—A Rio Grande City letter says that on both sides of the river in that country no crops have been made for three years and great destitution prevails among the peasantry, and lawlessness in consequence prevails to such an extent that it would require a company of rangers to each county.

—The negroes and whites of Gonzales county are mixed in a bloody feud in the Hamon neighborhood 12 miles from the city of Gonzales. A negro Saturday last, by the name of Ned Nobles made an attempt to shoot David Dubose with a Winchester, but the gun failing to fire the negro was killed by Dubose. Most of the white citizens were at a camp-meeting and a message being sent there nine left for the scene of the trouble. —A year ago the city council of San Antonio passed an ordinance licensing gambling houses and houses of prostitution. It was knocked out by the supreme court on the ground that the council had exceeded the city charter. The charter was amended by the last legislature and the amendment recently went into effect. Monday the council ordained that houses of prostitution be licensed at \$50 a year. The inmates will be visited once a week by the assistant city physician, and when their physical condition justifies it will be furnished with a clean bill of health good for seven days. For this a fee will be charged. It is the intention to confine the gambling houses and bawdy houses to one district, where they will be under the immediate surveillance of the police.

WESTERN newspapers are urging that immigration has not by any means reached the desired limit, and appear to think that those who press the subject of restriction are not true friends of progress. Undoubtedly the great west needs settlers, come from where they will. But the sort of immigrants that are objected to by the friends of restriction are just the sort of immigrants that expanding California and the newer states of the far west would not care to have forced on them. It is the vicious element, the densely ignorant, the unprogressive who do not assimilate and will not assimilate that should be excluded, and not any honest, intelligent, upright and suitable population for grafting on to the citizenship of this country. The unoccupied lands of the west would better remain unoccupied a few years longer than introduce into the body politic millions of Asiatic and eastern Europeans of a civilization so low or so different from that of the present nation as would materially change it for the worse.

A NASHVILLE special in reference to the Coal Creek troubles says the crisis came Sunday when the miners and their sympathizers from the surrounding country gathered around the camp of the State militia, captured them and shipped them to Knoxville in box cars. The Governor has ordered a number of companies there, and a galling battery. The miners say they shall not land and trouble is imminent. The majesty of the law should be upheld if U. S. regulars have to be sent there by the thousand.

QUAY is to retire from the chairmanship of the Republican national committee. He gives as his reason failing health, and says the position involves too much hard work. Evidently the next campaign will involve much hard work to ever elect a Republican to the Presidency, and Mr Quay feeling his inability to steer the old ship into the Presidential harbor very wisely calls for some one else to take the helm, and if she is wrecked he can say he was not the pilot.
