TELL ME HIS NAME. The Name of Someone Not Well. Let Me Send My Book.

I want to know a man or woman who needs help. Just a postal will do, for no money is wanted. Tell me which book I shall send.

Let me explain a treatment which I accept a lifetime to learning; a treatment so effective that I let any sick one take it at my risk. I accept not a penny if it fails.

With the book I will mail an order on your druggist for six bottles Dr. Sheep's Restorative. I will authorize him to let you take it for a month. The cost is only \$3.00, if it succeeds and I will pay the druggist myself if it fails.

That is a remarkable offer, and the fact that I make it ought to convince you that know how to cure. No matter how difficult your case, mine is the entire risk. I pay the bill if it fails.

And sometimes I must fail, for there are cases, like cancer, which no man can cure. But my records, covering over 600,000 cases, show that 39 out of each 40 who get those six bottles pay. That means that 39 in each 40 get well.

This is the secret of my success—I have found the one treatment that strengthens the inside nerves. When an organ is weak, I don't doctor the symptoms; I don't treat the organ at all. But I bring back the nerve power which alone makes that organ act. When an engine is weak, you don't doctor the engine; you give it more steam. I do just the same with a weak vital organ; I give it more nerve power.

Any organ will do its duty when it has sufficient nerve power, but never without it. Most chronic diseases must be cured in my way.

Don't be incredulous when I take the entire risk. You have nothing to lose and everything to gain. I am sorry for a sick one who will let any prejudice keep him from writing for my book.

Simply state which book you want, and address Dr. Sheep, Box 600, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At Capital Pharmacy, 217 Main street, Abbott Cookwell, 602 Main street, A. S. Kiesling, 509 Main street; Special Agents.

DEATH IS NEAR. oftentimes rather than you can possibly imagine. Only just week a strong robust young man in the prime of life, who lived in White Plains and did business in New York city, had a slight cough. It was so slight that he paid little attention to it and in a split of a second he was in the office work. In four days it went to his lungs, he died March 29th, pneumonia, within a week. Many such cases are happening every day, and every one of them can be easily cured by
