

## BANDITS NORTH COAST LITTERED WHEEL UP

### Three Bandits Board Train, Shoot Into Cars and Rob Pullman Passengers.

### SHOOT ENGINEER TO ESCAPE FROM TRAIN

### Secure \$500 and Escape in an Automobile With Posse in Hot Pursuit.

Grand Fork, N. D., July 20.—Train No. 2, the eastbound North Coast limited on the Northern Pacific railroad, was held up by three masked robbers near Buffalo, N. D., about 11 o'clock last night.

The robbers secured about \$500 in cash by going through the passengers of the observation car, and the two rear sleepers, and shot engineer S. P. Olson, of Fargo, in order to make him stop the train, and made a successful escape in an automobile which they had awaiting them near the scene of the robbery.

### Board Train and Start Shooting.

When the train stopped at the high bridge at Valley City the three men boarded it and went into the observation car. Heavily armed and shooting recklessly in order to intimidate the passengers, they first lined the train crew up at one end of the car and then proceeded to search the passengers.

### Sleeping Car Looted.

The first sleeping car was entered and in order to awaken the occupants of berths, a shot was fired down the center of the aisle narrowly missing the head of one of the passengers and imbedding itself in the woodwork.

### Shoot Engineer.

After searching the occupants of the sleepers they climbed out the diner, over the baggage and express cars to the engine, reaching that part of the train when near Buffalo. They ordered engineer Olson to stop the train so they could get off and when he refused to comply with their request they shot him twice, slightly wounding him. Olson then stopped the train and the robbers jumped off and disappeared.

### One Bandit Wounded.

Poses were out 15 minutes after the robbery was reported and every town for miles around has been notified, but so far no trace of the robbers has been found.

### Police of Juarez Make a Big Catch

#### Recover Valuable Jewelry and Make Important Arrests.

R. T. Wilder, of Chihuahua, has succeeded in locating the valuable nugget bracelet that was stolen from his wife last Thursday while she was a passenger on the Mexican National train in the Juarez station. The nugget, together with other valuables including a sum of money and checks, was stolen from Mrs. Wilder while she was waiting at the station, for the custom inspection of the northbound train. An El Paso man bought the bracelet in a Juarez jewelry store without knowing that it had been stolen.

Later the bracelet was identified by Mr. Wilder and an investigation started. While he and the Juarez police were in the jewelry store, Ramon Ramirez, who was suspected of the robbery came in with other jewelry which he made an effort to sell. He was at once arrested and is now in the Juarez jail. It is believed that a systematic scheme of thieving has been carried on by a gang to which the suspect belongs, and they have been doing a big business among the Americans coming to Juarez from the interior.

At 2 o'clock Thursday morning, Antonio Sanchez was placed under arrest and several of the stolen articles were found in his possession.

Besides the property belonging to Mrs. Wilder, articles and money taken from the other passengers were found in the men's possession.

Assistant chief of police Rodriguez of Juarez has been working on the case for the last week assisted by some of the Juarez police and detective George Harold of the El Paso detective force. The catch is considered one of the most important made since the present force has been in power in Juarez.

## JOHNS BOOSTS RECIPROcity MEASURE

### Declares It Is Democratic Only in Benefits It Will Produce.

### CANADIAN BILL IS UNDER DISCUSSION

Washington, D. C., July 20.—The only respect in which the Canadian reciprocity measure can be considered as agreeing with Democratic beliefs, declared senator Jones of Washington, today in a speech in the senate, is that it will benefit the country.

"On that we can all unite," he said. "It is not in accordance with the Democratic doctrine of a tariff for revenue only. It is not obnoxious to the people of protection under which we have made such wonderful progress."

The senator said he would vote for the bill because although he thought it did not go far enough, it was a step in the right direction.

"It is a step," he said, "toward full and free intercourse with the magnificent people of the north. It will injure no industry here but will stimulate all. It will not decrease the price of wheat but should give us better and cheaper flour."

An American yacht anchored off the town offers refuge to American and other foreign women and children pending the arrival of United States warship. The German consul, as well as the French consul, is giving the local government representatives such protection as is possible.

The enemy occupied the city yesterday afternoon, when the populace practically declared for revolutionists. Since then the situation has grown steadily more grave.

### WORKMEN BURIED UNDER BIG BLOCK OF MARBLE

Pisa, Italy, July 20.—A huge block of marble fell last night at the Teatrara quarries carrying down a large number of workmen with it.

Twelve bodies have been recovered. The work continues in the hope that some of the buried men may be rescued.

