

The Daily Gazette PUBLISHED EVERY DAY.

RATES OF SUBSCRIPTION. TO MAIL SUBSCRIBERS. (Postage Prepaid by the Publishers.) Daily. Weekly. Monthly. Quarterly. Half Yearly. Yearly.

RATES OF ADVERTISING FURNISHED ON APPLICATION. Advertisements by draft, post-office money order or in registered letter, at risk of advertiser. Correspondence is solicited upon all news subjects.

WEDNESDAY MORNING, DECEMBER 10. TO CORRESPONDENTS. Parties writing to THE GAZETTE on business personal to them will please inclose stamp for reply.

ARTHUR will not be forgotten in 1888. GOV. CLEVELAND ought to come to the New Orleans exposition.

BARNUM ought to buy the New Orleans exposition and try to travel with it. THE Studebakers are enjoying as much free advertising as is Blaine's book.

ARKANSAS must be a poor state when even the remunerative pursuit of train robbing cannot thrive. WHILE there is life there is hope, thinks Grant. A pension would forever settle all political aspirations.

THERE is many a man who is wishing that the government would rape him with a five-thousand-a-year pension. SAN ANTONIO has a workingmen's club. That horny-handed toiler, J. P. Newcomb, will hold a prominent position in it.

It is a terrible 'giveaway' on Miss Emma Abbott to see the announcement of her daughter's marriage in the papers. FORT WORTH is receiving flattering notices from the press of Texas on account of the brilliant success of her justification.

BREACH of promises are worth something in England. Miss Fortesque made \$50,000 out of one of the first time she ever tried. IF while working in some man's cotton-field a convict attempts to escape and is shot and killed by a guard, is it murder? Yes.

WOMAN'S rights are on a boom in Pennsylvania. The supreme court has decided that an inn-keeper may sell ice cream on Sunday. FRANCIS D. MOULTON is dead and buried. Peace to his ashes. It is well for him that Beecher voted the Democratic ticket this year.

THE Weekly GAZETTE, in wrappers ready for mailing to your friends abroad, can be had at the counting-room. Price, 5 cents. THE wise heads around Washington are thinking and saying that the El Mahdi is no other than Edwin Booth, Lincoln's assassin.

ONE good point about our national defenses is the immunity we enjoy from foreign emissaries nosing around taking diagrams of them. THE persons are after Ingersoll, and he is theirs as far as heard from. He seems to have obtained his historical data from a second-hand store.

FROM present indications it appears that the next governor of Georgia will not carry cloves in his vest pocket. Eighty counties in that state have already registered in favor of prohibition. CLEVELAND did an unwise thing in refusing the magnificent Newfoundland dog sent him by an admirer. He should have accepted it and sent it to Mahone.

PROV. CLARK BRADEN is going to investigate the authenticity of the Mormon bible. He is said to be good authority on the authenticity of Pilot Point eggs. IT is provoking, when an editor fixes himself to slaughter some aspirant for the speakership of the next legislature, to find that he has been reading a Florida paper.

"OUR Dick" talks right out in meekness. Barkis is willing if the great Democratic heart of the nation throbs for him to come forward, but if not, he won't feel aggrieved. THE Temple Times has entered upon the fourth year of its existence, looking bright, hale and hearty. Cox is a worker and would gain success out of ruin, sooner than fail.

THE regular monthly announcement of Miss Eva McKay's marriage to a dago prince has been received from over the water. It is easy to see that her father owns an Atlantic cable. A GRAND fancy dress and masque ball will be given by Midlothian lodge No. 50, K. of P., at Temple on Friday evening, 19th inst. THE GAZETTE acknowledges the courtesy of an invitation.

EX-CONGRESSMAN Sumner will likely be around Washington this winter in the interest of his postal telegraph bill. He has "worked at the key," and is authority on such questions. PARIS has a Republican, a genial, clever fellow, who has gained by the defeat of his party. He said, a few days before the election, "I will never take a drink until Blaine is elected president," and he never will.

A NAVY may be a necessity to scare the foreigners into patronizing our peddlers on the high seas, but as a means of defense we do not need one. Should we be attacked by a foreign nation we can take the intruders out in Tom Green county and lose them. THE Wexsachie Mirror objects to "Uncle Dan!" for postmaster at Houston, and nominates Prof. Girardeau. The professor's selection as minister to the court of St. James would be more in keeping with his abilities than would licking stamps in a postoffice in Houston.

