INFLUENZA SITUATION SHOWS AN IMPROVEMENT

Fewer New Cases Were Reported Saturday Than During Any Day of the Past Week.

Material improvement in the influenza situation in Corpus Christi was shown by necessary reports covering the 24 hours ending Saturday afternoon at 5 o'clock, made in City Physician Ruffin.

Seventy-one new cases of influenza were reported, this being three cases less than the previous day and nine cases under the total for last Thursday. There are now 505 cases under treatment.

A decrease of ten pneumonia cases was reported, the total now standing 39 of the persons who have developed this malady.

Three deaths from influenza were reported, which included a negro boy, who died Friday morning, and a white woman and negro man, who died Saturday morning. Up to Friday noon, the total deaths from influenza since the beginning of the epidemic was 31. Two deaths from pneumonia were reported, making the total 41.

Dr. Ruffin stated that the situation was much improved over that of last week, and that the epidemic was on the wane.

It combines under all conditions, the highest engine efficiency with uniformly low operating cost.

The OAKLAND SENSIBLE SIX provides full family comfort inside its roomy body, fitted with comfortable upholstered seats and swung on long, slow acting springs.

It is our firm conviction that the Oakland does excel, by all odds, any car in its price class on the market—a conviction you may readily acquire by travelling even a short distance in an Oakland.

We will be very glad to serve you in the matter of information or demonstration of Oakland Cars.

—and with every Oakland we sell goes the factory guarantee for perfect performance for twelve months—a guarantee so broad that only an Oakland could live up to it. Other cars have but a 90-day guarantee.
