PREVENTIVE

Of Typho-malarial Fever and Cure for Rheumatism at Last Discovered

By the firm of Hughes Bros., manufacturing chemists of Dallas, Tex. This enterprising firm have for the last five years been engaged in the manufacture of baking powders, wines, elder, vinegar, etc. Dr. E. E. Hughes, who presides over their laboratory, has for the last forty years been engaged in the study and practice of medicine and chemistry. They also have in their laboratory Prof. Geo. C. Galbourn, who has for many years been a teacher of chemistry, also Mr. J. Price Warrick, a graduate of chemistry in the University of Philadelphia. These gentlemen in manufacturing the various articles already mentioned have found it necessary to combat excessive fermentation, whether vinous, acetous or alcoholic, which have ever stood in the way of successfully manufacturing wine, vinegar and alcohol in our Southern climate. The experiments have resulted in the discovery of an agent which completely obviates this difficulty. This agent is the extract of the bark of a tree indigenous to the state of Texas. Carrying their experiments still further, they have ascertained that this same extract as completely controls the only remaining fermentation known to the arts and sciences, viz: Blood fermentation, which is the cause of fevers as well as of rheumatism. This agent they have combined with the extracts of ginger and lemon, thereby rendering it a most efficacious as well as delightful and palatable beverage. It is not only one of the best tonics in its effects, but the use of it effectually prevents typho-malarial fever. At the same time, it is a sure cure for rheumatism. Dr. Hughes' Extract of Lemon and Ginger is put up in cases of two dozen bottles, and can be found at all first-class drug and grocery stores.

STATE NEWS.

Gatherings from Over the State Reported Specially for The Gazette.

WAXAHACHE.
Special to the Gazette.
WAXAHACHE, TEX., Aug. 7.—Ellis county scores one more victory for local option.

NAVASOTA.
Correspondence of the Gazette.
NAVASOTA, TEX., Aug. 6.—The first bale of cotton was brought in yesterday by Thomas Gould, colored. It weighed 563 pounds and was purchased by L. Y. Chinski at 10 cts.

MCKINNEY.
Correspondence of the Gazette.
MCKINNEY, TEX., Aug. 6.—Quite a number of our people went over today to see the sights of the Fort and take in the reunion. Among the number was Col. P. B. Moss, representative and champion lease-law man of this "neck of the woods."

LAMPASAS.
Special to the Gazette.
LAMPASAS, TEX., Aug. 7.—Letters have reached our city from other points, reflecting on the firm's tournament, to be held here on the 17th to 23d instant, asking if it is a money-making scheme. In behalf of the enterprise and our citizens we will say that it is a generous offer to the friends of the state and such visitors as may favor us with their presence. Our city proposes to give \$1500 in prizes and to donate the fund for that purpose and does not ask visitors or farmers to contribute a cent toward the enterprise.

EAGLE PASS.
Correspondence of the Gazette.
EAGLE PASS, TEX., Aug. 5.—Monday morning a sheep herder named Mammel today was found dead in his camp on Davis' ranch in the northern portion of this county. Suspicion was fastened on another Mexican named Borrego, who had fled, as being his murderer.

CRAWFORD.
Correspondence of the Gazette.
CRAWFORD, TEX., Aug. 5.—There is some interest manifested now in regard to Tate's arrest of late date. Buchanan came here claiming to be the sheriff of Hunt county, when, in reality, he had no legal authority to arrest Tate, and charges are preferred against him. It may be very hard on him, if arraigned for assuming such authority.

WILLIAM'S RANCH.
Correspondence of the Gazette.
WILLIAM'S RANCH, TEX., Aug. 5.—This morning Mr. G. E. Carr of Comanche accidentally shot himself, inflicting several wounds with common bird-shot. The muzzle of the gun was within two feet of his head when discharged, and nothing but a very thick white hat, after the true cowboy pattern, saved the unfortunate young man's life. As it is, while one shot is flying in the center of his forehead with several ranging close round, he is not fatally wounded.

BOWIE.
Special to the Gazette.
BOWIE, TEX., Aug. 7.—A painful accident occurred in our town a short time since. Mr. and Mrs. Oliver were attempting to catch a chicken, and while Mrs. Oliver was on the opposite side of the house from her husband in a stooping position looking for the fowl, the latter seeing it, but not his wife, threw a large-sized rock, which struck her a stunning blow on the middle of the forehead, knocking her senseless and inflicting a gash an inch or more long and half an inch wide. Mrs. Oliver has been quite sick since the accident as a result of the severe shock, but her attending physician, Dr. W. H. Osborn, states today that he thinks his patient will be fully recovered in a few days.

SAN DIEGO.
Correspondence of the Gazette.
SAN DIEGO, TEX., Aug. 5.—A small fire occurred last night at the residence of Mr. A. C. Doughty, occasioned by a boy dropping a globe lantern on the floor. The flames were extinguished with little damage.