### From the Top of the World To Texas With a Sheep Herd

Dr. Charles C. Young Brings Marvelous Karakules From Himalayan Plateaus to Establish Great Ranch at Finlay, to Be Crossed With American Sheep.

FROM the top of the world to Texas is a bit of a jump, but the karakule or broad tailed sheep have made it and brought their 75 pound tails with them. From the Himalayan plateau, the aboriginal home of the white man, to the Finlay, Texas, is an enormous space that Dr. Charles C. Young hopes to span with his wonderful karakule sheep. All but the last lap of the long journey has been covered and it now remains for the doctor to bring his sheep from the Lowden ranch, near Dalhart, to Finlay to complete the trip.

To accomplish this, Dr. Young has worked untiringly for the last seven years and his ultimate success with the sheep from the Himalaya highlands will mark the establishment of an industry which promises more returns in wealth than the combined cattle and cotton shipments of Texas now total.

Karakule sheep are valuable because of the skins produced on their lambs. The pure blood karakule sheepskin, often killed when the lamb is less than three days old, bring prices as high as \$50. When the skins are killed before the birth of the lamb the skin is even more costly because of fine texture and greater pigmentation. But because of the prejudice against this custom and also because of the comparative scarcity of the sheep, the custom is only practiced in the Central Asian districts where the sheep are raised.

Crossing With Other Breeds.

By crossing pure blooded karakule with other American sheep, Dr. Young hopes to establish a great sheep raising industry, not for wool, but for fur, which is used extensively for coats, caps, mufflers and other articles of adornment. Because of the hardy strain of the karakule sheep, called Arabi in the native country, a cross breed with as low a percent of kara-

## REOLUTION SWEEEPING HATI

### Cape Haitien Is Occupied by The Rebels and Federals Are Routed.

### AMERICANS BOARD VESSEL IN HARBOR

Port Au Prince, Hayti, July 20.—The revolutionists occupied Cape Haitien last night. The enemy also attacked Fort Liberté as president Simon and his troops withdrew. The last of the government's battalion embarked under a shower of lead.

The greater part of the defeated federals are now scattered throughout the north. This city and the southern districts are quiet.

### At Mercy of Rebels.

Capt. Haitien, Hayti, July 20.—The city is at the mercy of the revolutionists and is being pillaged. All the generals opposed to the revolution have found refuge in the foreign consulates. The French consul was slightly wounded while offering protection to the local authorities.

### Americans Offered Refuge.

An American yacht anchored off the town offers refuge to American and other foreign women and children pending the arrival of United States warship. The German consul, as well as the French consul, is giving the local government representatives such protection as is possible.

The enemy occupied the city yesterday afternoon, when the populace practically declared for revolutionists. Since then the situation has grown steadily more grave.

### JUAREZ GAMBLING DENS ARE CLOSED

#### Believed That Open Games Have Been Dealt a Knockout.

The gambling dens in Juarez were closed Wednesday night and it is expected that they will not be opened up again, although the managers of the various places were making strenuous efforts to secure permission to open them Thursday morning. Fokes and roulette and other money getting games are thought to be dead in the border city as the new mayor of Juarez, Col. Juan Medina, will probably put a stop to the games. The residents of the city have been fighting gambling in the last few weeks, and hope that the night's action in closing the places will be final.

In nearly every saloon, and in many private clubs all kinds of games have been run wide open, and the people have become worked up over it.

This is the first step of the citizens of the city in reforming the town.

### DOUBLE TRAGEDY OCCURS AT RATON

#### Man Drops Dead While Telling His Wife of a Murder.

Santa Fe, N. M., July 20.—Word comes from Raton of a double tragedy which makes the second murder thus far this month committed in New Mexico. During a fight in a dance hall at East Raton Miguel Urioste was stabbed to death with a butcher knife. Esensio Rodriguez was arrested. Phoenix Sandoval was also arrested. A Martinez, who witnessed the fight dropped dead from heart failure as he told his wife of the occurrence.

The two sons of T. J. Corder, of Redlands, Roosevelt county, were struck by lightning and the oldest 13 years old, was killed instantly, while his 11-year-old brother escaped with a burn in his face.

### AUTO STRUCK BY TRAIN AND FOUR WOMEN KILLED

Troy, N. Y., July 20.—Four women were killed and a chauffeur was seriously injured in an automobile accident at Raceville, seven miles north of Granville.

The automobile was struck on a grade crossing by a train. In trying to cross ahead of the train the chauffeur in shifting to a higher gear, lost the spark and the machine stopped in the middle of the track.

