OF VITAL IMPORTANCE.

The Herald earnestly suggests to the Democrats of Utah the urgent necessity of nominating competent men for judges in the respective judicial districts. This is vitally important in all the conventions.

There are some things to be carefully avoided at the conventions. Do not select men for judges out of mere personal regard. Do not choose them to pay political debts.

It is true that appeals may be taken to the supreme court. But they involve expense, delay and protracted trouble and litigation.

The vast interests involved in the class of cases likely to come before the district courts call for the best talent in the judges.

Men who have had little or no legal practice and who are unfamiliar with court procedure ought not to be placed in these important positions.

Put up the best men for judges; that is honorable, reliable, able, experienced lawyers who can be depended upon to do right.

A few days ago the Tribune undertook at length to criticize Judge Powers' speech as chairman of the Ogden convention and during the course of the article asserted that "Hamilton was the gentleman who made the silver dollar the unit of value."

Hamilton favored gold. A few days ago the Tribune undertook at length to criticize Judge Powers' speech as chairman of the Ogden convention and during the course of the article asserted that "Hamilton was the gentleman who made the silver dollar the unit of value."

THE JUDICIAL TICKET. The weakness of the Republican judicial ticket is the topic of the town. The mistake in the nominations for the Supreme bench was apparent

enough. But the blunders in the selections for district judges in this judicial district is simply appalling to Republicans, while it is really astonishing to Democrats.

Propositions have been made by some decent Republicans for what they call a non-partisan judicial ticket.

That good sound-money Republican paper, the Boston Journal, says: "That the Utah Democracy is unanimous for 16 to 1 free coinage goes without saying."

THE OMAHA BEE says: "Receipts of cattle during August were greatly in excess of those of August a year ago, while the prospect is that 1896 will be the greatest year in the history of the South Omaha market."

ALEXANDER HAMILTON in 1792, in his report as Secretary of the Treasury, said, speaking of gold and silver as money metals, "perhaps if either were to be preferred, it ought to be gold rather than silver."

EDMUNDS LAW IN INDIANA. The case of the Indiana attorney who lived with his second wife one month lacking a day and then obtained a divorce and remarried his first wife.

WOMEN VOTING IN UTAH. This latest decision of the courts in Utah denies the right of women to vote in the coming election of state officers.

WORK OF THE OGDEN CONVENTION. The Utah Democrats have not suffered the grass to grow under their feet since the admission of the state into the Union has given them the right to put a state ticket into the field.

UTAH AND THE SENATE. The Democratic convention in Utah, in addition to nominating candidates for the supreme court and for representative in Congress, designated two men as candidates for the United States Senate.

MORMON WOMEN. The Boston Journal of September 7, contains the following fling at the women of Utah: "That decision of the Utah supreme court that women cannot legally vote in the coming election is a bitter Democratic disappointment."

"ALL THE PROTECTION THEY WANT."

The Protective Tariff League has been sending out circulars to manufacturers asking their views as to the working of the present tariff, all of course, with the purpose of getting evidence against it.

"Gentlemen: In answer to your circular and cards, we will say we are paying the same price to the same amount of hands that we did in 1890— that is, in dollars and cents—and at the same time our hands are buying 40 per cent more with the same money than they did in 1890."

"WE HAVE ALL THE PROTECTION WE WANT IN FREE WOOLLEN MILLS." THE DOE RIVER WOOLLEN MILLS.
