50,000 CATTLE GO TO PHOENIX

Arrangements for Pasturage of Huge Mexican Herds Are Almost Complete.

Phoenix, Ariz., June 1.—Fifty thousand head of Sonora cattle probably will be brought to the pastures of the Salt river valley within the next few weeks.

W. Beckford Kibbey, of Alamos, Sonora, president of the Alamo Land & Cattle company, and treasurer of the West Coast Cattle company, came to Phoenix to make arrangements for the transfer of 50,000 head of cattle through Arizona. The plan was to fatten them in California. While here he learned that feed is cheaper and more plentiful than it is anywhere on the coast, and he has practically decided to pasture the stock here instead.

SHIPMENTS ARE MADE FROM PECOS COUNTRY

Pecos, Texas, June 1.—A number of small shipments of cattle have been made from the Pecos country during the past week.

The largest shipment was made by John Z. Means Co., from their "W" ranch near Riverton, which consisted of 25 carloads of cattle consigned to the American Livestock & Commission Co., for shipment to Gillette, Wyoming.

Al Popham loaded four cars of cows, calves and yearlings at Saragosa. Three cars were shipped to White Deer, Texas, and one to Dalhart.

Two cars of cattle loaded at Riverton were shipped to Sierra Blanca by the T. D. Love Cattle Co.

Seven carloads were shipped to Sierra Blanca from Carlsbad by W. L.

BIG SHIPMENTS OF CATTLE SOON

Embargo Lifted and Many Mexican Cattle Are Expected to Be Imported.

The embargo against the entry of cattle into Texas was raised today and local cattlemen predict the passage through this city of exceptionally large shipments of cattle for the next two weeks. In anticipation of the heavy movement, local railroads have been assembling cars for more than a week.

Expect Mexican Shipments.

The largest shipments it is expected, will come from Mexico, though there will be a large interstate movement from both New Mexico and Arizona. During the past week the movement of cattle began under special permits, the Palomas Land & Cattle Co. being the largest shipper. This company now has an additional shipment of about 2000 head, which will be sent to El Paso in a few days for shipment to Spur. The Texas & Pacific is prepared for the handling of 6000 head and many cars have been assembled by the Southern Pacific.

To Be Put on Range.

A large percentage of the Mexican stock will be sent to range at Sierra Blanca, Big Springs and Midland. Cattlemen who specialize in Mexican stock report excellent range conditions all through central Chihuahua to Jimenez and state that the cattle that will be entered through this port will be in good condition, some of it going direct to market. Conditions in Sonora are not as good as in Chihuahua and practically all of the Sonora cattle will go to range.

GETS 1015 HEAD OUT OF MEXICO

Oliver Had Difficulty in Saving His Cattle From Mexican Bandits.

Marfa, Texas, June 1.—After many difficulties had been overcome, J. J. Oliver has succeeded in getting 1015 head of cattle from his Santa Rosalia ranch in Mexico to the American side of the border. He has shipped 500 bulls to other points and the remainder of the cattle have been put on range here. For a long time Mr. Oliver was compelled to leave his cattle in charge of his Mexican ranch employes, being forced to get out of Mexico because of violent anti-American feeling. Cattle thieves got many of the original herd but the Mexican employes succeeded in saving more than a thousand head and finally got them to the border.

Ships to Plains Country.

One shipment of 250 yearlings was made during the past week by Tom Snyder to the Plains country.

Three cars of bulls bought by John Snyder here have been shipped to New Mexico to be put on range.

Ship Mules to El Paso.

Scott & Camp have shipped two cars of mules to the El Paso market.

Rain is needed in the vicinity of the San Jacinto ranch, according to H. W. Reynolds, who was in town from there. He says range conditions are excellent and there will be no damage done if rain does not come for some time.

3200 CATTLE ARE SHIPPED TO DAKOTAS

Nogales, Ariz., June 1.—The first trainload of Mexican cattle to be shipped from here since the raising of the recent quarantine consisted of 1200 head shipped to Bonesteele, N. D., after having been purchased by the Dixon Cattle company from Bush & Co. The Almoo Cattle company is also shipping 2000 head to the same buyers. The price for both shipments is said to average $50 a head.

Sales Are Increasing.

Cattle sales are increasing in the Panhandle country. Prospects for an abundance of summer grass are good and local cattlemen are optimistic over the outlook.

FOUR THOUSAND CATTLE PUT ON TEMPE PASTURES

Tempe, Ariz., June 1.—Over 4000 head of cattle from the ranges about Tonto basin, Rye creek and Sunflower have reached the Tempe district within the last few days. Some of the cattle have been sold, chiefly to Denver buyers, but most of them have been placed on pasture and will be sold when fat. The Tonto ranges are in splendid condition this spring and as the price of cattle is high the stockmen will reap huge profits.

THREE EL PASO BOYS ON AUTO TOUR TO FLORIDA

Traveling in a Ford car, especially equipped for a long trip, three El Pasoans started out this afternoon on a trip to Jacksonville, Fla. The travelers are Jack R. Davis, Lamar Davis and Charles Underwood.

The official start was made from The Herald building and before coming up to the starting point, the travelers went to the city hall for a letter from mayor Tom Lea to the mayor of Jacksonville.

On the windshield of the car there is a big sign "El Paso, Texas, to Jacksonville, Florida," and when the boys reach Jacksonville they will have the sign changed to read "Jacksonville to El Paso, Texas."

They carry a full set of extra tires, a complete camping outfit and each of the party has a suitcase for personal effects.

PANAMA CANAL WILL EARN ITS EXPENSES FIRST YEAR

Panama, June 1.—The Panama canal will have earned in the first year of its operation sufficient to pay all its running expenses and probably leave a small surplus, according to the figures now being compiled in the offices of the canal auditor. The loss now is about 5 percent as against 20 percent at the end of February. The deficit of about 20 percent incurred during the first eight months of the waterway's operation has been nearly eliminated and will be completely by June 30, when the first year of operation will end.

Nearly every month of the last nine have shown an increase in the tolls earnings. Tolls for April, however, were slightly lower than those for March, which were a record. It is declared the tolls for May will equal if not exceed those for March.

Prospect avenue is now being graded and all of the surplus dirt removed from the street and the holes filled. The sidewalks in front of the vacant lots are also being cleaned for the first time in years. All of the alleys on the north side are being cleared by the city prisoners.

The city is now sweeping 124 blocks of paved streets each night. When alderman Fisher took over the streets and parks the sweepers were cleaning only 74 blocks. This has been increased to 124 and all of these are being swept at night. This number will be increased to 150 this week.

Park foreman Den Hartman is also making a special effort to beautify the downtown parks, especially Cleveland and Carnegie squares. He has installed a new system of lawn sprinklers which wet the entire park lawns each day and these lawns are now as smooth as velvet.

"Complexion Secrets Of An Actress"

In a recently issued volume bearing the above title, the author says: "Continuous use of grease paints, rouge and the like, had ruined my complexion. My skin was colorless, wrinkled, coarse and punctured with large pores. In England I heard of the virtues of mercolized wax; my first experience with this marvelous substance convinced me it was more valuable than all cosmetics combined. Now whenever my complexion begins to go wrong I get an ounce of mercolized wax at the nearest drug store, spread on a thin layer of it before retiring, washing it off next morning. The wax, after a few such treatments seems literally to absorb the worn-out cuticle, when a brighter, healthier, younger-looking skin appears.

"For the wrinkles and enlarged pores I began using a solution of saxolite, one ounce, dissolved in a half pint witch hazel. Bathing the face in this every day for a while soon relieved the condition most wonderfully."—Advertisement.
