## AMBER LIGHTS

IN YOUR HOME

Just to show it in action alongside of any other kind of light you may chance to be using.  
 You will be surprised to note the immense volume of light that it gives—a greater volume than you get from three to five house lights of any other type.  
 Its effect on your eyes will be a sensation of rest and comfort, and will reflect for the first time the faces of your family, under artificial light, their natural soft, warm colors and the harmonies of decoration and dress will be undisturbed.  
 We will send out and attach this light to any gas fixtures you designate, you to have the privilege of buying or refusing the light after inspection.  
 If you wish to keep the light we will charge its cost, \$1.00, to your account—two payments if you like.
