A WORLD BEATER

The Illinois Launched This Morning. Christened By Miss Nannie Leiter.

NEWPORT NEWS, Oct. 4.—There was never such a crowd at Newport News at any previous ship launching as today when the great battleship

MISS NANNIE LEITER.

Illinois was christened. They came from everywhere, from north, south, and especially from the west. Governor Tanner of Illinois came last night, escorting several hundred prominent citizens from his state. They took up quarters at Hotel Chamberlain and were joined by Miss Leiter and her father, who had arrived on an earlier train. In the governor's party were twenty members of his staff and their ladies.

Guests from Washington reached the scene at 9 o'clock, two hours before the launching. Among the distinguished visitors from the nation's capital were, Assistant Secretary of the Navy Allen, Chief Constructor Hitchborn, Chief Engineer Neville, Capt. Crowenshield, Secretary of Agriculture Wilson, and General Miles. Governor Taylor of Virginia, brought up a large party from Richmond. Long before the hour for the launching the crowd began to gather about the spot and by 11 o'clock standing room was worth its area in nickels everywhere within a block of the Illinois.

Enthusiastic cheers greeted the arrival of the distinguished guests. Few in the vast crowd could hear the words spoken by Miss Leiter, but nearly all were able to see her. As she raised the bottle of wine in her hand and dashed it again the steel battleship the action was a signal for their enthusiasm to break forth with full force. It is estimated that fully 20,000 people were present at the launching.

After the launching ceremonies the distinguished guests from Illinois, the members of the cabinet present and other persons of prominence were taken to Old Point Comfort as the guests of the shipbuilding company and a luncheon was served at Chamberlain's.

A SUCCESS.

The Mountain and Plain Carnival.

DENVER, Oct. 4—The Mountain and Plain carnival opened successfully today. There is an immense number of strangers in the city. The opening parade pageant of American progress was brilliantly successful.

Admiration centered in a series of magnigcent floats depicting scenes of the late war, which were the subject of vociferous applause on the part of the thousands of spectators lining the streets. There was a mammoth representation of the battleship Oregon. The decks of the miniature battleship were twenty feet in width, and its masts and smokestacks projected to such a height that it could barely pass under the telegraph wires crossing the streets. The night features of the festival week will be ushered in this evening with an elaborate and costly pyrotechnic display calculated to eclipse anything of the kind ever seen west of the Mississippi.

PUGS AT IT

Mysterious Billy Smith Defeats Jimmy Judd.

SCRANTON, Pa., Oct. 4.—Mysterious Billy Smith defeated Jimmy Judd in the 20th round last night before a crowd of about 3,000 persons. The finish blow was a right hook on the point of the jaw that sent Judd a reeling. Judd fell limp and unconscious to the floor and Referee Austin counted him out. The battle was a hard fought one, but Smith showed a superiority at nearly every stage of the contest and punished Judd severely.

A Double Tragedy.

CLEVELAND, O., Oct. 4.—A double tragedy was enacted this morning at a boarding house kept by Mrs. Blanche K. Winship, a divorced woman, residing on Lake street. At 9:25 there was a knock at the door and Mrs. Winship looking out of the window saw L. H. Dickerson, a former boarder. She refused him admission when he forced open the door and shot Mrs. Winship, killing her instantly. He then turned the revolver upon himself, inflicting a wound that caused immediate death.

A TERRIBLE DEED

An Insane Mother Kills Her Four Children.

MONTREAL, Oct. 4.—News has reached here of a terrible tragedy which happened Sunday at St. Verin in Beauce county, Quebec. Six years ago Joseph Cloutier, a farmer married Miss Mary Vachon, 18 years old. They lived happily and four children added to the joys of their home. At a parish church two miles away Cloutier sang in the choir. He went to church Sunday and during services happened to look out of a window toward his home where his wife and little ones were, when he saw flames. He gave the alarm and followed by the congregation rushed to his burning home. The house could not be saved, but in the ruins the bodies of the four children could be seen, their bodies mutilated, their throats cut. The perpetrator of the deed was the unfortunate mother. Mrs Cloutier suddenly appeared from out of the building and going up to the husband told him she killed the children and set the house on fire. The woman is insane and it is feared the husband will lose his mind.

HEYWOOD IN CUSTODY

Corresponding With Senator Quay.

OMAHA, Oct. 4.—Today Benjamin Heywood, ex-state treasurer of Pennsylvania, accused with Senator Quay and others of speculating with public funds, is a close prisoner in a room at the Parton hotel. His aristocratic and pretty wife is with him. They are in

SENATOR MATTHEW QUAY.

animated correspondence by telegaaph and long distance phone with prosecuting attorney Graham at Philadelphia, Quay and others. A number of cipher message, have been exchanged. Haywood explains these transactions by saying he was traying to arrange to have bond given at Philadelphia so he would not be subjected to the presence of an officer while returning. Thus far it has not been arranged.

