SPECIAL NOTICE

We regret to announce there will be an interruption of lighting service, and possibly street railway service, due to a serious break in the generating equipment at the power house.

The coils in one of the largest generators burned out yesterday and the cylinderhead of the largest engine blew off yesterday afternoon.

Other emergency equipment is down awaiting repair parts which were ordered four and five months ago. The delay is caused by war orders placed with Engine and Electrical Manufacturers from whom we depend upon for supplies.

No expense or effort is being considered towards the resumption of service. Under these circumstances we ask your indulgence.

Respectfully,
