WARE.

CAUSE WAS ATTEMPT AT MURDER

Many Left the Local Church to Join
in the Chase of the Victim, Who Was
Prisoner in the Hands of
the Sheriff.

Atlanta, Ga., Sept. 18.—A special to
the Constitution from Hayston,
Georgia, says:

Judge Lynch held court in Franklin
county today, and as a result the
ridiculous body of John Ware, a negro,
swings from the limb of a tree be-
tween here and Carnesville.

Ware was done to death by a mob
for fatally shooting C. Y. Daniel, a
son of General Daniel of Danville,
today. Young Daniel and the negro
had some words over a trivial matter.
It is said the negro became greatly en-
raged and, swearing no white man
could run over him, drew a pistol and
shot Daniel, the bullet inflicting a
wound that will prove fatal.

THE DAY AT ESOPUS.

Sheehan Was One of the Few Import-
ant Callers.

of acquittal today. The homicide oc-
curred March 18, 1903.

TO WINTER IN GREEK WATERS.

Athens, Sept. 18.—At a luncheon in
honor of the officers of the British
fleet, Admiral Dacelle, commander-in-
chief of the Mediterranean station, an-
nounced that the whole of the Medi-

shortly concentrated, and spend the
whole of the winter in Greek waters.

Fixed Price for Wives.

The ancient Germans, Russians, Bur-
mese, and other nations of Europe,
placed a fixed price on their wives, as
is proven by their old wedding songs.
Many of the old Russia wedding songs
refer to the purchase of wives. In
some parts of Russia the husband
pays a certain sum of money to the
bride's brother, after which the agree-
ment is made, and they sing: "The
brother has sold his sister for a
crown."

Tibetan Earth Dwellers.

Earth dwellers are common in Ti-
bet. Strangely clad men and women,
who since childhood have rarely
looked upon the sun, are found living
in roomy clay apartments in a mode
as stringent as any monastic order.
They are supplied with food and other
necessaries by their children, who
alone leave the caverns; and much
of their time is occupied in extending
their curious residences.

Black Absorbs Heat.

A French authority had two ther-
mometers—one of ordinary glass, the
other painted black—placed in the
sun. In the white glass the mercury
rose to 144. Under the black paint it
went up to 157 in the same position.
The inference is that people who
wear black coats are warmer in the
sunshine than those who dress in
white.

Advantages of the Angels.

A servant at Skibo castle, the resi-
dence in Scotland of Andrew Carnegie,
one day called Mr. Carnegie's daugh-
ter Margaret and asked her to bed
that night she said seriously:

"If I am an angel, why don't I have
wings?" adding "Perhaps I will have
when I get to heaven." After a
thoughtful pause she inquired:
"Nurse, do angels go to sleep?" The
attendant was unable to give the
required information concerning the
habits of angels.
