New York Could Spare Some Fight Clubs New Law May Force Many Out of Game

BY FRANK G. MENKE. NEW YORK, June 1.—One of the consummations devoutly to be wished is that Gov. Whitman, of New York state will sign the new boxing law. That would tax all clubs 1-2 percent, a taxation that would close many boxing clubs to shut up shop.

There are many boxing clubs in New York that ought to shut up shop. They are a detriment. They are operating on a shoddy and these shoddy operations hurt the already sorely wounded pugilistic business.

The existing law provides that the state shall receive five percent of the gross sum taken in at a game. The new law increases the amount to 1-2 percent. That's a difference of only 3-2 percent, but that difference constitutes more than the net profits some clubs make on a season.

IN THESE days of money mad pugilists and a public demand for top notchers, the clubs must get the best possible. That means big guarantees which, added to such incidental expenses as hall rent, lighting and printing bills, makes a capacity house necessary before the promoters can break slightly ahead of the game.

U. S. DRAWS NEW NOTE TO GERMANY

(Continued From Page One). The American rejoinder would be brief and would demand an early reply. Failure to meet the American representations would, it was freely predicted, result in a severance of diplomatic relations. Diplomatic non-intercourse, however, would not necessarily be followed, it was pointed out today, by any other step, unless American rights were again flagrantly violated.

Not Disposed to Argue. Proposals on the part of Germany to purchase the argument with affidavits alleged to be in the possession of the German embassy here to prove that the Lusitania carried guns will not be considered, in view of official knowledge here that the ship was unarmed. Moreover, the government is expected to point out the fact that the present discussion of the American steamer Nebraska has been torpedoed by a German submarine.

Proof of Heeklessness. The admission of the German admiral to the subject of the Lusitania, which torpedoed the Lusitania, was a report from ambassador Gerard, that the commander of the submarine which torpedoed the Lusitania, was the American flag on the Gulf light until after he had fired the torpedo, in another circumstance to which it was thought proper to comment. The ambassador himself would not say what his purpose was, but from what he informed sources it was learned that the admiral was in possession of his own initiative, without instructions from his government and that he wishes to impress the president with his desire for the cessation of a rupture in friendly relations between Germany and the United States.

Peace at Any Price. A suggestion made by well informed diplomats was that the German reply to the note should not talk for publication, but there was a distinct disappointment manifest at both the Austrian and German embassies here at the character of the German reply.

RAIN STORMS PREVENT RAPID ITALIAN ADVANCE. Verona, Italy, June 1.—Rain storms and fog are preventing a rapid development of Italian operations against the Austrian positions in the Adige valley.
