

BUTLER'S BOOM.

Butler's Governor Inaugurated Amid Great Enthusiasm.

Planning Paved with Good and Glorious Intentions.

on, January 4.—In recent years inauguration has been so popularly... Butler in his inaugural address presented his views upon free suffrage at great length.

necessary to carry on the business, and at higher salaries. He advises that at least one-third of these shall be cut off and their salaries reduced by law.

Amount of Feed. We are often asked how much cotton seed is required to feed sheep over the winter in the sections where it is necessary, and we have asked again of those who have had experience and we find that three bushels per head for the season is considered amply sufficient.

Too Much Complaint About Sick Sheep. When we see, hear and read of so much complaint by flockmasters about sick, drooping, moping, scabby, dying sheep our mind reverts back to the cause of all this, stated by a successful wool grower of Goldman county, R. H. Overal, who says, "the direct and main cause is triflingness."

From Many States. A good California friend, and a regular reader, and occasional correspondent, of the Wool Grower writes us as follows: "Verily, you are booming, and I congratulate you. I read over your list of new subscribers for the week ending December 7th, and was astonished and gratified to see that your subscribers for the week represented so large a scope of country."

Beaumont paid \$200,000,000 for the Suez canal shares which England now holds. These shares are now valued at \$65,000,000, and a French journal remarks that if the income of the canal continues to increase in a ratio equal to the past, in 1895 the British government will receive a dividend amounting to about \$3,250,000, while the market value of the shares will not be less than \$200,000,000, or ten times the value of the original cost.

TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's Iron Bitters. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.