SOME MEN live too long. Had Bismarck died a year or two ago, he would have gone down in history as one of the greatest statesmen of modern times. Unfortunately he lived to tackle Ochiltree, the American hog—the prooferder marked out the conjunction—and now the reichstag is sitting down on him. ABOUT the only news one can find from the manufacturing centers is that a mill has closed down, or that wages have been reduced. It is a wonder that we don't hear of someone reducing rents 20 or 30 per cent. Hog, hominy and rents keep at the top notch, and now that cotton is in the hands of the gamblers it is going up a few points every day.

LA NEVEA ERA is a new paper started by Messrs. Arelano and Leon at Paso del Norte, Mex. It is a large four-page, seven-column paper, half Spanish and half American. In typographical appearance it is a gem, and the tone of its editorials is calculated to foster closer and more friendly relations between the two republics. THE GAZETTE wishes the new enterprise abundant success. WHITTEBORO, TEX., Dec. 7. To the Editor of the Gazette. Please answer through GAZETTE whether Buffalo, N. Y., is a Republican or Democratic city, and oblige. S. SCHMIDER.

The city of Buffalo is largely Republican, though in the late election the majority was reduced. The county of Erie, in which Buffalo is situated, gave Garfield a majority of 3351, and Blaine 1490, a clear gain for Cleveland of 1861. Cleveland had 3911 more votes in the county than Hancock. THERE will soon be an occupation for D. Kearney, Esq., sand lot orator and adjective crucifer. "The Chinese must go" has not more than taken a firm hold as an idiom in the language of our common country until it will have to be changed to "the nigger must go." Colonies of from 200 to 400 strong of the man and brother are leaving South Carolina for the golden slope every now and then, and soon the labor market will be overflowing, as will also be the famous Denis.

THE Tenth congressional district of Tennessee, which includes the city of Memphis, has elected a red-mouthed radical Republican to succeed Hon. Casey Young to congress. This looks bad for a Southern state in a presidential year, when a Democratic president is elected. Memphis is the big end of the district, and Memphis elected Taylor with the assistance of the corn-field darkies. It is some consolation to reflect that Memphis is the city which surrendered her charter in order to repudiate her debts. The site of this city is opposite Hopedale, Ark., on the Mississippi river.

EX-PRESIDENT GRANT has surprised the country and violated his invariable rule of never refusing a gift by setting down on the proposition to grant him a pension of \$5000 a year. The country will think better of him for his independence in this instance. He does not need a pension. The fund of \$250,000 subscribed for his benefit some years ago has been invested so that it now yields him an income of \$15,000 a year, and a man with an annual income equal to three times the salary of a United States senator and almost twice that of the vice-president of the United States does not need to be a pensioner upon his country.

THE Spanish Treaty. The cigar dealers seem to be in a high state of excitement at the prospect of the ratification of the Spanish reciprocal treaty. Some of them declare it will ruin them. Others, of perhaps better judgment, take a milder view of the situation, and seem to think that after the trade has had time to adjust itself to the new rate of duties the effect will not be hurtful or lasting.

