Houston County. Correspondence of the Gazette. CROCKETT, TEX., Nov. 8.—The official vote of this county shows a marked change from the vote of 1884. Gov. Ireland's vote was 1757, Gen. Ross' 1512; A. B. Norton, 1239; A. M. Cochran, 558; from which it seems that the Republican loss far exceeds the Democratic, and while the vote is much less than in 1884, the Democratic majority is greater than it was in that year.

County Election Returns. Special to the Gazette. Galveston County. Special to the Gazette. GALVESTON, TEX., Nov. 11.—Trouble is threatened in Brazoria county over the election of Henry Masterson to the office of county judge. Masterson is now serving his second term as county judge, having been elected by negro votes. Brazoria is a republican stronghold by some 700 majority. It seems the tax payers of Brazoria have grown tired of the way Judge Masterson has been running the county and shortly before election they held a meeting for the purpose of bringing out a candidate who could defeat Masterson. The taxpayers selected John R. Ballowe, also a Republican, but a man in whom they had confidence. Charges of malfeasance in office were made against Masterson, and the feeling against him became so strong that Masterson finally agreed with the taxpayers not to run for the judgeship. It is now claimed by parties who are just from Brazoria, that Masterson violated this agreement at the last moment, sending his runners to the negro precincts and publishing a circular declaring that he was a candidate. He carried the county by sixty votes, although one box, known as "Oyster Bay" precinct, has been stolen, and it is not known what effect this will have on the election.

The Evening Tribune says it learns that Masterson has received a note, threatening that if he attempted to take office he would be killed. It also states that Masterson has fled to Houston to escape violence. It is greatly feared that serious trouble may result from the strong feeling against Masterson.

Wills Point County. Special to the Gazette. WILLS POINT, TEX., Nov. 11.—The official count of Van Zandt is as follows: Ross, 2538. The balance of state nominees about the same. Dohoney backed the board slightly; Cochran was forgotten. Farmer's majority is seventy-eight over Kilgore. John T. Curry, Democrat, for legislature has 1196 majority. John S. Spinks, county judge, 42 majority; Sim Allen, county attorney, 112 majority; W. D. Thompson, county clerk, 504 majority; T. J. Quindlen, county assessor, 187 majority; T. J. Fowles, county collector, 260 majority; T. J. High, county treasurer, 125 majority; Henry Blackwell, county sheriff, 664 majority.

Marshall County. Special to the Gazette. MARSHALL, TEX., Nov. 11.—The official vote of Harrison county is as follows: Ross, 3018; Cochran, 617; Dohoney, 28; Wheeler, 3189; McDaniel, 704; Hogg, 3143; Johnson, 804; Gales, 3149; Burkhardt, 800; Hall, 3142; Zadek, 799; McCall, 3187; Brown, 807; Hull, 12; Lubbock, 3143; Cleaves, 779; Jackson, 13; Cooper, 3145; Kline, 779.

Wesson Parker, for legislature, 836 votes; J. E. Freeman, 949; E. P. Pomeroy, 14; R. E. Hannay, district attorney, 1804 votes. County officers elected—W. E. Bowth, county judge, 3 majority; W. E. Harper, county clerk; A. G. Lipscomb, county attorney; A. Calhoun, district clerk.

THE RAILROADS.

Four of the Arbitrators to Determine Between St. Louis and Chicago Have Been Selected.

The Trinity Bridge Being Built—Work on the Fort Worth and Rio Grande Proceeding—Homes Notes.

Home Notes. T. H. Kingsley, Texas passenger agent of the Louisiana & Nashville, is in the city.

It is understood that the plans for enlargement of the Union depot in this city have been drawn and will soon be carried out.

A California excursion train of seven coaches arrived here last night from St. Louis bound for San Francisco. Several accessions to the passenger list were made here.

There is said to be great activity at headquarters of the Denver & New Orleans, and some also in Fort Worth & Denver circles. This means that steps are being taken to make that junction very soon.

The Texas & Pacific has reached a vein of water with its artesian well, which gives a slight flow above the surface, but they are pushing still deeper in order to get a full and free flow of the excellent water obtained.

