This is "a fly census" says a contemporary. Only in the sense, however, that it is well covered with flies.

How long will public sentiment condone murder in Tarrant county, and place the murderer on a plane with a cow thief?

If we don't produce our own ostrich feathers and rear our own canals, it won't be the fault of our tariff friends.

THE usual annual cry of scarcity of peaches and berries in Maryland and Delaware has gone forth. Veterans, however, believe this is only to serve as a pretext for putting the bottom higher in the box and for making the bottom smaller in the basket.

THE New York Journal gives the names of twenty prominent Wall street men who within a few years have become insane.

"The commission amendment is sweeping like a tidal wave over the state," says the Austin Statesman.

Mr. Hogg has one hundred and twenty of the six hundred delegates necessary to elect, and is confident of retaining his grip.

Assuming for the sake of argument that the Express would state the situation fairly, why not put it in this way: "Mr. Hogg has already secured 200 of the 241 delegates so far selected by the counties."

Resolved, That we, the Democracy of Hardeman county, in convention assembled, do hereby express our unqualified confidence in the honesty and integrity of Attorney-General Hogg, seeking to define his character as an officer, to be false and malicious.

The above resolutions are just what might have been expected in response to a charge of blackmail made against a citizen of Texas years after the alleged offense and obviously to compass his defeat for governor rather than to subserve any end of justice.

What is Scrofula

It is that impurity in the blood, which, arising from slightly impure or unwholesome food, produces a running sore on the arms, legs, feet, etc., causing blisters in the eyes, or, in some cases, developing blindness or deafness, which is the original source of all the other diseases which are possible features of it.

How can it be cured? By taking Hood's Sarsaparilla, which, while it has accomplished often what other medicines have failed, has proven itself to be a potent and reliable medicine for this disease.
