**French Schooner Goes Down
In a Collision Off the Coast
of Newfoundland.**

**DISASTER CAUSED
BY A SLIGHT FOG.**

The Schooner Was Struck by the
Steamer Norge, Forced Over and
Went to the Bottom.

**NINE MEN SAVED
AND SIXTEEN LOST.**

Passengers on the Steamer Thrown
Into a Panic, but Were Quieted
When Told That no Damage
Had Resulted.

New York, Aug. 25.—The Thingvalla Line Steamer Norge, which arrived here early today reports she sunk the French fishing schooner Lacoquette of Bayonne, France, on Saturday last, on Grand Banks. The captain and eight sailors were saved. Sixteen went down with the unfortunate vessel.

The Norge sailed from Stettin Aug. 2. The weather was generally fine to the banks of Newfoundland, when there became foggy with patches of clear weather. On Saturday, Aug. 20, between 3 and 4 o'clock in the afternoon the weather became foggy, but not so thick. The vessel's speed was reduced. Captain Kundsen said he could see about three cables lengths ahead. The wind was fairly brisk from the west, southwest, when a vessel suddenly loomed up from the north with sails full and stood directly across the bow of the steamer. Bells were rung to stop and backed at full speed, but too late to check the steamer's headway. The fishing schooner fell across the bow and with a crash was forced over and sunk. Three men sprang aboard the Norge.

The passengers of the Norge, most of whom were about the decks, rushed about in alarm at the shock, but were soon quieted, when they learned that the steamer was uninjured. Boats were lowered and six men and a dog were picked up. The vessel sank almost immediately, and in sinking carried with her 16 of her crew.

RAILROAD COLLISION IN MICHIGAN.

Twelve Persons Were Injured and Some
of them Are Reported to Be In
a Serious Condition.

Port Huron, Mich., Aug. 25.—Twelve persons were more or less seriously injured in a collision on the Flint and Pere Marquette railroad here. They are: Mrs. James Hobbins of Wales, hip broken and spine injured; two ribs fractured.

Mrs. Margaret Downer of Wales, two ribs fractured.

Mrs. Dr. Wilkinson of Almont, head cut, cheek bone injured.

Miss Martin of Detroit, nose broken and scalp wounds.

Mrs. M. S. Swan of Almont, leg bruised and ankle sprained.

Miss Knox of Memphis, face, head and shoulders injured.

Mrs. John Glegg of Memphis, head and hip injured.

Mrs. McGuire of Memphis, shoulder and arm injured.

Mrs. Victoria Cook of Wales, thumb on one hand and finger on the other broken.

George T. Frye of this city, thumb dislocated.

Bessie Baker of Memphis, and Mrs. Helen Wilcox of Wales were so badly shaken up as to require medical attention, but no bones were broken.

THE USUAL ELECTION WAS POSTPONED.

Supreme Officers of the Knights of Pythias,
has Not Been Held For on Account
of the Investigation.

Indianapolis, Aug. 25.—The election of officers of the supreme lodge of Knights of Pythias did not take place this morning. It is usual to elect officers on the third day of the biennial session, but was objected to because of the investigations now going on and one representative insisted that the election be delayed, as it would not be the proper thing to elect men who were under in-

vestigation. There were stormy times in the lodge room and several appropriations that usually went through with a whirl at former meetings were either referred or voted down, and there was a strong determination on the part of those opposed to the present supreme officers to stick close to Pythian laws in everything.

Inquiry was made as to the present condition of the claim held by the supreme lodge against the City National bank of Fort Worth, Texas.

**SPAIN INDIFFERENT
AS TO HER SEAMEN.**

She Is Willing to Take Care of Cervera's Officers, but She Is Not Concerned About the Others.

