**L**ONDON, Eng., Nov. 8.—The fall of Nish has united the main Bulgarian forces and the Austro-German armies advancing from the north. Hitherto their communications consisted merely of the tentative reaching out of their advance guards. The Bulgarians and their allies now hold considerably more than half of Serbia, and command the Nish railway, which has been one of the chief objectives of their operations. From Nish the Bulgarian line now runs north in a slight curve, encircling the Morava river, to Riviste, where it joins the main Austro-German forces. From that point the invaders line turns at a right angle and runs due west across the broadest part of Serbia.
