand dollars every day. My, how good that sounds to the farmers.

There is such a wide range between corn and hog prices that it would pay you greater profits in hog feeding than at any time for the past twenty-five years.

Your state of health largely depends upon the food you eat

No one who is physically ailing in any way can afford to take chances with the food he eats. For upon the selection of your food, and upon its perfect digestion and assimilation largely depends your state of health.

The most important thing in connection with the digestibility of any cereal food is the way it is prepared—and the length of time it is cooked or baked.

Grape-Nuts, the rich cereal food made from whole wheat flour and malted barley, is probably baked longer than any other cereal food.

A large part of the starch of the wheat and barley is changed into dextrin and grape-sugar in preparing Grape-Nuts. This is one reason why Grape-Nuts is so easily digested by even the most delicate people.

Grape-Nuts is wheat and barley so processed as to make it delicious and appetizing; even young children thrive on it and grow strong and rosy.

Go to your grocer today and get a package of Grape-Nuts. Eat it as a cereal with milk or cream, or make it into a delicious pudding. It will be enjoyed and relished by every member of the family.