Mr. Deal, who has charge of the construction of bridges on the extension of the Gulf, Colorado & Santa Fe, is in the city and began the work of superintending the construction of the iron suspension bridge over the Trinity. Some few pieces of the iron have not been received yet, but enough is here to cause no delay in the work.

President Padlock of the Fort Worth & Rio Grande returned from a trip to Granbury yesterday evening. He reports twelve miles of right of way secured from Granbury and grading going on. Work has also commenced on the bridge over the Brazos. President Padlock is working like a Trojan and lets no grass grow under his feet.

A well known and well informed railroad official of this city said yesterday that the extension of the Missouri Pacific from Taylor to Houston settled the fact that the road from Denison to Fort Worth would for all time to come remain the main line of the road. With this branch built the Missouri Pacific has direct communication between Fort Worth and Galveston.

Work comes from the Indian Territory that Jones & Carey are working a large force and pushing things. Several miles of grading are now ready for ties and rails, and the Territory contractors are anxious to see the Gainesville extension completed. Track-laying between Fort Worth and Gainesville is now going on rapidly, and it is said that by December 10 trains will be running to Red river.

The railroad bridge over the tracks of the three lines running south will under way and will soon be completed. As soon as finished it is said the Fort Worth Street Railway company will build its tracks over to a connection with the track laid months ago near the Ross school-house. This will be a great convenience to the people of that neighborhood, and when the track is extended to the Union depot this line will be lighted.

Ticket Agent Lusk at the Union depot, is now selling excursion tickets from Philadelphia to Antwerp, Paris, France, and London, England. The tickets are good only on the steamer Switzerland, which leaves Philadelphia on November 24. The round trip rate is Philadelphia to Antwerp, 200 francs, 225, to Paris, each way, \$15.20, to London, each way, \$15.25. Certainly cheap travel for such distance.

The regular west-bound Texas & Pacific and the California excursion trains, fourteen cars in all, came from Dallas last night drawn by one locomotive. When reaching the heavy up grade east of the iron-horse gave out and after a half hour's trial to pull the train in a second locomotive was sent from Fort Worth and the two got the train to the depot. The excursion train was cut off from the regular train here and both proceeded West about 2 o'clock this morning.

The Southern Kansas is now building from Kiowa in Southern Kansas southward to Las Vegas, N. M., and the Southern Kansas of Texas will begin to build to Tascosa or some point near by as soon as the former road strikes the Panhandle of the state. This line will give passengers and shippers from California, Arizona, New Mexico and extreme North-west Texas a direct line to Fort Worth and close connection here with the Gulf, Colorado & Santa Fe to the seaboard, and with the other lines to all points in the state. Fort Worth will come thousands of passengers and millions of pounds of freight. Here then will the Atchison company build a large Union depot, freight-house and car sheds, and with proper encouragement, possibly car and machine shops as well.

Paid Their Passenger Tax. Special to the Gazette. AUSTIN, TEX., Nov. 11.—The Texas & Pacific Railway company paid into the state treasury to-day \$1800 passenger tax and the Missouri Pacific paid \$300 similar tax on earnings for the last quarter. The tax is one-half of 1 per cent. on the gross receipts. The payments indicate fair earnings for the quarter.

Notes from Lampasas. Special to the Gazette. LAMPASAS, TEX., Nov. 11.—Ed Williams has obtained a judgment against the Gulf, Colorado & Santa Fe railroad for \$2148 damages sustained by falling off a hand-car.

From Decatur. Special to the Gazette. DECATUR, TEX., Nov. 11.—Our railroad prospects are very flattering now, as the probabilities are that Decatur will hear the whistle of the Gulf Pacific before next May. The engineering corps will be divided into three parties soon, one to start from Dallas and two from Decatur, one east and one west. Now for a connection with Gainesville by the Atchison, Topeka & Santa Fe and we are happy.

