

COLORADO.

The Sunday Law Tabled—Colorado River on a Boom.

COLORADO, TEX., June 12.—At a meeting of the city council Wednesday evening, an ordinance...

We had a very severe hail-storm about eight miles south of here Wednesday. Sheriff Ware was cut in the storm on South Champion creek...

A young man by the name of McCurry was brought into town insensible, having been hurt by the hailstones. He is much improved and is rapidly recovering.

The Colorado river rose about ten feet Wednesday in less than four hours. Many of our people were prophesying an overflow.

Many ranch wagons and freighters were detained in town because of the rise in the river.

The town seems to be full of strangers; and many of them are prospectors. All commend Colorado very much, and say its fine brick business houses are a wonder for a city so young.

An attempt was made by an incendiary to burn a house in the northwestern portion of the city Wednesday night. But the consummation of the dastardly act failed by the timely appearance of Deputy Sheriff Alex Ware.

What we learn with pleasure we never forget.—[Alfred Mercier. The following is a case in point: "I paid out hundreds of dollars without receiving any benefit..."]

DALLAS BREWERY ORGIES.

Anti-Temperance Demonstration Announced for To-Day.

It having been announced in the Herald this morning that a grand demonstration of the Dallas Brewery, ostensibly, but really of the Liquor Sellers' association, would be made in this city on Saturday...

The protest recites the fact that Mayor Brown's election was due to the almost unqualified vote of temperance men; that they believe that beer is not only hurtful in itself...

The hope is expressed, however, that Mayor Brown is not so fully committed to the liquor interest but what he can retrace his steps and place himself where he was supposed to be before the late municipal election.

As for the business men who join in the orgy by day and night on Saturday, it is a matter of their own concern. If they are sufficiently independent to brave public opinion, those only who choose need to continue to deal with them.

To show what tricks the L. D. A., which might be read "Liquor Dammation Society," are up to, a prominent liquor dealer is having hundreds of tickets printed in the neighboring counties...

EASTLAND.

A Verdict of Not Guilty in the Meadows Murder Case—Court Notes.

EASTLAND, TEX., June 12.—The long contested case of the state against H. D. C. Wynatt, charged with murdering J. T. Meadows, has at last terminated in a verdict of not guilty.

since. Mrs. Connelley has gone with her brother and children to Dakota. The city council of Cleco has been indicted and arrested on the charge of bribery. The county attorney was also indicted and arrested on a charge of receiving the bribe from the council.

Mr. Young, residing at this place, was bitten by a mad-dog Wednesday. He went to Hog Creek and procured a madstone, which adhered at once to the bitten part on his leg, and has been sticking to it constantly for the last eighteen hours.

Our district court is still in session, and the criminal docket is not yet disposed of. It will continue at least another week. A case against one Hurley, for theft of sheep, is now on trial.

FORNEY.

A Hay Emporium—A Schoolboy Kicked by a Mule.

FORNEY, TEX., June 12.—Forney for the past few days has put on considerable business air.

Our hay men have begun work in earnest. From the 1st of June up to date they have shipped twenty-five car-loads to different points, besides what has been stored in barns. Mr. Kendall, our agent, informs us that the grain shipping has been very active. W. F. Patterson of Fort Worth has been among our hay dealers for several days and closed contracts for eleven hundred tons, all to be shipped to the Fort. The Huffman Implement company seems to be taking the lead of the Dallas men in way of supplying our hay men with machinery and wire.

Everyone is loud in the praise of the pluck and energy displayed by the citizens of Pantherville, and if the business continues as it has started it won't be long before the Fort will control things here pertaining to the hay business, which is no small item.

L. C. Reagan, traveling salesman for Penfield, Thomas & Co. of Nashville, Tenn., is visiting relatives and friends here.

Walter McAdams, a lad seven years of age, while playing at school yesterday, attempted to drive a mule from the premises. He came in contact with his mule's heels and received a very severe if not a fatal kick.

Prof. Hickey and Terrell will close their school on the 19th. Our people are much dissatisfied in regard to the district free-school system.