On orders from Pennsylvania Haywood was released at 1 o'clock, this afternoon.

GENERAL GARCIA

To Enter the Employ of the U. S.

SANTIAGO, Oct 4.—The latest story regarding the intentions of General Garcia is that he has agreed to accept a position with the American administration here. He is to receive $500 per month and all expenses, it is reported, for acting as a commissioner to go through the country and conduct negotiations with the Cuban army with a view of its disbanding. General Garcia, it is said, will be gone on the trip three or four weeks. On his return he will go to the United States with General Wood to confer with the authorities at Washington.

COMMODORE WATSON

Says The Victory Belongs To Schley.

CHICAGO, Oct. 4.—Commodore Watson in an interview printed here this morning is quoted as saying that the sole credit for the destruction of Cervera's fleet belongs to Schley.

Dr. Nancy To Return.

WASHINGTON, Oct. 4.—The Secretary of state received a telegram from the governor of Connecticut saying that an agent of that state would start to Washington today with copies of the evidence necessary to secure the extradition of Dr. Nancy Guilford from England.

Declines The Nomination.

NEW YORK, Oct. 4.—Henry George has declined the nomination for governor tendered him by the silver democrats because he was too busy writing his fathers biography to engage in active politics.

Silver.

NEW YORK, Oct. 4.—Silver 60¼.

Run Over and Killed.

Yesterday as the northbound Mexican Central passenger approached Montezuma the engineer discovered on the track the body of a Mexican which had been severed in twain presumably by a freight train which was some distance ahead of the passenger. The remains were not identified.

GENERAL MILES

Will Tell All About It.

WASHINGTON, Oct. 4.—When General Miles appears before the war scandal commission he will be asked to tell in detail the plans of the war department in the early stages of the war. This will bring out the story of the differences between Miles and Secretary Alger over the selection of civilian officers for responsible positions.

A member of Miles staff today told the details of one plan of the commanding general, which was ignored, which is pertinent now because of the various charges brought against the staff officers selected from civil life. When war with Spain was a certainty, Miles scanned with great care the list of retired officers of the army, who, under the law, were subject to the president's orders in time of war. He selected from the retired list 100 officers whose services were available, and recommended that they be assigned to the different bureaus of the department in Washington to succeed that many officers on the active list, who could then be assigned to duty with the armies in the field, either as commanders or to responsible staff places. This, Miles believed, would do away with any danger from inexperienced officers, whose blunders might prove costly.

It is claimed by Miles's friends that the recommendations and list were entirely ignored. Instead of appointing experienced officers on the active list for duty in the field and letting equally expersenced retired officers perform their duties in the war department, the politicians were allowed to name row men for field duty, while the regulars were kept in Washington performing routine work.

The flood of complaints and charges which compelled the President to name the war scandal commission are indirectly tracable to the grave error of ignoring the commanding general's recommendations.

THE BAY STATE

Holds A Democratic Convention.

WORCESTER, Mass., Oct. 4.—The democratic state convention met at 11:30 this morning. Phillip Doherty of Boston was chosen chairman and addressed the convention. He called upon the delegates to reaffirm the Chicago platform and was heartily cheered. He also spoke of Alger's record in the civil war and severely criticized the methods of the war department in the Spanish war. George Fred Williams an enthusiastic Bryan man is the controlling spirit at the convention. It is almost certain that Alexander B. Bruce of Lawrence will be nominated for governor. The Williams men think he will be a vote getter and anticipate that the labor organizations will be favorably disposed to him. He was mayor of Lawrence in 1887, being the youngest man elected as mayor in the history of the city.

Bruce was nominated for governor this afternoon.

Tendered and Accepted.

OYSTER BAY, Oct. 4.—Colonel Roosevelt was formally tendered, and

COLONEL THEODORE ROOSEVELT

accepted, the nomination for governor today.

Federal Court.

This morning at 9:30 the United States Federal court met, Judge Maxey on the bench.

The first case called was that of Edward Evey against the Mexican Central. The court dismissed the suit at the request of the plaintiff he agreeing to pay costs.

The next case taken up was James A. Edmondson against the Pullman Palace Car Co. for $15,000 damages claimed to have been sustained to his health because of having slept in the upper berth of one of its cars and it being a rainy day the car leaked, which gave him consumption. The case was still on trial at 12:30 when the court took a recess until 2:30 p. m. at which time the case will be resumed.

Utilize Fort Bliss.

A prominent citizen says that it is understood that the government is seeking encampments for troops at such points as will assure the health of same, and economy in their maintenance. He wants to know why Fort Bliss is not utilized for that purpose as it compares favorably with all other posts in the country for health and maintenance. He suggests that our citizens get together and take immediate steps to call attention to these incontrovertable facts. He believes with prompt and proper action the post can be garrisoned by four or five regiments of troops.