Glen Rose Wants a Road. Correspondence of the Gazette. GLEN ROSE, TEX., Nov. 9.—Glen Rose has awakened at last to the importance of securing a railroad. The business men met to-day and authorized Capt. J. F. Parr to communicate with Capt. Padlock and inquire if a bonus of \$10,000 would place Glen Rose on the line of the Fort Worth & Brownwood road. If the proposition is accepted Glen Rose will at once subscribe the amount. She wants a railroad, and if that amount will bring it the amount will be raised at once. Glen Rose wants railroad communication with Fort Worth, and the line as now surveyed would not have to bend but a few miles to come to Glen Rose, and would then be on a direct line to Stephenville, and from Granbury to Glen Rose the road would run through a rich and populous part of the country. The citizens are now ripe for a road.

That Pennsylvania Surplus. PHILADELPHIA, PA., Nov. 11.—The story of the use of the Pennsylvania railroad surplus fund for the purpose of acquiring a controlling interest in the Chicago & Northwestern Railroad company is pronounced by a leading official of the former company as utterly without foundation. The same official said further: "The rumor doubtless arose from the fact that the directors in their recent annual inspection departed from their customary programme and went as far west as Omaha and passed over a portion of the Northwestern line. This was done simply to get an idea of the growth of the region traversed, and without any purpose to extend the company's possessions. Unless I am very much mistaken, President Roberts would never consent to an extension beyond the Mississippi. He has repeatedly declared himself on this point. The prominent ironman, who is a director of the Pennsylvania Railroad company, and who has returned from Chicago, as stated in the published report of the matter, is pronounced a myth."

An officer of the treasurer's department of the company, speaking of the fund for the surplus fund for the object in question, said: "That is impossible. The fund could not be used for any such purpose. It is in the form of securities that draw interest for lines controlled by the Pennsylvania Railroad company. Does any sane person suppose we could sell our stock in the Philadelphia, Wilmington & Baltimore railroad company for any such object as an extension in the Northwest?"

Denison Notes. Special to the Gazette. DENISON, TEX., Nov. 11.—The California excursion passed through here today. There were about eighty-four people on this train, occupying six coaches and two through sleepers. John E. Ennis is in charge of the excursion. Tip Layton, the veteran Pullman Palace Car company conductor, is in charge of the sleepers. He is the jolliest and most popular conductor on the road, and fully understands his business.

Mr. H. S. Baker, a brakeman on the Choctaw division of the Missouri Pacific railway, had his left hand mangled at Armstrong, I. T., yesterday at 5 o'clock while coupling cars. He came to this city this morning and Dr. A. W. Acheson, the company's surgeon, assisted by Dr. Wilkins, amputated the first and little fingers. Mr. Baker suffered a great deal of pain, it being so long before he could get his wound dressed.

A special came from the south on the Missouri division, Missouri Pacific, last night, arriving at 11:30 p. m., having on board Judge Baker of Houston, one of the attorneys of the road, G. J. Roach and others, bound for Dallas on business.

Gulf, Colorado & Santa Fe vs. Fort Worth & New Orleans. Special to the Gazette. TYLER, TEX., Nov. 11.—In the suit of the Gulf, Colorado & Santa Fe Railroad company against the Fort Worth & New Orleans Railway et al., the supreme court entered an order to-day for the respondents to appear before said court on the 22d instant and show cause why the respondents shall not be held in contempt of said court for violating and disobeying a writ of injunction issued by the district court for Tarrant county and perpetuated by an appeal duly perfected to the supreme court.

To Arbitrate for the Pool. CHICAGO, ILL., Nov. 11.—The following officials have been selected as agreed by the several parties in interest to arbitrate the basing of rates in the newly-formed Southern pool: George R. Blanchard, commissioner of the Central Traffic association; E. F. Vining, commissioner of the Western Trunk Line pool; J. L. Waldo, commissioner of the Texas Traffic pool; and W. M. Duncan, general freight agent of the Ohio & Mississippi road. Two of these will probably favor Chicago and two St. Louis, so the selection of the fifth arbitrator will become necessary.

