Powers Can't Understand Why Mr. Washington Got Mad.
HE SENDS ANOTHER TELEGRAM
Every Member of the Committee Constructed the Judge's First Message as an Insult—That is Why.HERALD BUREAU,
Cor. 15th and G Streets, N. W.,
WASHINGTON, D. C., March 10.
Judge Powers wants to know. He can't understand why Mr. Washington, the chairman of the House committee on territories, should have taken offense at his telegram day before yesterday, when he asserts, by implication, that Mr. Washington had garbled his speech before the committee. When Mr. Washington came to the capitol this morning he was handed a telegram from Judge Powers, which read as follows:
SALT LAKE CITY, Utah, March 9, 1892.
To Hon. J. E. Washington, Chairman House Committee on Territories, Washington:
I cannot understand your indignation at my inquiry, directing attention to the emancipation of my argument.
(Signed) O. W. Powers.Mr. Washington was justly indignant at the tone of Mr. Powers' first dispatch. Both he and every other member of the committee who read the dispatch cannot understand it. In the opinion of Judge Powers, the chairman of the committee had revised Powers' argument, and stricken out certain parts which Mr. Powers thought vital in the proper presentation of his objections to the Caine bill. In fact neither the chairman nor any member of the committee had ever seen Mr. Powers' manuscript or argument until after it was printed. The chairman on investigation became satisfied that which Judge Powers in his remarks as taken down by the stenographer alluded to the fact that he would read extracts from a speech which he had made on a previous date in Utah, and stated that he would afterwards file that speech with the stenographer, failed to file the pamphlet.
"No record of it," said Mr. Washington, "can be found here, and when a gentleman reads a speech before a committee, it is the custom of the stenographer to have a note of the fact that extracts were read and not taken down, but to receive the pamphlet afterwards, and cut from it such parts as are desired by the speaker to go in the remarks. It was Mr. Powers' duty to remain here to receive his manuscript from the stenographer, revise his remarks and insert any matter which he chose to extract from his speech, which did not reflect personally upon any one who would have no opportunity to reply before the committee. I feel satisfied that I made this statement to Judge Powers, as I did to every gentleman who addressed the committee on Utah matters, Oklahoma matters, and Utah matters affecting every other territory. So Mr. Washington's own manuscript and personal notes to the stenographer, which he personally revised it and corrected the same, then handed it to the clerk to be printed. I did not look over any remarks made by any speaker and did not handle in any way the manuscript reports of the same. I regret if the symmetry of Judge Powers' arguments was in any way marred, but I am absolutely blameless in the matter."
Mr. Washington says that under the circumstances he does not think it necessary to carry on any further correspondence with Mr. Powers over the wires, and that is the last the judge will hear from him.
The Tiotic Railroad War.
SALT LAKE CITY, Utah, March 10.—[Special telegram to THE HERALD.]—There is great excitement over the railroad war. SARAH ALTHEA HILL
She is Adjudged Insane and Sent to Stockton.
SAN FRANCISCO, March 10.—Mrs. Sarah Althea Hill, who was today adjudged insane and committed to the state asylum at Stockton. The proceeding were conducted before Judge Levy, who held court today in the larger room, but even these enlarged quarters were crowded with spectators, including many prominent citizens. Mrs. Terry, however, did not seem surprised or nervous at the sight of the large number of people, but when court opened she began weeping. "Mammy" Pleasant, Mrs. Terry's colored nurse, was the first witness examined by the commissioner. She related various instances recently occurring to indicate Mrs. Terry's insanity. "She is constantly talking about the fire at Stockton, and about breaking into the quarters house," said Pleasant, "and I am afraid she may harm herself or others."
Mrs. Terry here rose and asked permission to question witnesses, which the court finally granted. She then put a long series of interrogations to the witness which covered the facts of the case, and her mental trouble from the time when her husband was killed, to the time she finally left "Mammy" Pleasant's home. These, or similar questions were put to other witnesses. Mrs. Terry sometimes displaying considerable clearness and humor, and at other times wandering in her questioning or breaking into hysterical laughter. Mrs. Terry was also placed upon the stand, but she talked incoherently, and after another witness had testified to instances where Mrs. Terry had displayed irrational symptoms, the court ostensibly adjourned until 2 p.m. In the meantime, however, a order committing her to the Stockton asylum was signed by Judge Levy, who was quietly to health in a few months, but her friends express fear she will never recover her mind.

An Interview to-night ex-Senator Knick raises the point that under existing laws and treaties, Hetherington cannot be tried at all, and that if an attempt be made to arraign him in justice he would be discharged through habeas corpus proceedings in the United States supreme court.

THE BIG BLIZZARD
Great Destruction of Property in Omaha.
VICTIMS OF THE DAKOTA STORM
Men and Animals Frozen to Death—Looking for Lost School Children—Trains Are Blocked.
OMAHA, Neb., March 10.—[Special telegram to THE HERALD.]—The blizzard and windstorm prevailing during the last twenty-four hours is the most remarkable in the history of the west. The gale attained a velocity of 100 miles per hour and was continuous. The damage in the towns of the state is enormous. It cannot be estimated in the country districts, and there has been no communication during that time. All day pedestrians in Omaha were kept dodging signs and fragments of roof which had been loosened by the wind and were blown about the streets. A high chimney at the new St. Joseph's hospital was blown down and crashed through the slate roof, doing considerable damage. Several of the ornaments on the turret of Trinity church (Catholic) were torn loose and small buildings were overturned and victims in the streets were blown in every direction. J. R. Porter, a prominent merchant, was blown into the street, and damaged by the storm. He was nearly blown away, but was caught by a passerby and taken to safety. For nearly twenty-four hours there was trouble in the streets. The wind was blowing the day and almost constantly laid right loose and broken wires were coming in contact with the live wires, and the best of the city were cut off. The horses were driven nearly wild by the excitement and constant ringing of the bells. The windstorm played havoc with the wires of the Western Union Telegraph company. Shortly after midnight a gust struck the poles just east of the Union Pacific bridge and snapped six poles, tangling up the wires in an inextricable confusion. Some of the wires were broken and those that were not cut, grounded to the ground, and were of some use. A gang of Western Union men in the city this morning and a force of twenty-five men were working to repair the wires, but they were unable to get on the ground bank of the river. Owing to the high wind, the men could not work but cross arms were placed on the broken streets, and men were kept in operation between the wires. Up to that time a relay messenger service was kept in operation between the city and the West. The wires were severed at several places, and the business was in this way interrupted.
