GLASS IS AS OLD AS EGYPTIAN SPHINX

Its Manufacture Is Being Handicapped by the European War, as Countries Are Too Busy to Make It.

PLATE GLASS was first known in France, commercially, somewhat over 200 years ago, although glass, in one form or another, has been in use for many centuries...

Worked With Bare Feet

Pots of flint are notched and kneaded in a mill and seasoned in bins, sometimes for as long as a year, to be dug out and put through a treading process by men in bare feet.

Window Glass

The same pots of molten glass are used in the manufacture of window glass, save that a blowpipe attached to a compressed air machine blows the molten glass in a cylinder 25 feet long and 50 inches in circumference.

Real Security

for the depositor's money is the first consideration of the officers and directors of this institution.

—strict adherence to this principle—making everything else secondary—has gained the confidence of serious minded men and women who are careful of their funds.
