MACADAM ROAD FROM RED RIVER TO GULF

Dallas Takes the Lead and Solicits Co-operation of Other Counties Along the Line.

A Dallas special to the Galveston News says:

A macadam roadway from Red River to Galveston will soon be built if the plans of the county engineers' department of Dallas county and the Dallas Automobile Club are carried out. The proposed road will be a little more than four hundred miles in length and will pass through Grayson, Collin, Dallas, Ellis, Hill, McLennan, Falls, Robertson, Brazos, Grimes, Waller, Harris and Galveston counties.

Assistant County Engineer Cade has been in correspondence with members of the commissioners' courts in most of the counties through which the proposed road is to pass, and all from whom he has heard have expressed themselves as being favorable to the idea and have indicated a willingness to assist in building the road.

One hundred and fifty miles of the proposed road is already macadamized, but it will require the united efforts of all the counties to close up the gaps along the route. The road as proposed will be to take the most practicable direct route and pass through the county seats of the various counties.

Beginning at Red River, Grayson county reports that there is ten miles of good macadam along the proposed route, Collin county 5, Dallas 30, Ellis 15, Hill 10, McLennan 15, Falls 20, Waller 10, and from Houston to Galveston the road is already completed. Grimes, Robertson and Brazos counties have not yet been heard from, but all the others interested seem to favor the project.

Another route is also being considered, and whether or not the first one outlined will be the one chosen depends on the commissioners' courts of Robertson, Brazos and Grimes counties.

The other route being discussed is the same as the first one as far as Waco. From there it is proposed to go through Bell, Williamson, Travis, Hays, Comal and Bexar, then to Harris and Galveston. Some of the proponents favor the second route, stating that this route has many advan-

tages over the other from the fact that many more miles of the road are already built.

HANDICAPPED.

This is the Case with Many Bryan People.

Too many Bryan citizens are handicapped with a bad back. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest, and in the morning is stiff and lame. Plasters and liniments may give relief, but can not reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills help sick kidneys. The following statement should convince every Bryan reader of their efficiency.

Mrs. A. F. Thomas, of Navasota, Texas, says: "I am glad to recommend Doan's Kidney Pills, as they proved to be an excellent kidney remedy. I suffered for some time from a severe pain in my back. This caused me a great deal of misery and worry. I had heard so much of Doan's Kidney Pills that I procured a box and in a short time after I began using them, every symptom of my trouble disappeared. I gave a public statement recommending this remedy over a year ago, and I am now glad to say that I have had no recurrence of my former trouble."
