PERSONAL.

William Brothers, the wide-awake proprietor of the Utah drug store, of Park City, will leave this morning for Cripple Creek, Colorado, to inform himself as to the condition and resources of the famed camp. After looking the field over and any opening presenting itself in a business way it is his brother's intention to close out his business here and open up a first class drug store there. The best wishes of a large circle of friends attend him on his observation tour.

Robert Brogeman, the proprietor of Park City's Palace restaurant, will leave this morning for Cripple Creek, Colorado, to look over the business field of that great camp. Mr. Brogeman will be Mr. Brogeman's traveling companion and like him in quest of a wider sphere of business. After looking the field over and any opening presenting itself in a business way it is his brother's intention to close out his business here and open up a first class drug store there. The best wishes of a large circle of friends attend him on his observation tour.

Mark Jeff, the well-known merchant of Heber, came to Park City yesterday and took the afternoon train for Salt Lake on business.

Another Mystery.

The Boise Statesman has discovered another mysterious surveying party somewhere in the mountains, headed for Boise, of course, while the Caldwell Record is getting ready to spring something new on the public just as soon as Manager Stone gets a word ready to set up certain mysterious information which he is supposed to possess. Payette's Emmett branch is only waiting for the blue-birds to come—Payette Independent.

A. P. A. Paper.

Beginning today the Genesee Independent will appear under the name of the Idaho A. P. A. Sentinel and represent the A. P. A. in Idaho. In politics the Sentinel will be a party supporter of the representatives of the A. P. A. first and then the best candidates in the other parties. The Independent was launched as a Populist sheet six months ago, by the editor, who has evidently repented of his folly or found that newspapers are not supported very extensively by the followers of aboriginal ideas—Moscow Mirror.

Tobacco in Idaho.

A move is on foot to give the cultivation of tobacco a test in this state during the coming summer. There is no good reason why we should not produce good tobacco in other states as far north as Idaho raises an excellent quality of the weed. It is our favorable climate and rich soil, watered by irrigation, can produce fruits and vegetables in their highest perfection. Why should it not also produce the best grades of tobacco?—Lemhi Republic.

DRIGGS (In Teton Basin).

26.-We had a heavy rain storm on the 25th, lasting several hours and decreasing the snow to about eight inches. The health of the people was never better; the weather so far has been fairly good for this time of the year. Constable Manning and his deputy came over from Jackson's Hole Monday on their way to the north.

George W. Bush, a resident of this place, left for Cripple Creek, Colo., on a six weeks' business trip.

Mr. Seymour returned from Omaha the other day. He took three car loads of steers back. He reports having got a good price for them.

The saloon building near the post-office was broken into the other night. A few bottles of whisky were stolen, but the money drawer was not touched.

The people here, especially those who came from Utah, were quite interested in Grover's proclamation admitting Utah as a state. We wish the new star a success. May she glitter above the rest.

A government townsite has been laid out ten miles from this point, and a new postoffice has been established, the name of which is Victor. A store and dancing hall has been erected and the new town is taking quite a boom.

A character dress ball was given last Friday evening. The couples were in attendance, very rational and well represented and the costumes were very nice for this country. Mr. Jones gives a masquerade ball the 1st of the month. Driggs is the business center of Teton basin, and is destined to become a flourishing settlement. The natural advantages which surround it are numerous. In 1861 Forts were built in the region. We have a good system of schools and they are all in a flourishing condition. The people are most all from Utah and are up to the times in advancement.

A large social hall is in course of

erection here, which will accommodate the fast increasing population, and will be much appreciated by the people. A chat with Messrs. Driggs and Kimball discloses the fact that they have sold out the property in the vicinity of a pair of common sense bobbleheads, which goes to show that the people are not all bores.

Lines From Lander.

LANDER, Wyo., Jan. 20.-P. P. Dickerson left on Friday's coach for Camp Kerwin. He has some mining property there which he expects to dispose of this trip.

Born to Mr. and Mrs. Ed Pope, a daughter, last Monday, January 15.

The colored ministers of Ft. Washakie gave another show at Woodruff's hall, Lander, Saturday evening, January 18. The show was good but attendance poor.

The last dance of the O. M. P. club for the season was given last Wednesday evening. The members were present and nothing but the latest dances were indulged in.

Dr. Wallace organized a dancing school in Coalter's hall last Thursday evening.

There are one hundred and twenty-five names on the roll of honor of Lander public schools for the month of January. Our schools, under the management of Professor R. M. Little, are doing some excellent work.

James Brown, the man who W. T. Davis shot while assisting Marshal Crowley to assist him in his cabin, was tried before Police Justice Farlow last Thursday afternoon on a charge of instigating and taking part in a riot at the time the officers arrested him. The evidence was a little mixed and the defendant was discharged.