## ANOTHER SHIP OF CHOLERA SUSPECTS

### Several Hundred People Added to Quarantine Colony in New York.

### NO NEW CASES OF CHOLERA REPORTED

New York, N. Y., July 20.—Another ship from the cholera country anchored in quarantine today and added to the company of several hundred immigrants who must undergo individual bacteriological examination before they are permitted on the main land.

Come From Cholera Points.

The new comer was the steamer Principe Di Piemont, from Genoa and Naples, cities which have furnished most of the cholera cases thus far imported. Under the state and federal rules, she will be detained for 10 days and possibly longer.

### No New Cases.

Satisfactory conditions were reported today at both the Swineburne hospitals where the actual cases of cholera are treated and at Hoffman Island, where the health officers are watching some 600 immigrants whose freedom from the disease is still unproved.

No new cases have developed since Sunday and there have been no more deaths since the 17th patient died yesterday at the Swineburne island hospital.

### Draconic Order Issued.

Washington, D. C., July 20.—As a further guard against the importation of cholera, every Italian immigrant will be subjected to an individual bacteriological examination.

This order, the most drastic the government has made to protect this country against the plague, was sent today to the physicians of west Texas at all ports of immigrant ships.

### Little Girl's Tears Cause Pup's Return

A little comedy and some pathos changed amusement into sternness around San Jacinto plaza Wednesday afternoon, and it all happened within the space of two minutes.

The comedy was started by a little three weeks old curly-puppy puppy that seriously objected to being hauled along with a rope in the hands of a Mexican dog catcher, or maybe he had caught sight of the swiftness waiting. Anyhow he growled and tugged, much to the amusement of pedestrians on the street, but amusement gave way to curiosity when suddenly a curt command was heard: "Bring that dog back here." Like the dog catcher, the people turned to view the man who had issued the command, but their eyes found something else to gaze upon.

On one of the plaza seats, a golden haired maiden of about eight summers was sobbing as if her heart would break, and it was upon learning her story that the stranger interfered. To him she had sobbed that she had started home with her puppy, and "horrid Mexican had tied a rope around its neck and taken him away."

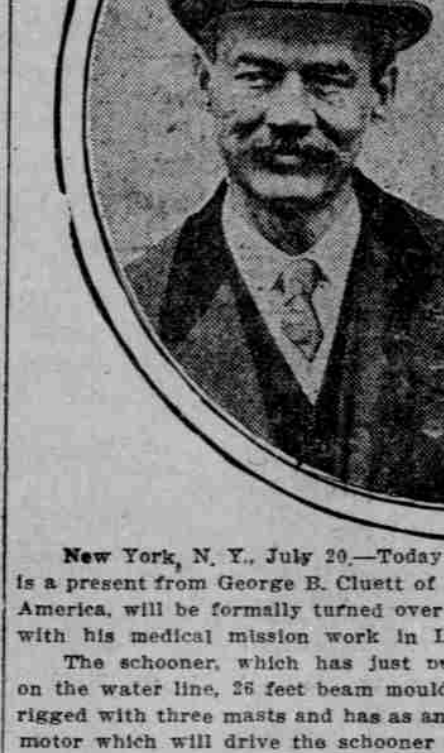

The stranger who had ordered the return of the puppy did not wait for his command to be obeyed but walking swiftly to where the dog catcher was standing, he removed the rope and without a word or backward glance he walked to where the little girl was sitting and returning her playmate, started the child homeward.

The Mexican looked as if he would protest at the action, but as he looked around he saw that others who had once laughed, had now become stern and their expressions conveyed the idea that he had better drive on, and it was only a few moments more until the dog wagon moved.

## PLOT TO KILL DE LA BARRA

### Rich New Yorker Gives Big Schooner to Mission Workers

### DR. AND MRS. WILFRID GRENFELL.

New York, N. Y., July 20.—Today the schooner George B. Cluett, which is a present from George B. Cluett of New York to the Grenfell association of America, will be formally turned over to Dr. Grenfell, to be used in connection with his medical mission work in Labrador.

The schooner, which has just been finished, is 135 feet over all, 115 feet on the water line, 26 feet beam moulder and 12 feet depth moulder. She is rigged with three masts and has as an auxiliary a 75 horse power kerosene motor which will drive the schooner at 8 miles an hour. It cost \$25,000.