The present rate of duties on cigars and cigarettes is \$2.50 per pound and 25 per cent. ad-valorem. The proposed rate of \$1.25 per pound and 12 1/2 per cent. ad-valorem is a reduction of just one-half. If any class or interest is called upon to protest against the treaty, it is the sugar and molasses manufacturers of the South. Sugar not above No. 16, Dutch standard, and melada molasses are to be admitted duty free. So far as molasses and sugar, of these grades, are concerned, the treaty subjects them to all the "horrors" of free trade. But as the quality of sugar and melada admitted free is of low grade and cheap, they will not come into competition with the better and higher-priced articles in this country, and may result in the increase of refineries in the South, where the cheaper productions of Cuba may be refined with advantage and profit. Of the other articles on the free list nothing comes in competition with productions of this country that we need fear. On the other hand, there should be a large increase of exports to the Spanish provinces from this country. Bacon, beef, tools, agricultural implements and apparatus should find a large market in those countries, being on the free list. Upon wheat the duty of fifty cents per hundred kilograms (220.5 pounds) is retained, being equivalent to about 13.6 cents per bushel, which is not encouraging to our grain producers, now anxiously searching for foreign markets for their surplus crops. Upon the whole, the treaty is advantageous as being a step in the direction of breaking down the barriers that a protective tariff interposes to trade and commerce. Both the countries to it are victims of the fallacy of protection. The institution of free trade among them will have the effect to extend it still further, and in time it will embrace the world in its bonds. PLANO. A Partaker of the Poisonous Drug. Special to the Gazette. PLANO, TEX., Dec. 9.—News was received here to-day that George Averett, a young man twenty-five years of age, committed suicide by taking morphine. He was employed on Dr. Shelburner's farm near Lebanon, seven miles west of here. He took the fatal drug Saturday evening, and only died from the effects at 1 o'clock last night. A memorandum book was found in his pocket in which it was written that he wished to be buried at Howlet creek cemetery. No cause was assigned for the rash act. A light rain fell here to-day. Quite a number of people from here will go to hear Dr. Palmage lecture to-morrow at Dallas. The colored population have commenced the erection of a school building here. BOWIE. The Citizens of Montague Guarding their Homes. Special to the Gazette. BOWIE, TEX., Dec. 9.—Our town is quietly pursuing the smooth even tenor of her way. Some excitement was created at Montague yesterday upon the report reaching there that the escaped prisoners were returning or approaching town reinforced by Meredith Crow (a noted desperado character) and his gang. The citizens took the precaution to organize a strong guard and place men around the town to protect it. The idea or supposition as to the probable object of the coming of such a mob, if the report mentioned be correct, is to burn the town, or to do some devilish work of the sort. Under present circumstances it is difficult to get at the facts. It will be necessary to await developments. Mr. J. M. Lewis, our former esteemed fellow-townsmen, after an absence of some months from Bowie has recently returned in improved health, and proposes to make his home here again among his many friends. WICHITA FALLS. An Episcopal Church Started. Correspondence of the Gazette. WICHITA FALLS, TEX., Dec. 5.—Divine services according to the rites of the Episcopal church was held here yesterday for the first time and was well attended. The Rev. Mr. Shaw of this place officiating. Services were held in the large hall over Ward & Stanley's brick store, and will be held there until this congregation build their church, which will be in the near future. Our public schools are ably superintended by Prof. Cherry. He and his three assistants are entitled to great credit for their good management. Special to the Gazette. WICHITA FALLS, TEX., Dec. 9.—We are now having a ground-soaking rain, which comes just in time, as the ground was getting a little dry for planting. The late election returns inform us that Wichita county shows an increase of 300 per cent. over two years ago. This is the largest increase of any county in the state, and speaks eloquently for our productive soil and fine climate. As dull as the times are and have been for some months back, this town and county are rapidly improving. Every train brings us home seekers, and they are generally men of means and good farmers, the majority coming from the Middle and Northwest states. Our merchants report business very fair and increasing, the hotels are well filled, and there is not a vacant house in the town. Ladies approve of your smoking "Little Joker."

MARSHALL. Railway Officials Bound for New Orleans. Correspondence of the Gazette. MARSHALL, TEX., Dec. 8.—Col. Hoxie arrived by special train yesterday evening accompanied by Van Dorn of the Missouri Pacific railway and Hearn of the International & Great Northern. The party spent the night in our city and left for New Orleans this morning. Capt. T. F. Hindley and several other prominent Masons leave for Houston to-night. Dr. Campbell, our newly appointed Methodist minister, preached his first sermon here yesterday. We are much pleased with him.

LONGVIEW. Galveston, Sabine & St. Louis Railway Bonds Signed—Burglaries. Special to the Gazette. LONGVIEW, TEX., Dec. 9.—S. H. Easton, secretary of the Galveston, Sabine & St. Louis Railroad company, this evening placed his signature on \$500,000 in bonds of the company's. These bonds are already accepted by certain capitalists, and only await President Durant's signature, which will be added to-morrow. The grading toward Carthage is being rapidly pushed this fine weather, and track-laying is going ahead at the rate of a half mile per day. Burglars are again working the town. A number of residences were broken into last night and a considerable amount of money and other valuable stolen. No clew to the thieves.

