THE SALT LAKE HERALD celebrated its twentieth anniversary on Thursday. THE HERALD is one of the newsiest and most metropolitan journals west of the Mississippi river and is putting in some great licks for Salt Lake and Utah.—Burlington (Iowa) *Gazette*.

WE wonder why Salt Lake's crack team has never issued an invitation to the Nephi Athletics. Our team has defeated the Utah Central railway nine from Salt Lake, the Provo Alerts Spanish Fork Grays, Payson's nine three times in succession, and an All Sanpete nine representing six cities. During this time they have only suffered one defeat, which was given them by the Payson nine early this spring when the Athletics had but six of their regular players in the field. We understand that our boys are very anxious to shy their castors into the Salt Lake diamond, and would accept an invitation from the Nationals, should those royal kids see fit to acknowledge the claims of our plucky Athletics. As evidence that our boys, as a base ball team, are worthy of notice by the Nationals, we might cite the result of their game with the Utah Central and Provo nines. In the former game the eleventh inning decided the score of 6 to 7 in favor of the Athletics, while the latter score stood 5 to 7 with but eight innings for our winning home team. Payson went under at 7 to 3, Spanish Fork at 23 to 13, and All Sanpete at 23 to 4.—*Nephi Ensign*.

OH, ALF! HOW COULD YOU!

It is amusing to note how THE HERALD correspondent complains about the *Times* correspondent getting his Park City items mixed up. It is a case of sour grapes and pot calling kettle black with THE HERALD man, and it all goes to show the utter failure of the Salt Lake papers to give the news of Park City correctly.—*Record*. Wow!

COUNTY OFFICIALS' SALARIES.

Mathew White Makes a Very Reasonable Request, and a Commendable Offer—The County Infirmary.

The county court held a very interesting session yesterday.

The petition of the West Side Rapid Transit company was referred to the court as a committee of the whole.

THEIR SALARIES FIXED.

G. W. Baitch, chairman of the committee of the whole, reported that the committee had decided to fix the salary of the collector at $6,500, and the accessor at the same. This includes all assistants.

FRANCHISES GRANTED.

G. W. Baitch, chairman of the committee on petition for franchises for street railroads, reported that the committee were in favor of granting the franchise asked for by James C. Mees and others on the State road, providing they build the first two miles within the next nine months, and the balance of the road to the smelters within eighteen months from the acceptance of the franchise.

He also reported in favor of granting to C. E. Wantland and others a franchise on Eleventh East street to a point two miles south of the city limits; also, extending on the county road from Eleventh East to the penitentiary.

The petition of C. E. Wantland and others was granted, with the understanding that said parties commence building their road within ninety days from acceptance of franchise and complete the same to the county road running east and west past the penitentiary within one year, and to complete the entire distance within three years. The county attorney was instructed to prepare a franchise to that effect.

SPRINKLING THE DRIVE.

Selectman Smith reported having entered into an agreement with the representative of the city in regard to sprinkling the drive and that another sprinkling cart would be needed, which could be bought for $100. Its purchase was authorized.

The matron of the county infirmary was authorized to employ a boy named Larsen, at a salary of $25 per month.

THE ACCEPTANCE FILED.

The acceptance of the franchise by the Salt Lake Rapid Transit company was ordered filed among the papers of the court.

BONDS APPROVED.

The bond of L. G. Hardy, collector of Salt Lake county, in the sum of $130,000 was approved. The bond of L. G. Hardy, collector to the territory, in the sum of $130,000 was also received and approved. The bond of L. G. Hardy, collector of special school taxes, in the sum of $60,000 was approved.

THE FENCE MUST GO.

John Sutherland, road supervisor for district No. 5, reported that Mrs. Christian Christensen's fence, was in the county road. The fence was ordered to be removed within thirty days.

MATTHEW WHITE WANTS A ROAD.