Washington, Aug. 25.—The president's magnanimous offer to Spain through the good offices of the British ambassador at Madrid in the first week of August, just after the initiation of peace negotiations, to release all the Spanish naval prisoners on parole for prompt repatriation, which was declined by Premier Sagasta at the time, has had the direct result of alienating most of the ordinary prisoners, as well as many of the officers, from their mother country. The navy department may eventually be compelled to abandon the comparatively luxurious treatment it has accorded these men, and put them to work. There are 1600 prisoners at Seavy Island in the Kittery (Me.) navy yard, including nearly all the ordinary seamen and petty officers who were saved when Cervera's fleet was annihilated. At the national hospital near Norfolk, Va., the seriously wounded, 300 in number, have been under treatment, and most of them have convalesced. The principal officers, numbering 23, have been quartered in Annapolis in buildings which will be needed in a few weeks for the officers and professors attached to the naval academy.

The men at Norfolk are a great burden upon the naval medical authorities, but the navy is principally concerned regarding the large force of men at Seavey Island. They are quartered in comfortable but temporary wooden structures, which do very well for summer, but which will cause great suffering soon on account of the approaching cold weather to which the Spaniards are wholly unaccustomed. Some of the Spanish officers have written home that they hope the war will continue another year in order that they can enjoy the treatment they have been receiving, but others, notably Captain Conca, who has been in this country longer than any of his colleagues, have recently caused considerable pressure from various sources, chiefly political, to be brought to bear on the navy department to consent to the return of the officers to Spain.

Naval officials make no concealment of their anxiety to get rid of Captain Conca and all the other officers at Annapolis and Norfolk who are now on limited parole, but there is no intention to release the officers until Spain makes some provision for the ordinary seamen.

It is the impression in the navy department as Spain is so much more particular about prohibiting ordinary seamen to accept parole than she is in the case of their superior officers that some ultra motive must be at the bottom of the matter, and that possibly if her officers were returned home the Spanish government would take no further interest in the sailors, but leave them as paupers dependent on the charity of the United States. It is certain, therefore, the prisoners will remain, and if Spain continues to be indifferent it is possible some of the luxuries will be taken from the officers, and that they will be made to feel, in a measure, that they are in fact prisoners of war.

All Surplus Troops Ordered Home.

Washington, Aug. 25.—Orders have been issued to General Miles to send home from Porto Rico all troops not actually needed for service there.

No point has been designated as yet for their disembarkation in the United States, but the examination of several sites are being looked after. It is desired to secure a healthful camp, and at the same time one where disembarkation can take place at once without delay such as that occurred at Montauk Point.

Transports Reach Manila.

Washington, Aug. 25.—The war department has received the following from General Merritt at Manila:

"The Rio de Janeiro and the Pennsylvania arrived on Wednesday. All were well. No casualties, excepting Private Wenks of the First South Dakota, who died between San Francisco and Honolulu."

Chinese Women Arrive.

San Francisco, Aug. 25.—Five hundred and fifty-six Chinese women who arrived from the orient on the steamer Belgic have been brought to this city from the quarantine station on Angel Island. Of this number 30 are ticketed for Mexico, the balance claiming to be entitled to land owing to prior residence. Special attention will be paid to the

Died From an Operation.

New York, Aug. 25.—Mrs. Anna Knowlton Colby is dead in this city from the effects of a surgical operation. Her husband, Charles L. Colby, who died in 1896, was prominent in New York business circles, and was closely interested in railroad and banking circles. He was at one time president of the Wisconsin Central railroad. Mrs. Colby took a deep interest in charities.

The Brunswick Arrives.

San Francisco, Aug. 25.—The steamer Brunswick has arrived 13 days out from St. Michael's via Dutch harbor, with 3500 pounds of whalebone and 20 passengers from Dawson. Those coming from the Klondike were reticent regarding the amount of treasure brought down, but the total is not believed to be large.

Skin Like Velvet

The woman or girl whose face is rough or red—whose skin is disfigured with ugly pimples, blackheads, moth-patches, liver-moles, freckles, tan or sunburn, can have a skin like velvet if she chooses. Persistent use of

Viola Cream

will make the face as soft, smooth and pink as a baby's. Without question or doubt Viola Cream will do exactly what we claim. It is the only preparation which does permanent good, and cannot possibly do injury. It is a skin medicine as well as a skin beautifier. Try a 50-cent jar. It will bring both happiness and satisfaction. By the time the jar is used up, you'll hardly recognize yourself in the mirror. Your old complexion will be replaced by a new one. Druggists sell Viola Cream.