## CONSPIRACY BY WHICH DE LA BARRA WAS TO BE ASSASSINATED DISCOVERED.

### ASSASSIN FAILED TO CARRY OUT PLAN

### Provisional President Discredits Plot, But the Police Are Active.

Mexico City, Mex., July 20.—The police have received information of an alleged plot to assassinate president de la Barra. The president discredits the report, but detectives are investigating.

According to the police information de la Barra was to have been killed on the occasion of the exercises last Tuesday on the anniversary of the death of Benito Pablo Juarez, but the assassin failed the conspirators.

### DIAZ RETURNS TO FRENCH CAPITAL

Paris, France, July 20.—General Porfirio Diaz, former president of Mexico, returned here today and visited the museum in the Hotel Des Invalides, where he was received with military honors.

### RASCON GIVES UP PORTFOLIO OF WAR

#### Probabilities Are That Gen. Reyes Will Be Made War Secretary.

Mexico City, Mex., July 20.—President de la Barra has received and accepted the resignations of the secretary of war, Gen. Eugenio Rascon, and of the assistant secretary, Gen. Juan M. Duran.

Gen. Jose Gonzalez Salas was appointed assistant secretary. The retiring officials left it to the president for making public the reason for their resignation, but he withheld it.

There will be no surprise if general Luis Villar, who was in command of the federal troops at Chihuahua during the latter part of the revolution, is named to succeed general Rascon.

The most plausible reason for the retirement of general Rascon is that given by men who have been advisers of Francisco I. Madero since the close of the war, and that he was too closely identified with the old regime. These men said days ago that Rascon would "have to go" and that his place in the cabinet would be filled by a man of Madero's choice.

General Bernardo Reyes has promised to be minister of war under Madero in the event of his election to the presidency, and in view of the somewhat doubtful character of peace in the country, few newspapers have advocated his immediate appointment.

Close friends of general Reyes believe he will continue to support Madero.

### EXPECTS SERIOUS TROUBLE WITH THE MAGONISTA CROWD

Calexico, Cal., July 20.—Senor Gallegos, commander of the Maderistas force which procured the evacuation of Mexicali, Lower California, by the Magonistas for a cash payment of \$600, is in hourly fear of further trouble from the so-called socialist rebels. Under a brother of Francisco Quijada, former commander of the Mexicali Magonistas, a force of bandits is said to be raising the ranches of Americans in the country about Mexicali, just across the line.

John McDonald, an American, who was wounded by a comrade a few months before Gallegos's arrival and appointment, is said to be operating in conjunction with Quijada in the vicinity of Algodones, 40 miles east of Mexicali.

### BLANCO IS ORDERED TO RECRUIT RURALES

Gen. Blanco has been ordered to recruit a force of 300 rurales for duty in northern Chihuahua. This will constitute part of the command of the general in his new position as comandante of rurales. Gen. Blanco intends to recruit as many of the insurgent soldiers now in Juarez as possible.

Gen. Blanco says that they have plenty of cannons in Juarez and the equipment for his command is almost complete. Later on it is expected that his whole command will be uniformed.

A new cannon has been added to the artillery of Juarez and may be used by Gen. Blanco's command. It is a rapid fire gun, and was invented by the general's secretary, Rafael Mendoza. The gun was made from two Mauser rifles and set on a rapid fire gun stand and.

### DOUBLE TRAGEDY OCCURS AT RATON

#### Man Drops Dead While Telling His Wife of a Murder.

Santa Fe, N. M., July 20.—Word comes from Raton of a double tragedy which makes the second murder thus far this month committed in New Mexico. During a fight in a dance hall at East Raton Miguel Urioste was stabbed to death with a butcher knife. Esensio Rodriguez was arrested. Phoenix Sandoval was also arrested. A Martinez, who witnessed the fight dropped dead from heart failure as he told his wife of the occurrence.

The two sons of T. J. Corder, of Redlands, Roosevelt county, were struck by lightning and the oldest 13 years old, was killed instantly, while his 11-year-old brother escaped with a burn in his face.

### AUTO STRUCK BY TRAIN AND FOUR WOMEN KILLED

Troy, N. Y., July 20.—Four women were killed and a chauffeur was seriously injured in an automobile accident at Raceville, seven miles north of Granville.

The automobile was struck on a grade crossing by a train. In trying to cross ahead of the train the chauffeur in shifting to a higher gear, lost the spark and the machine stopped in the middle of the track.

### LEWIS STRANG IS KILLED

Milwaukee, Wis., July 20.—Lewis Strang, of Racine, Wis., probably the best known automobile racer in Wisconsin, was killed at Blue River, Wis., this afternoon when the Coae car which he was driving in the state reliability tour jumped an embankment.

