Many Dangerous Diseases—A Stomach Is the Great Natural Safeguard.
A strong digestion means good rich blood; good blood means a strong, well-nourished body, capable of resisting disease.

Graves, a vigorous stomach. Normal digestion is the first and most important step in the process of health. If the stomach is weak and inactive, the food that enters it is not properly digested. This is a great danger to the body, as it is the source of all our strength and vitality.
