lead at a fair rate of interest and only lead that thing which the Government has given us—substantial profit made possible by security. There is no charity attached to what we do, no vanity or impudent parade. The very conscience in us points the way. Thousands of men, even now breathing their last in the American trenches in France, stand as a goal of honor against halfheartedness and impunctuality. By the grace of God, Nueces county will do its part, fully, quickly, without compromise or debate, as befits a community of freemen dedicated to a cause.

**TEXAS PRESS**

**Then and Now.**

A few months ago the Texas press was in a state of confusion. The press of that time, it is true, was able to present the facts from the Texas press of the present, but the Texas press of the present, it is true, was able to present the facts from the Texas press of the past.

**A CALL TO FREEMEN.**

Now, the Government comes to the people of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberation of the world may be prosecuted with ever increasing vigor to a victorious conclusion—Woodrow Wilson.

Money represents power to the utmost, which revolution of state power and institutions as well may try to overthrow. The Fourth Liberty Loan is ammunition, clothing, medicine, vessels to ply the seven seas. The Fourth Liberty Loan is the pledge of the man at home to the man in France, in Russia, in Italy, in whatever out-of-the-way corner of the globe there may be.

**Governor Points Out That 200,000 of Texas Are in Military Service and That These At Home Must Subscribe Generously to the Liberty Loan**

**APRISTON, Texas, Sept. 27.**—On the eve of the opening of the fourth liberty loan campaign, Governor Hobbs issues the following appeal to the loyal American men and women of Texas. "Approximately 200,000 men have gone from Texas into the various branches of the United States army and navy. These men must be fed and clothed and supplied with the necessary equipment for carrying forward to the front. They have volunteered themselves from their own homes. The work of maintaining an army of 200,000 men is a stupendous task and the cost is in proportion.

"As an individual, as a private or as a corporation or as a commission, you are in a position to contribute your share. This amount \$300,000,000 of this amount \$300,000,000 for equipment, \$300,000,000 for pay, \$300,000,000 for transportation and \$300,000,000 for other expenses. It is up to you to contribute your share."

**uffering Described As Torture Relieved by Black-Draught.**

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and left off until he weighed 110 lbs. in two weeks. He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture. I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."