TYLER. Proceedings of the Supreme Court. Special to the Gazette. TYLER, TEX., Dec. 9.—The supreme court to-day affirmed the following cases: Hill et al. vs. Moore, from Denton; Hamilton County vs. Garrett, from Hamilton; the Missouri, Kansas & Texas Railroad vs. Mayfield, from Bexar; Kensler & Arendale vs. the Texas & Pacific Railway, from Marion. Reversed and remanded: The Gulf, Colorado & Santa Fe vs. Helsey, from Johnson; Leona Irrigation and Navigation company vs. Governor Roberts, from Travis; the International & Great Northern Railway company vs. Irwin, from Wood. Appeal dismissed: Lewis vs. Alexander, from Fannin. The case of Coleman et al. vs. Lord, from Donley county, involving the constitutionality of the authority granted to the state land board to raise the price of the lands leased, was submitted.

THE MISSOURI RIVER Commission Meets to Make a Report to the Secretary of War. ST. LOUIS, MO., Dec. 9.—The Missouri river commission met here to-day with Maj. Chas. R. Suter, president, in the chair. The purpose was to agree upon a report to the secretary of war. As the commission has done no work yet this will be brief. It will give, however, a resume of the work done under the direction of the Missouri river commission who formerly had the work in charge, and will briefly outline the plan of this commission for future operations. This contemplates in a general way the plan proposed by Major Suter in his report of 1881, which has been published. But one radical change will be made. Heretofore it has been customary to make small appropriations for allotments for a number of points on the river and to prosecute all of them at the same time. This has proved ineffective and it is now proposed to begin at Kansas City and work down the stream, completing the operations at each point before leaving it. Only surveys will be made this winter, but in the spring active operations will begin. The report will be sent to the secretary of war as soon as it is completed.

FOR PROTECTION. Northern Manufacturers Organizing to Fight Free Trade. READING, PA., Dec. 9.—The Eastern Pig-Iron association, Henry S. Eckert of Reading, president, has just issued circulars to every class of manufacturers and prominent men in the United States, asking their co-operation in the formation of a tariff club. The circulars say that the organization should be based on the broad foundation of adherence to protection and opposition to free trade and its synonym, "tariff for revenue only." That membership will not be confined to any interest of party, class or geographical limit, and that the only qualification will be a simple pledge to promote American industry by restrictions on foreign goods. They further call upon all friends of protection to unite as the London Cobden Free Trade club is united, and to prepare for a renewal of the attack on the tariff. A general meeting of the Pig-Iron association has been called for December 17 to formulate a plan for organization. SWUNG OVER THE RIVER. A Noted Desperado Taken From Jail and Lynched by a Mob. ST. LOUIS, MO., Dec. 9.—Charles Stephens, a desperado known as Omaha Charley, who killed Huber Cramer at Maryville on December 3, was this morning taken from jail, after a fight with the sheriff, by a mob, who hung him on a railroad bridge. One of the mob was dangerously wounded by the sheriff. Stephens was pardoned out of the penitentiary for a previous murder last winter. The particulars of the affair are to the effect that sixty masked men went to the jail at 2 o'clock this morning, called up Sheriff Anderson and demanded that he deliver Stephens to them. This he refused to do and told

the crowd that he would fight to the last in defense of his prisoner. A committee of three was then sent to consult with the sheriff, but his reply was the same as before. The mob then made a rush for the door of the jail, and notwithstanding the sheriff repeatedly fired into the crowd, dangerously wounding one of them, whose name is withheld for the present, they forced an entrance, overpowered the sheriff, seized the murderer, and marching him under cover of a score of cocked revolvers to the railroad bridge spanning the river half a mile away, hung him.

Rev. Dr. Haliday Dead. NEW YORK, Dec. 8.—Rev. Dr. David Moffat Haliday, an old minister well-known throughout the United States for his long services in the Presbyterian church, died yesterday at the residence of his brother, Assistant Pastor Haliday of Plymouth church.

Drowned in a Cistern. INDIANAPOLIS, IND., Dec. 9.—Mrs. C. E. Griesendorff, wife of a former wealthy manufacturer of this city, drowned herself in a cistern this morning. She had been an invalid for years and before daylight eluded the vigilance of her nurse, with the above result.

Miss Annie Biering, 608 E. Broadway, Galveston, says: "I used Brown's Iron Bitters as a tonic and appetizer with the most satisfactory results."

Rionosa coffee, fresh and pure.

CHEAP COLUMN. Advertisements under this head will be inserted at the rate of five cents a line, each service, seven words to the line. No advertisement inserted for less than 25 cents. Parties with whom we have no running account must pay in advance.
