JOYOUS FUNERAL
The Habsburgs have gone to their doom. Long live democracy!

The German people are at one another's throats. God sharpen their weapons.

A thing feared in might has gone the way of might, and the hate without has become the hate within...

From end to end, Germany is torn with internal convulsions. It was inevitable that discord should rise against their masters...

The German theory was the theory of domination. Of the nations, Germany alone remained a tribe, bound together by the tribal instinct...

It was the promise of slaves to bear burdens. It was the promise of fair slim women for harness.

It was the promise of comrades extending to distant shores. It was the promise of power to those for transgression, of pride to excessive scruples.

And—The end has come. The announcement of the end is not a formality.

Sassy sermons delirium. Before defeat, the Huns were a people intoxicated with themselves. The most stupid thing they did, according to their light, was the best thing possible of accomplishment...

It is a hundred years, it may be, the world will open a way for Germany to redeem the hideous philosophy which she has thrown upon the face of the earth.

Not all Germans are disciples of von Bernhardi and his gang. Not all Germans try to be blamed equally. There was a greatness that was Germany, and a magic, and that greatness found its expression in the arts.

Not all Germans are murderers. But there is that principle of economy among men which visits the crime of one upon the shoulders of another, and it is going to take many a long day to forget—only a long day to forget! It is a privilege to think of it.

CLINCHES IT. Representative Paine declares that Article X is elected. So far, there is no better reason to believe that he is not.

Everything given Republican look at Darwin's? If you don't believe in German efficiency, watch that revolution.

Even so, President Wilson has a majority in one Democratic House—E. M.

Yesterday a friend told us that he had just killed nine ducks. U. P. We didn't see the ducks.

When it comes to making any sort of time permanent, we have time before last in the afternoon and this time in the morning.

ABOVEBOARD.

President Wilson has taken a stand against secret diplomacy. He believes that all men have a right to know the nature of agreements framed for them...

UP TO EVERYBODY.

There will be no permanent cessation of the political evil in South Texas until the people determine to exercise the power which belongs to them...

TREES.

Again the season of frost and thick weather sets in. There will be days of mist and hours far meditation. If Corpus Christi are provident, they will think a little of trees...

SUNDAY EXERCISE.

Peace will bring many burdens, and the greatest of these will be that of providing for war work after the war. It is not difficult to provide when the heart comprehends danger...

JUDGED BY THEIR CREED.

Germany's philosophy has been that of conquest. Conquest does not provide a program for defeat. Only a short while ago Count Yarek von Wartenburg observed...

UNSCATHED.

The United Press caused a vast disturbance with its premature announcement of peace. J. P. Morgan so far forgot himself as to pose two feet through a plate glass window...

PENMANSHIP.

When President Wilson announced the doctrine of self-determination, he did more to end the war than great armies. Austria-Hungary, lighted like a torch, is proof of it...

In a general way we are forced to admit that the gentlemen at Versailles did their work in a satisfactory manner, but it would be nothing short of hypocrisy upon our part to refrain from the observation that we believe that they should have made it a condition that Emperor Wilson erewhile pass through a Bramble patch infested with cooties.

DAY AND NIGHT.

Bolshevism is the antithesis of democracy, and its natural consequence. Unless the Allies police Germany, it will be Russia all over again. People stand things up to a given point, and then the whole fabric of government gives way...

PREPARE TO SHOUT.

When peace comes—and peace is just around the corner—avoid crowds. But yell a little and insist that the bolts ring and whistles blow. It would be entirely too unlike to chew a cud in silence when the world receives official notice.

COMING.

Much has been said of the "Big K." In a little while we shall speak of the matter. If we have hesitated, it has been natural. It is somewhat silly to raise issues with a chosen or a chosen. Besides, the people are not likely to believe a man below Carr.

Each may not rhyme with Bosch, but we just can't help thinking that he rhymes with kibosh.

Henry Ford will be remembered as the author of that immortal phrase, "Out of the trenches by Christmas."

Peace will have one conspicuous drawback: when we get sick we won't be able to blame it on a German spy.

Imagine how cultivated Germans must hate to approach the holidays without the privilege of killing a few babies.

It delights us to know that Emperor William is spending a considerable portion of his time in prayer. He admits that God is above him.

Charley Chaplin says that he would be foolish to say that he didn't enjoy being a public favorite. Foolish! That's exactly what makes him a public favorite.

R. W. Berry, "To tell a child that there is a Santa Claus that comes down a chimney is wrong." Tut, Bobbie! If Santa Claus can come down at all, a chimney is as good as an elevator.

Dr. Borchers, "Do not become sentimental; show a hard face to your enemies." About the hardest face we know is Emperor William's, but we doubt whether he will show it to his enemies.

Women Run America's Biggest Industry. War time finds women in greater need of labor saving equipment for the home than ever before in history. They need extra time for war work—for Red Cross, knitting, farming, raising war funds, 7,000,000 women are now engaged in war work. And they must do these extra tasks in addition to operating the kitchens—20,000,000 kitchens—America's biggest industry. That means that every housewife not only needs but deserves a kitchen cabinet. For this is the greatest labor saver a home can have. WHAT A GOVERNMENT BULLETIN SAYS: "A kitchen cabinet is just as important to the woman as the bench to the workman or the laboratory desk to the chemist. With it the housekeeper can sit down comfortably with her whole kitchen workshop within easy reach. It saves time walking to and fro to gather up this thing and that to prepare the food." HOOSIER LEADS ALL CABINETS: The Hoosier Kitchen Cabinet answers not only some of a woman's needs, but all. Eight of the world's greatest domestic science experts have pronounced this cabinet as convenient as science can make it. All your utensils, tools and equipment are centralized in one place—at your finger's end. You can prepare the meals without walking miles of steps, as hitherto. It saves the back-breaking labor that wears women out. Many women save an hour a day with the Hoosier. And more than a million women save work, time and health. ANY HOME CAN AFFORD IT: Hoosier is made in the largest kitchen cabinet factory in the world. Built as it is in enormous quantities, the cost is much lower than otherwise possible for a cabinet of supreme convenience, durability and beauty. And our guarantee is the broadest ever given—"Your money all back if you are not delighted!" We are authorized Hoosier store in Corpus Christi.