Matthew White presented the following communication, which was received and filed for further consideration: "As the owner of a large tract of land on the shore of the Great Salt lake, I most respectfully petition your board to open and construct a public highway from the city limits to the Great Salt lake. If the highway was made from a continuance of the turnpike that crosses the bridge at North Temple street, the distance from the city limits to the lake would be but ten miles, and the route is perfectly feasible and can be made at an expense comparatively small. I will make a road on my property, two and a half miles in length, joining the road to Black Rock and Garfield beach, thus giving the residents of Tooele county the best and most direct road to the city. There is no part of the county so little improved as that directly west from the temple and the base line is the point on the lake nearest this city. I should be pleased to confer with you personally."

HAD FURNISHED THE TIES.

David Proctor reported that, in accordance with contract, he had furnished the county with 500 bridge ties.

THE COUNTY INFIRMARY.

The superintendent of the county infirmary presented a report of his expenditures for March, showing a balance on hand March 1 of $14.60. During the month he had received from the county clerk $1,750, and had expended $1,742.16, leaving a balance on hand of $22.44.

Adjourned to June 19.

AN OPIUM JOINT RAIDED.

A Celestial who was Doing a Remarkably Good Business.

Some time ago Marshal Young learned that an opium joint was running in full blast in a cellar under Malquist's blacksmith shop, back of Commercial street, and since then he has been watching the place. Early yesterday morning the officers raided the joint and arrested the keeper, Si Kee, and a white man who was hitting the pipe. The marshal took along with him a complete opium outfit, consisting of several tin boxes filled with opium, an armful of pipes, together with lamps, etc. The place was not fitted up in a very palatial manner, but it was evident that Si Kee had been doing a good business. The room is a small one and is provided with two bunks for smokers, each of which will accommodate four or five persons. A door in the east side was reached by rickety ladder, but this mode of ingress did not appear to have been much used, and the marshal came to the conclusion that there must be another entrance somewhere. An examination proved that such was the case. In one corner of the room, behind a cloth partition, was a post that extended up to the blacksmith shop, and all that Si Kee's patron's had to do was to enter the blacksmith shop through a window, lift up a board near the post and slide down into the joint.

Li Kee appeared in the police court in the afternoon and Jim Ling was secured as interpreter, and the trial was set for to-morrow.

"THE INDISCREET YOUNG MAN."

Joseph Shaw, the indiscreet young man who recently forged Charles Crane's name to a check on Wells, Fargo & Co.'s bank, was examined in the afternoon and bound over in the sum of $1,500 to await the action of the grand jury. He was unable to give bonds and went back to jail.

"CHARLES, THE PEEPER."

Charles Jensen was arrested on Monday night for peeping into a dressing room at the opera house. He left $20 to secure his appearance for trial, but when the case was called he failed to materialize and the amount was forfeited.

OTHER BUSINESS.

Chris Lund, William Warren, Joe Gross, John Smithers, Sam Smithers, Walter White, Mike Welch, Ed Stokes and Pat Duffie were fined $5 each for drunkenness.

John Past pleaded guilty to the charge of assault and battery and was assessed $10.

In the Supreme Court.

In the supreme court yesterday the case of J. J. Saunders vs the Sioux City Nursery company, involving a small amount, was argued and submitted.

The court meets again at 10 this morning.

In the Probate Court.

A Verdict of Not Guilty.

BLACKFOOT, Idaho, June 7, 1890.—[Correspondence of THE HERALD.]—One of the most interesting cases of the term was tried to-day and clearly won by the defense. The United States this morning called for William Skinner on a charge of adultery. The defendant, who was represented by Hawley & Reeves and S. J. Rich, reported readiness. This was a case in which the public and more particularly the marshals were deeply interested, and were bound, judging by their threats, to convict. The case occupied the entire day and at about 6 o'clock to-night the jury rendered a verdict of not guilty. William Skinner is foreman of the ranch of the Blackfoot Stock company, near Soda Springs. IDAHOAN.

THE DELTA PHI SOCIETY.

The Last Meeting for the School Year of 1889-90—The Resolutions.

According to prior arrangement and agreement the Delta Phi society of the University of Deseret held its last meeting for the school year of 1889-90 Monday evening. There was a special programme arranged for the occasion, in which a variety of subjects were treated. There were songs, recitations, essays and speeches.

Among the most important was an essay of "Books," by George A. Seaman, which was given in an able manner.

