A NOTEWORTHY EXCEPTION.

From the Kinball (S. D.) Graphic. While the columns of the Graphic are open to any and all unobjectionable advertisements, yet it is quite impossible for us to speak in detail of the merits of the various articles of merchandise advertised. Particularly is this true of patent medicines. But there are exceptions occasionally, and a noteworthy exception is the celebrated Chamberlain's Cough Remedy. This now universally known medicine has been advertised in the Graphic for four or five years but not until recently had we any personal knowledge of its wonderful efficacy which has come about through the prevailing influenza and the stubborn cough that has so often attended it. In the writer's family this medicine has on several occasions this winter cured a cough that baffled any and all other remedies; and the number of families in Utah who speak in praise of its merits can be ascertained by a perusal of the columns of its value as a specific for coughs and colds of every nature. For sale by Z. C. M. L. drug department.