ONE OF THE THREE.

The Supposed Murderer From Lordsburg Identified by an Officer.

The delayed train from the west last night brought to this city Constable Harden from Lordsburg, N. M., to identify the young man who was locked up here Sunday night on a charge of being implicated in the murder of a Mexican, which occurred here last Saturday night.

This morning at 10 o'clock the supposed murderer was brought from his cell into the office of the jail by Jailer Blacker and immediately a vigorous search was made of his clothing. He had on two shirts, two pairs of overalls and two pairs of socks. Nothing was found on him excepting 75 cents which was in one of the pockets of his overalls.

After the examination of his clothing was completed the prisoner started a further investigation by asking: "What time was this man killed?"

"Where were you between 11 and 1 o'clock on last Saturday night?" asked the constable.

"I was in a saloon gambling at that time."

"What time did you in company with the other two start down the rail road track in the direction of the stock pen?"

"There were only two of us."

"What kind of a looking man was he that you were with?"

"A short, thick-set man, with a moustache."

"Same man that was killed," said the constable.

"Did you drink any whisky that night?"

"Yes, we bought two small bottles just to pass away the time."

"You say that you left your partners at the stock yards. What did you leave them for?"

"We were all coming east on the freight train and they told me to go on down the track and get on and that they would get on where they were. I went as directed and boarded the train when it came along and supposed they did the same thing."

"What is the murdered man's name?"

"I do not know. We were all three together and neither knew the other's name."

"Did the murdered man have a knife with him?"

"Yes, he had a dagger with him about that long." Indicating with his hands about a foot long."

As regards to the stains on his overalls which is supposed to be blood, the prisoner said that it was axle greese which he received while working at Bowie, his jumper shows similar stains.

There is one thing certain; the prisoner was one of the three men who were in Lordsburg Saturday and one of this number was murdered. He gave his name as Uvalde Silva and says that he has been in El Paso before. His home is in Chihuahua and he went to Bowie a few weeks ago to work on the railroad.

During the examination the prisoner never flinched. He answered every question put to him in a firm, positive voice and never showed the slightest nervousness. He will be taken to Silver City on the afternoon train and will have a hearing tomorrow.

The Mexican who was found murdered Saturday night was shot through the bowels and in the head and stabbed in the breast close to the heart, and with all these wounds he lived several hours, but in a dying condition. He could not speak plain enough to be understood and could not tell who the assassin was. When asked if he had money with him when he was shot he shook his head in the affirmative. When asked if the man who shot him took his money, he gave the same answer

The murder occurred in the S. P. railroad yards about a mile from the main portion of the town, near the stock pens.

There has been another Mexican arrested in Lordsburg who is charged with the same crime. It seems as if the man arrested there was bitter against the murdered man, whom he claimed had insulted his wife and that he would settle matters with him before morning. Now, the question is, did he carry out his threat and murder this man, or did the boy who was arrested here do it?

The murdered man, whose name cannot be learned, is said to have a wife living in Juarez and it is also said that he has been sending her money regularly.

Fined $5 But Appealed.

Jack Hall better known as "California Jack," was up before justice Darwood yesterday on a charge of assault and battery sworn to by A. D. Dorst, a tinner. Dorst claims that he in company with two others, went into Hall's place and called for the drinks and handed Hall a dollar. He says that Hall refused to give him any change and that he made a demand for it when he was struck in the face with a six-shooter. Justice Darwood heard the evidence in the case and fined Hall $5, and he immediately gave notice of an appeal. Hall has been before the courts frequently of late and his joint on Utah street has been the scene of some very lively encounters. When the officers went to arrest him for this offense he refused to go without the police had a warrant. One of the officers remained to watch while the other went after the warrant. before the warrant arrived, however, Hall concluded to go to jail and he accompanied the officer to police headquarters. He was docketed and fined $1 for rudely displaying a pistol and then brought before Justice Darwood to answer to a charge of assault and battery and was fined $5 there.

To Destroy the Apple Crop.

Dr. J. H Bailey, recently returned from his orchard at Mesilla, New Mexico, reports a marked shortage in the usually abundant apple crop, due to the ravages of insects. Dr. Bailey estimates his own loss at several thousands of dollars; and, that, not less than $50,000 worth of apples have been destroyed by orchardists in and around the town of Mesilla, in the hope of exterminating the pests. Concerted effort will be made before the next legislature for the passage of a law which will enforce the entire destruction of at least one crop of apples, as the only means by which the insect can be gotten rid of.

Buy your coal from "O'Brien Coal Co.," the agents and direct shippers from the Carrillos mines. 'Phone 8.