There was a first-rate chance for a romantic elopement of one of the descendants of the Montezumas, mixed with a little Spanish, perhaps a fair daughter of the same race, but it was spoiled by the awkwardness of the would-be Benedict, in a most ridiculous manner. He had gained the consent of his seniors, but the cruel parents were obstinate, and the lovers had fixed on Sunday night, when the damsel, in place of going to church to hear mass, should repair with her lover to the house of the magistrate, and have the hymeneal knot tied; but alas! Don Pedro got too much of the juice of matrimony on board that he failed to meet her at the appointed hour. The next morning with the aid of a friend he tried to

induce his sweetheart to leave her home while she was busy with the occupation that her soul loved—torilla making—and fly with him, but he was met by an angry mamma and papa, and in the fracas which ensued there were two or three pistol shots fired. The lover leaping from the sheriff, as complaints for assault with intent to murder and abduction are filed against him.

ALBANY.
Correspondence of the Gazette.
ALBANY, TEXAS, August 4.—The examination of the teachers attending the normal institute at this place began yesterday and will continue until the close of the session, August 5th.

SEYMOUR.
Correspondence of the Gazette.
SEYMOUR, TEX., Aug. 6.—County court adjourned today, after disposing of a few unimportant civil and criminal cases.

MEXIA.
Special to the Gazette.
MEXIA, TEX., Aug. 7.—In the examining of S. C. Lewis today for the killing of W. G. Anderson yesterday, he was placed under a bond of \$2500, which he failed to give up till late this evening. County attorney Smith prosecuted and Capt. T. J. Gibson of this place defended. The pay car came in this evening, making glad the hearts of the railroad boys.

LONGVIEW.
Correspondence of the Gazette.
LONGVIEW, TEX., Aug. 6.—Early this morning the engine of a freight coming east ran over an ox which, on attempting to walk a trestle this side of Gladewater, near O'Byrne's switch, had partially fallen through. The engine came over all right, but a half-dozen cars were badly wrecked, delaying No. 3 passenger at the junction until noon, when it was kept company by No. 1 passenger some time longer.

WEATHERFORD.
Correspondence of the Gazette.
WEATHERFORD, TEX., Aug. 6.—The normal school closed last night with a public entertainment. The exercises consisted of songs, recitations and gymnastic exercises, and the large audience which came out was highly entertained. The school showed its appreciation of Mrs. Warren by presenting her with an elegant silver fruit stand worth \$20. Miss Josie Foster of Weatherford, the teacher in gymnastics, received a silver jewel casket worth \$10. Miss Mattie Warren of Fort Worth, the music instructor, received a silver card receiver worth \$7. Money was raised to purchase a copy of Milton's Paradise Lost, illustrated by Dore, to present to Prof. A. J. Robbins of Fort Worth, who has rendered valuable services as Mrs. Warren's first assistant; but as the book could not be had last night, it will be sent to him. There were eight certificates issued. Four of them were first grade, and four second grade. The school was pronounced by those who visited the different normal institutes in the state to have been the best, most thorough and systematic. The citizens were gratified at the success of the institute, and the teachers expressed a desire that Weatherford should have the normal school again, and all unite in giving the praise to Mrs. Warren. Most of the teachers left today.

KYLE.
Correspondence of the Gazette.
KYLE, TEX., Aug. 6.—A fine herd of grey marble several feet through, was encountered in the artesian well yesterday at a depth of 125 feet.

TAYLOR.
Special to the Gazette.
TAYLOR, TEX., Aug. 7.—One of the greatest configurations that we have had for some time occurred on Wednesday morning. At 1:30 o'clock a. m. a volume of smoke was seen issuing from W. H. Thorpe's furniture store, and immediately the alarm was sounded. The firemen promptly responded, and many citizens were on hand to assist the gallant boys in "red." The store building being of frame, the fire spread rapidly, especially after the doors had been broken in. Sparks were flying in every direction. The next building was the carpenter shop of W. Williams, but luckily the carpenter's tools were saved. The fire continued to travel, and the livery establishment of Compton & Armstrong was the next to suffer. However, previous to the flames reaching the building, all the stock, buggies, etc., had been removed. A dwelling house, the property of Metaskey & Goldstein, was damaged to a considerable extent. The following are the victims:

W. Williams' building, \$4000; no insurance.
The Compton & Armstrong building, \$3000; insurance \$1200.
W. H. Thorpe, stock of furniture, \$2500; insurance \$2500.
D. Moody's store building, occupied by Statpe, \$1200; insurance \$1000.
The insurance adjuster is expected to arrive today.

The prospects for cotton throughout the country were never better, and we shall have at least three-quarters of a bale to the acre. Should the weather clerk favor us with a little rain you may place our crop on one bale to the acre. Corn looks well with an average yield of forty-five to sixty bushels to the acre.

ing of a mother and five children being probably in destitute circumstances, proceeded to investigate and upon arrival at the house found the facts not over-stated; and further, that her husband, a mattress-maker, had abandoned his family—who were left in tatters and want. It is hardly necessary to add that the citizens promptly made up the money necessary to relieve their necessities, and will properly care for them in future.