The valedictorian, Mr. Orvis Call, of Willard, Box Elder county, who emerges from the university with his "doe-skin," did himself a goodly act by following up the treatise on "Books" by Mr. Seaman by an explanation of "How to Study."

P. P. Christenson, of Newton, Cache county, and president of the society, also a graduate of this year, made a pleasing impression upon those present in his short, farewell address. At this juncture it was announced that the programme was ended, whereupon B. T. Lloyd rose and stated that he thought it nothing more than right and he deemed it the duty of the society to show respect to a former member who had lately been called to the other shore and he had a resolution which he wished to introduce. The resolution was received with open arms and is as follows:

Whereas, Thomas William Thompson, of Smithfield, Cache county, and Utah territory, has but a short time since departed this life; therefore

Be it resolved, By the Delta Phi society of the University of Deseret, that we as members join the wife, mother, brothers, sisters, relatives and friends of said deceased in the deep sensibility of the family and public bereavement in the loss of such a favored one; and,

Be it resolved, That by this token of respect it be known by the wife, family and friends of said deceased, and all whom it may concern, that this society feels the deep melancholy in the loss of such a member and friend to the public, and

Be it known, That we always recognized him as an able and just member and on all occasions and everywhere a cheerer of the downcast and a defender of the oppressed, and

Be it further resolved, That the president of this society be requested to transmit a copy of these resolutions, forthwith, to Mrs. Mary O. Thompson, the wife, and a copy to Mrs. Elizabeth Raymond, the mother of said deceased, at Smithfield, Cache county, Utah territory, and assure them of the profound sympathy of this society for their deep personal affliction and its sincere condolence for their late family bereavement.

There was some time left and the hour not late, so persons were called upon to speak who had not been on the programme. The first was B. T. Lloyd, who stepped forward with much surprise, but delivered one of his usual and characteristic speeches. He commenced by repeating the following timely and appropriate sentiment: "Reading may make a full man, writing a correct one, but it is speaking alone that maketh a ready man." He then commented on this and passed on, referring to the duties of the young men of the nation in the responsibilities they would, in time, have to bear, and the necessity of their preparing themselves in government, and especially in that government which believes in the most good to the greatest number, and "all unnecessary taxation is unjust taxation," "and that government is the representative of the will of the people and acts for the whole society." So, accordingly, it would be necessary for the young men of the land to take up one of the national political banners, but in so doing, move with caution and precision. He said there were parties adverse to each other in our own dear land, and in choosing he advised his hearers to be sure to choose the American and constitutional party. That is the party of Jefferson, Jackson and Cleveland. The adverse party to this is the un-American or Republican party, which is a cancer of about thirty years' growth and seated in the vital part of our nation, that it requires great and experienced political skill to extract and sweep clean such an old, odious and infamous root of political growth, but it will be done, and will be done by the Democratic party using Grover Cleveland as its political surgeon, and he wielding the knife of free trade and ballot reform. [Loud applause.]

NO MONEY OR NOTES

Dr. Hand, the great medical electrician at 258 South West Temple street, is the poor man's friend. He will treat you one, two, three, four, five or six months, and does not ask you to pay him a cent for his services until after you are cured, neither does he ask you to sign any notes. No cure—no pay. Remember, Dr. Hand has means to live on a few years without having his patients to advance him means to buy his bread and butter. Dr. Hand is treating over 500 patients in Utah, and can treat as many more, provided they apply at once. Go see the great specialist—go now, don't wait. *

WEST TEMPLE BOOM.

Three Immense Buildings to be Erected.

495 FEET OF STONE FRONTS.

Contracts for Excavating the Dooly Block Cellar and the Kelsey & Gillespie Block Closed Yesterday.

The West Temple building boom has been hanging fire pending the decision of the postoffice department to accept the Dooly proposition.

Mr. Dooly has had sufficient assurances that his proposition would be accepted and that the matter will not be further delayed more than a day or two.