Brenham. The Negro Polk Hill and Confederates Arrested—Home Racing. Special to the Gazette. BRENHAM, TEX., Nov. 11.—Polk Hill, the negro who killed Dewees Bolton at Fievelen's store, on the night of the election, was captured by Sheriff Dever and posse, and brought in and lodged in jail. He was taken up to Cameron to get him out of the reach of the mob here. The other eight negroes who are implicated in the crime were sent to Houston for safe keeping.

The races at the racing park began yesterday. The attendance was not very large. Some of the racing was very good indeed, considering that all the entries were home horses.

Detectives on Trial. They are Charged with Attempt to Extort Money from C. C. Sears. NEW YORK, Nov. 11.—The case of Andrew J. Whitman, a private detective, charged with conspiracy and blackmail, was called before Judge Brady in the court of oyer and terminer to-day. With Whitman, were indicted jointly Charles W. Bales, a lawyer, and Samuel J. Lowell, a private detective. The victim was Charles C. Sears of Buffalo. About a year ago Sears sued his wife for an absolute divorce in court in this city. February 10 last, May Thatcher, and that they registered at a hotel as C. C. Sears and wife. They afterward got the girl to make affidavit that she was enceinte by Sears. Bales wrote to Sears calling his attention to the affidavit and saying that the case could be settled by payment of \$1000 to pay expenses of

complainant and support the expected child. Sears replied that he had never seen the girl and declared the matter blackmail. The girl was taken to Buffalo, where she broke down on seeing Sears, and said that she had been deceived and had never before seen Sears. Bales, Whitman and Lowell were arrested and held to bail for trial. In court to-day the morning was spent in empanelling a jury. The first witness was Mary Annie Thatcher, alias Livingston. She said she first met the man that was supposed to be Sears at 10 p. m. February 10 last, while on her way home and they went to the hotel together. She knew that Sears was not responsible for her condition, but the man who was responsible was Frank Medary, an artist of this city. The detective urged her to sue Sears and get \$1000. She swore to an affidavit to that effect. She said she had led to Lawyer Bales in saying that her trouble was caused by Sears. She was urged by the detectives, who posted her what to say to the lawyer. Letters written by Bales to Sears were introduced as evidence, with Sears' affidavit that he did not know the woman and had never met her. Mrs. Sears has brought a cross suit for divorce from her husband in Brooklyn.

Strikers on Trial. SEDALIA, MO., Nov. 11.—The numerous trials of the late strikers who last spring participated in beating non-union men, killing engines, derailing trains, etc., in this city, were yesterday pretty well disposed of in the criminal court for this term. For most of the minor offenses a fine aggregating about \$20 each was imposed and most of the ring leaders had from two to ten counts against them. To day the more serious charges of riot and train wrecking were called and on motion continued until the April term. A number of those implicated were not able to give the bond required, \$100 each, and are now in jail, among them being Fred Page, John Collins, George McCullough, Frank Neville, Pat Golden.

GERMAN METHODISTS. The Conference of Ministers Opened at Houston. HOUSTON, TEX., Nov. 11.—A number of delegates arrived in this city last night to attend the German conference of the Southern Methodist church, which opened here this morning at 9 o'clock. Among the distinguished clergy in attendance are Bishop Joseph S. Key, presiding, Rev. Dr. John of Nashville, secretary of missions, and Rev. Dr. Ahrens of New Orleans. The principal business of the day's session related chiefly to the organization of the conference and other preliminary work.

Farmers National Alliance. CHICAGO, ILL., Nov. 11.—The annual convention of the Farmers National Alliance began here to-day. About 200 delegates representing local assemblies in fifteen states were present. A. J. Streeter, president of the alliance, made a lengthy address, in which he set forth the evils from which farmers as a class are suffering, and urged the necessity of organization against encroaching monopolies. He declared that the evils were due in a large measure to railroad monopoly and advocated governmental control.

Dairymen's Convention. CHICAGO, ILL., Nov. 11.—There was a very large attendance at the annual Dairymen's convention this morning when President Winsor took the chair. The president made a short speech congratulating the dairymen on their success in securing the passage of the oleomargarine bill. Statistical reports from various markets were read, and the convention talked about them. Numerous attacks on bogus butter and its deleterious effects; were made during the session.
