All Restrictions Have Been Removed On Building

During the past few months the War Industry Board saw that it was necessary to the welfare of the country in the time of war to restrict in virtually every line, all building.

Although this ruling worked more or less of a hardship on the lumber industry in Corpus Christi, every dealer in lumber and building materials gladly complied. Now the ban on building has been lifted. Homes and buildings costing up to ten thousand dollars may be built without permit, while those from ten thousand to twenty-five thousand may be built on a state permit.

One of the most vital things during "after the war times" is the construction of homes. If you have been putting off building until a more opportune time—that time has now come and we stand ready to do whatever may be in our power to help the man who intends building or remodeling.
