PLAYED FOOTBALL BROKE HIS ARM

SON OF MR. AND MRS. HAL W. GREER SUSTAINS PAINFUL INJURY.

FELL FROM FENCE TO SIDEWALK

Was Climbing to Other Side to Capture the Pig Skin When the Accident Occurred.

Master James Greer, the young son of Mr. and Mrs. Hal W. Greer, sustained a fracture of both bones of the left forearm yesterday afternoon while playing football. The break occurred just below the elbow and while it caused intense pain to the boy it is not anticipated it will prove serious. The arm was set by Dr. F. F. Sutton immediately after the accident. If all goes well with the young man it is hoped he will have recovered and be out again within a month.

Dr. Sutton stated that spot where the break occurred was the least dangerous portion of the arm to be broken. As Master James is young and healthy no serious complications are anticipated.

The accident occurred just outside the yard of Mr. Horace Chilton, whose residence is immediately east of that of Mr. and Mrs. Greer's. Young James was playing football in the yard with a number of other boys of the neighborhood. The ball went over the fence and he went after it. In jumping down on the other side he fell, lighting on the cement sidewalk with his left arm doubled underneath. Both bones snapped like whip cords.

The little fellow was picked up and carried home, where Dr. Sutton set the broken bones and dressed the arm in splints. At a late hour last night Master James was resting in comparative comfort.

At the Magnolia Park.

A large audience was present last evening and although the management was handicapped by the failure of some of the gags quite an excellent performance for the nominal price of 10 cents, which was well received by the audience, after which the Pavilion was cleared and dancing was in order and was thoroughly enjoyed and appreciated. The management expects to give the full performance on Thursday evening and promises a pleasant evening to all.

BIRDS AS LETTER CARRIERS.

"Frigate" Usefully Employed in the Islands of the Pacific.

The "Frigate" is the swiftest of all sea birds, and in some of the equatorial islands of the Pacific is used as a letter carrier. Taken from the nest before it can fly, it is handed on a fish diet by the natives, and in the course of a few months becomes so tame that it can be liberated during the day and will return to its perch at sunset.

It is the practice of the natives of the Ellice group, near Samoa, to exchange the birds after they have been tamed. For instance, the Samoan natives of the islands of Nanomea, Nanomea and Niutao—sixty to eighty miles apart—all kept two or three birds each, and frequently used them to communicate with each other. The exchange familiarized the birds with the islands to which they were sent, at both ends of the route. Indeed, the birds sometimes make the distance and visit their previous companions when let loose and allowed to go as they please. They always return to the home perch.

Must Have Been Frightful.

A missionary who had lived a long time among the Kafirs tells how one of them who was a valiant warrior and rich could not be called "man" because he had never been able to secure a wife, being too ugly.

Good in Fashion's Changes.

Constant changes of fashion in dress is held by some medical authorities to be advantageous to health, as it ensures that one particular kind of garment shall not be worn for any great length of time.

Reviving Old Whales.

Old Whales, which have become lost and unable, should be washed in hot water, and then laid on a table to dry. In this way it is straggled out and has a new life of usefulness before it.

FOOTBALL GAME FOR NEXT WEEK

Y. M. C. A. SQUAD WILL BE DIVIDED INTO TWO ELEVENS FOR CONTEST.

PLAY SCRUB GAME THIS WEEK

George Adams, Well Known Baseball Player, Elected Captain and is Working Men Hard and Fast.

The Y. M. C. A. team is well organized, a captain has been elected and a date fixed for an exhibition game at the Driving Park. George Adams, a well known local athlete who was seen the past summer as short stop for the Commercial, has been elected captain. Adams knows something more than the rudiments of foot ball and, Prof. Bourque, instructor in physical culture at the Y. M. C. A., will put the squad through a hard line of practice.

One week from today an exhibition game will be played at the Driving Park between two elevens to be made up from the squad now out working for places on the team. This will be the first regular game of the year here. On Saturday the squad will be divided into two teams and a practice game will be played but the public is not earnestly requested to attend, as the eleven will not be in shape to put up much of a game. By a week from Saturday, however, it is expected the play will be worth seeing and the public will be invited to witness the struggle.

Every afternoon the squad is out for practice in uniforms on the plot of ground formerly occupied by the Christian church tabernacle on Pearl street and Calder avenue. Upwards of thirty men are candidate for positions on the eleven and all are working hard. The practice consists of about three quarters of an hour kicking, falling on the ball, passing the pig skin and snuffing the interference without opposition. It is pretty warm for hard practice and this will not be indulged in until it is a little cooler. The object of the practice now is to wear off the fat, accustom the men's muscles to the strain that will be put on them and permit the players to learn the primary elements of the game.
