PLANT COTTON, ONE SEED AT A TIME, WITH A LEDBETTER One Seed Corn and Corn Planter. Increase Your Yield, Reduce Your Labor, Save Seed.

It is the only planter made that can plant cotton, one seed at a time, a uniform distance apart, from a seed every inch to one every six inches. A bushel or more of seed to the acre or a peck or less, as you set it to plant. No bunches. No skips.

Every plant standing alone with growing room insures healthy, stocky growth and early maturity; rapid and easy chopping and plenty of time to chop.

There being no skips, insures a perfect stand. The corn planting device is as perfect as human ingenuity can make a machine, dropping positively a single grain every eight to thirty-six inches, as you set it to drop.

The same can be said for its planting Peas, Kaffir Corn, Milo Maize, Sorghum, Millet and other seeds.

It is the only planter made that brings all seed out in plain view—you see every seed as it comes from the hopper.

In point of construction the Ledbetter One Seed Planter meets every demand that could be made upon it.

The beam hitch, the team pulling directly on the plow, there is no strain on the frame and no neckweight on the team.

It can be held firmly on the row, and is guaranteed for ample strength when listing or re-listing.

It has special features for adjusting the plow, both sidewise and the pitch.

After seeing the work of a Ledbetter One Seed Planter, you will never be satisfied with any other kind.

Come in and let us show you this Planter.

B. W. FEHRENKAMP,
SHINER, TEXAS.

Moulton News.

Mrs. C. Wagner of Shiner was in the city the first part of the week visiting her daughter, Mrs. William J. Tomasco.

Frank Stahala of Yoakum and John Holubec of Hallettsville have accepted positions in the mercantile establishment of Rud. Jaeggli & Bro.

Wm. Green of Shiner, president of the First State bank of Moulton, was in the city Monday in attendance upon the monthly meeting of the directors of the bank.

Mr. and Mrs. William J. Tomasco left Wednesday for Shiner where they will reside in the future. They have a legion of friends here who wish them health, happiness and prosperity in their new home.—Eagle.

Wood Sawing.

Henry Rehling will be in Shiner on the 20th of each month to saw wood. Leave orders with B. W. Fehrenkamp or August Jaeger.

CHICKENS

WANTED!

We have hooked some large orders for chickens and poultry of all kinds, and if you have any to sell, bring them to us at once. Our prices will please you.

We are shipping now near two cars of eggs per week, and want all we can get at the highest market price.

Bring us your produce Your business always appreciated.

S. A. CARNES & SON,
The Cash Produce Buyers,
Shiner and Yoakum.

Boundary Line School.

March 8—As I have a few minutes off, will write down a number of happenings.

Misses Alma and Hetty Otto spent Sunday evening with Misses Giddy, Emma and Leona Cauthern.

Walter and Dela Stindt visited here last Sunday.

Allen McMurry of near Shiner was in this community Monday on business.

Wedding bells are to ring at Sweet Home. Guess who?

Mrs. S. A. McMurry and little son, Jim, visited the family of Mr. and Mrs. J. E. Cauthern Sunday.

Mrs. J. Lover and two kids were in this section Thursday buying cows.

Mrs. Emil Schroeder was shopping in Shiner Thursday.

Ask Herman and Louis Pagel how they enjoyed their ride Thursday night. Did the mule ever stop, boys? They were riding post haste at my last sight of them.

Mrs. Gauthern is recovering from a few days illness.

Bennie Blaschke of Shiner is visiting his cousin, Walter Stindt at present.

The exercises at our school Saturday, February 27, in honor of George Washington and Abraham Lincoln's

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examines the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand when become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly declining and low antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS; because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

You will find electrically welded hoops on the cream buckets and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by the modern, simple and marvelous process producing "THE WELD".

SEE, PARROT! LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee them.

Test the wires and not injured at the joints. They are welded in perfectly workable to cover around. They are welded and not separate from the strands. Test the fence in all ways in every condition.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.