## BLANKET RECEIVERSHIP FOR LEWIS PROPERTIES

St. Louis, Mo., July 20.—The petition of 233 creditors for a blanket receivership of the property, companies and enterprises of E. G. Lewis was granted in the United States circuit court today by judges Dwyer and McPherson.

The court's decision will take the property out of the hands of the reorganization syndicate which has been in charge of it for nearly three months. The St. Louis Union Trust company is made receiver.

In his opinion, Judge McPherson compared the Lewis schemes to the Mississippi bubble and other historic get-rich-quick projects and declared that if a fraction of the allegations made in the receivership petition were true the Lewis affairs constituted one of the most gigantic frauds of the century.

## From the Top of the World To Texas With a Sheep Herd

By Norman M. Walker.

Dr. Charles C. Young Brings Marvelous Karakules From Himalayan Plateaus to Establish Great Ranch at Finlay, to Be Crossed With American Sheep.

FROM the top of the world to Texas is a bit of a jump, but the karakule or broad tailed sheep have made it and brought their 75 pound tails with them. From the Himalayan plateau, the aboriginal home of the white man, to the Finlay, Texas, is an enormous space that Dr. Charles C. Young hopes to span with his wonderful karakule sheep. All but the last lap of the long journey has been covered and it now remains for the doctor to bring his sheep from the Lowden ranch, near Dalhart, to Finlay to complete the trip.

To accomplish this, Dr. Young has worked untiringly for the last seven years and his ultimate success with the sheep from the Himalaya highlands will mark the establishment of an industry which promises more returns in wealth than the combined cattle and cotton shipments of Texas now total.

Karakule sheep are valuable because of the skins produced on their lambs. The pure blood karakule sheepskin, often killed when the lamb is less than three days old, bring prices as high as \$50. When the skins are killed before the birth of the lamb the skin is even more costly because of fine texture and greater pigmentation. But because of the prejudice against this custom and also because of the comparative scarcity of the sheep, the custom is only practiced in the Central Asian districts where the sheep are raised.

Crossing With Other Breeds.

By crossing pure blooded karakule with other American sheep, Dr. Young hopes to establish a great sheep raising industry, not for wool, but for fur, which is used extensively for coats, caps, mufflers and other articles of adornment. Because of the hardy strain of the karakule sheep, called Arabi in the native country, a cross breed with as low a percent of kara-

kule blood as 12 1-2 percent will produce a fur bearing lamb, the skin of which will sell for a good price on the market.

West Texas Conditions Good.

It is a graded sheep industry that Dr. Young hopes to introduce in western Texas, where he says conditions are exactly similar to the desert country of Bokhara, where the sheep originated and where they are considered sacred by the people. Dr. Young has 10,000 acres of land near Finlay, Texas, and is preparing to establish a great sheep breeding and distribution ranch for the southwest and Mexico.

Dr. Young's Long Struggle.

The history of the karakule industry, which is yet in its swaddling clothes, is the history of Dr. Young's struggles to introduce the industry in this country. Coming of a sheep growing family back in his native Russian province of Bessarabia, Dr. Young conceived the idea of bringing the karakule to this country and establishing the breeding and marketing of them as an industry, an industry similar to that which existed in Central Asia and to which Americans alone pay tribute to the amount of \$14,000,000 annually for "milady's furs" and her escort's fur lined great coats.

Dr. Young's Russian Name.

To know the history of the establishment of the karakule industry it is necessary to know something of the man who, by his own personal efforts, has made possible its foundation in this country. Dr. Young's real Russian name is spelled Kirill Christianovitch, and pronounced, sounds like a bay fever sneeze. His native home is Bessarabia, Rusestia, in the hamlet of Ferechamposhe (sneezes again). He is of Teutonic, Russian origin and is of the Greek Orthodox faith. He came to this country in 1892 at the age of 19 years, having been forced to flee

## BOLD DAYLIGHT THIEVES WILD CHASE AFTER THE ROBBERS SEIZE TRAY OF DIAMONDS

Kansas City, Mo., July 20.—Two men entered the shop of the Franklin Jewelry company near Ninth and Main streets, in the heart of the city a 9 o'clock this morning, held up B. J. Franklin at the point of a revolver took a tray of diamonds and ran down an alley. When pursued by Franklin they fired at him, dangerously wounding B. A. Seltz, a bystander, a wealthy mining engineer.

One of the robbers was captured five minutes later in a department store three blocks from the scene of the robbery. He gave his name as John Brown. The other robber escaped with the diamonds, valued at \$4500.