The West Temple people are greatly elated over their victory, though Judge Powers said very coolly that they were too strong for the east-siders from the start. The judge is an adept at pulling wires and he well knows that the political pull is worth forty tons of argument. "But we have the population on the west side too," said the judge to THE HERALD reporter yesterday. "When the census was taken last year it showed forty-five more votes on the west side, dividing the city on Main street, and the vote was so nearly balanced that you couldn't tell which had the best of it."

However, as to this the west side has every assurance that the postoffice will come their way; they are going ahead with their building schemes in dead earnest.

Yesterday J. J. Dooly closed a contract with Ellis Evans & Co. to excavate the cellar of his new building at the southwest corner of West Temple and Second South. The building will be 95x165 feet, and six stories high, with stone fronts on West Temple and Second South street. This, in all probability, will be the location of the new postoffice for the next five years, or until the new government building is located.

Kelsey & Gillespie also entered into a contract with the same parties to excavate the cellar for their new business block which has already been described in these columns. It will cover 165x93.

The great Ontario cellar that is two and a half times larger than any excavation yet made in this city, has been contracted for, and the work will be pushed forward as rapidly as possible.

Real Estate Exchange.

Thirty members were present at the real estate exchange yesterday morning, and there were more offers and wants than for some time past.

Among the persons who put in wants were E. V. Fohlin, Tousey & de Ricqles, and W. H. Lett.

Offers were made by J. W. Whitehead and E. V. Fohlin, who offered $3,000 on good improved property at 10 per cent.

Secretary Montgomery received a good plump morning's mail containing many inquiries, which keeps him busy answering. There was a general demand for copies of the illustrated pamphlet.

Stansbury Beach.

It has often been said that as soon as one bathing beach is made a success a half-dozen others will spring into popularity. The notion that only a few feet of the great salt sea was intended for use is one of the fallacies that is being rapidly exploded.

Stansbury beach is located in the Tooele valley on the south shore, about twenty-five miles from this city, and will soon be reached over the Wyoming, Salt Lake & California railroad in less time than it now takes to go to Garfield. The view from this point is said to be more charming than from any place on the shore, and the sandy beach and fresh water lake near by makes it a desirable place for a large hotel and cottages. Charles S. Desky & Co., have taken this resort in hand, which insures that it will be made a delightfully attractive place to pass the hot season.

More Indians for the Fourth.

Secretary Montgomery wrote to S. G. Fisher, agent of the Shoshone and Bannock Indians, located at Ross' Fork, Idaho, who go around the country during the summer months, giving exhibitions of the sun and war dances, and received a favorable reply to their coming here on the Fourth of July. They carry their teepes with them, and will be a great card. The matter has been turned over to the Fourth of July committee.

Quartz Yielding $300,000 a Ton.

"There is a specimen of ore, the mine from which it was taken bought its owner into the United States Senate, and another strike of the same kind is likely to send him back," said F. C. Stebbins, as he handed THE HERALD reporter a piece of brown quartz cut with a seam of gold the thickness of a lead pencil. It was a specimen which ex-Senator Tom Brown, of Nevada, presented him some six years ago, taken from the Little Annie, and good for $300,000 a ton. A new strike of similar ore has been made in the Golconda.

THE STOCK EXCHANGE.

The Salt Lake Construction Company.

The above-named company recently organized in this city filed articles of incorporation with Clerk Cutler yesterday. They provide that the name shall be as given above, and state the object of the company to be the contracting for, supplying and executing the work of plumbing, gas fitting, steam and hot water heating, putting up elevators, fire escapes and other machinery.

Salt Lake is named as the principal place of business of the company, although there is a provision that branch establishments may be established elsewhere by the board of directors, each of which establishments shall be designated and known as the Salt Lake Construction company.

The capital stock is placed at $50,000, with shares of the par value of $10 each, and the life of the company is fifty years.

The following are the stockholders:

Name.	Shares.
L. S. Austin	4
John R. Burns	35
H. C. Goodspeed	1
C. S. Pomeroy	50
J. A. Kirby	1
J. S. Morse	1

The treasury stock held and to be sold for increased business capital amounts to 4,343 shares. L. S. Austin is president and manager, and John R. Burns secretary.

The Salt Lake Abstract Company.

The members of the Salt Lake City Abstract company held a meeting yesterday and perfected their organization by electing the following officers: J. T. Springer, president; A. L. Atterberry, vice-president; C. L. Crane, secretary; J. H. Bacon, treasurer; Thomas Homer, manager. These gentlemen, with L. F. Kullak and Harvey Hardy, form the board of directors. The company is capitalized at $100,000, and will be ready for business in a few days. The office will probably be in the opera house building.

Real Estate and Business Notes.

The Pacific Tea and Coffee company have filed their articles of incorporation with Clerk Cutler.

Joseph R. Murdock, says the *Wasatch Wave*, sold twenty acres of land near Charleston last Saturday to T. K. Pearson, of Salt Lake, for $1,500.

The Walker Bros. are going to make a big effort to get the new government building located at the southeast corner of Main and Third South streets.

There will be a special meeting of the exchange on Friday evening at 8 o'clock to determine what method of advertising to prepare to mail in response to the numerous letters of inquiry now being received.

FOURTH OF JULY.

Want to Secure the Tabernacle For the Oration.

THE CHORUS TO BE INVITED.

Ten of the Trades Unions Have Concluded To Participate in the Great Pageant.

The Fourth of July committee met at the chamber of commerce rooms last evening and held an important meeting.

Mr. Lawrence suggested that the mandolin club would prove a very attractive feature in the parade. Chairman on music, Mr. Obendorfer, said the matter had been discussed, but they came to the conclusion that their music, while delightful in a hall, could not be heard to advantage during the noise of the parade. It was decided to increase the appropriation on music sufficiently to secure the Park City band.

Judge Colborn said: "We have one of the grandest halls in Salt Lake there is in the world. I think it can be had if the real estate exchange, mining exchange and chamber of commerce unite in the request. I move that we combine all our forces and that we ask for the church, as we would accomplish a double purpose in increasing the pleasure of the auditor and the power of the speaker. If the tabernacle could be secured they would listen much more attentively and the speaker would not be talking against the elements."

At secretary Gillespie's suggestion a committee of three, to act with similar committees from the real estate exchange and the mining exchange, was appointed.

Mr. Lawrence reported that they had sent out some 150 invitations to the various societies to participate in the parade.

Colonel Page said that they had about concluded a programme that while well adapted to the celebration if held at Liberty park, yet would not be proper for a meeting held at the tabernacle.

Judge Colborn suggested that the Indians should be brought to this city through one of the canons and move up one of the principal streets to Liberty park at noon on Friday and that in the evening a sun and war dance be held. Referred to the committee on programme.

Judge Colborn suggested that a concert by the choral society would be a great card. Prof. Stephens said he had not the slightest idea whether they would tender their services either gratuitous or for a consideration.

Judge Colborn said that he understood that in the face of the vote instructing the committee to employ an outside speaker, the committee had disregarded the wishes of the meeting and the sentiment of the city in employing a home speaker. Col. Page explained that no speaker had yet been invited and that the popular sentiment would be respected.

Mr. Sleater reported that ten of the federated trades had met and appointed members to represent them on the Fourth of July committees.

President Simon assigned them as follows: Cigar Makers' union, Mark Cohen, programme and parade; Stenographers, A. M. Merwin, advertising; Lathers' union, W. H. Sharkey, music, Tallors, John Meurhoffer, invitation and reception; Brewers' union, Alfred Edmunds, programme and parade; Hod carriers, John Ryan, refreshments; Carpenters' union, James Devine, executive committee.

W. F. Colton, Ed. Kimball and Tom Carter were added to the finance committee.

DON'T FEEL WELL

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you out of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours. 51

Epoch

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of the Kidneys, Liver or Stomach, of long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c. and $1 per bottle at A. C. Smith & Co.'s drug store. 3

MUST BEGIN BEFORE AUGUST.

All afflicted persons who intend employing treatment of Dr. Hand, the great medical electrician, must begin before August 1, as Dr. Hand expects to leave Salt Lake in November to spend the winter south, and as he wishes to cure all of his patients before he leaves here, they must begin at once and give the doctor time to effect a cure of their disease before he goes away. It requires from two to five months to cure chronic diseases. *