Last Tuesday Andrew Bowman, an old timer residing on North Fork, went crazy. He had an idea he was going to be shot by the soldiers who had property to relatives. To avoid this he set fire to his stable haystacks and outbuildings. His neighbors seeing the flames came out to assist in putting out the fire, but Bowman armed with a Winchester rifle and would not allow any one to do anything. When they had been there a while he turned around and shot above zero, a most welcome change.

OGDEN DEPARTMENT

Ogden, January 24.

SENATOR ALLISON, OF WEBER.

Senator Allison of this county is not pursuing the course that his friends here in Ogden—had hoped that he would follow. By nature he is entirely too sincere a man to be engaged in the manufacture of "buncombe" even for the party of his choice; and, of course, no one will for a moment accuse him of trying to gain personal notoriety by other means than that which comes to all men as the result of a duty well done.

It is feared that he has allowed some of his friends to impose upon him, and that he would have been a good deal precluded the introduction of some of his recent resolutions and memorials with the words "by request."

Subjects of grave import closely allied to the interests of the people of Utah and of this county can be found that are by far more in keeping with the duties of a Utah legislator than the duties of a certain amount of confidence and esteem of Democrats, and that all hope that he will distinguish himself as a legislator rather than a vain glorious politician.

NOW FOR THE PIPING.

Mr. Miller, the manager for Mr. Allen, a Denver contractor, came to Ogden Wednesday night and yesterday went upon the canyon in company with Perkins to look over the ground and prepare for the laying of pipe. Evidently things were found in readiness, for a brief stay was made at the camp. On their return Mr. Miller went at once to the office of the Board of Public Works and left an order for lumber to be sawed in proper lengths for sills and other framework for the pipe. When the Board met yesterday to place the order, the order was placed on the humming through the lumber, cutting it into proper lengths. This will be taken up the canyon tomorrow and the laying of pipe will be commenced. The order left with the Eccles Lumber company for lumber enough to lay only forty-eight feet of pipe.

CASTLEGATE CHIPS.

A Change in Foremanship—Other Rumors—Court Notes—Heavy Snow Storms.

CASTLE GATE, Jan. 21.—A change has been made in the foreman of the Castle Gate coal mine. Mr. W. S. Carr has resigned and Mr. Robert Forrester, late inspector of coal mines for Utah, is now temporarily installed in Mr. Carr's place. There is no doubt that a great many changes for the better will be made, as Mr. Forrester is well informed as to the practical and theoretical details of mine workings.

It is rumored that Mr. E. B. Jones, chief engineer, is about to resign and move to Salt Lake city. Mr. Jones is a well known man in this county and has proven himself a very efficient official. A trial is on tonight before the above. Dominic Melano has sworn out a writ of habeas corpus against the man for willfully and maliciously slandering his dog supposed to be valued at \$25, but which in reality ought to have been shot long ago as a nuisance. There is no doubt but that the case will be dismissed.

John Mosier who has been in one of the hospitals of Salt Lake undergoing treatment, is reported to be steadily convalescing.

The wife of our esteemed townsman Michael Beveridge has been very sick, but is getting a little better. This lady has been suffering for a long time and a short while ago went under an operation for a tumor in the breast, which was successfully removed, but from the effects of which she has never thoroughly recovered.

A heavy snow storm has fallen these last few days which means plenty of water for the ranchers on the north side of the mountains.

The Caledonian club of Castle Gate are intending to celebrate in a fitting manner the birthday of Scotland's great hero, Robert Burns.

The Home Dramatic company are busy rehearsing "In Snow and Sunshine" and for an after piece, "I'm Not Myself at All" which they will put on the boards February 1.

THE HERALD'S CVOPS.

The Herald offers a silver cup each to the first boy and girl born in Utah under a starhood. The only criticism we have to make of the offer is that it should have been made some time ago, and not leave so much to luck and chance.—Mount Pleasant Pyramid.

"BOX B."

Wesley Ensign, formerly employed by the Richfield creamery and now living with his parents at Brigham City, has received a letter from "Box B," Salt Lake. To the uninitiated we will explain that a letter from "Box B" means a call to go on a mission.—Advocate.

"MANY TITLES CLOUDED."

SAN FRANCISCO, Jan. 23.—A suit involving the title to nearly half the suburban town of San Rafael was filed today. The plaintiff is Mrs. Catherine McAllister who alleges that in 1861, W. D. B. Forbes induced her father, John Dixon, then mentally weak, to convey property to him of great value, and that in 1861 Forbes secured a quit claim deed to the property by means of fraud. The complaint alleges that the rent of the property since 1865 is alone worth \$250,000. Mrs. McAllister wants the property sold as she has no heirs. Many prominent citizens will be compelled to defend their holdings.

George C. Graves accompanied Frank J. Cannon to Washington, where he will act as the senator's private secretary. George Graves leaves hosts of friends here, who rejoice in his good fortune, yet regret his absence.

The "Uncle John Sprucey" company comes tomorrow night to the Grand. The humor and pathos of the play are said to be much like that of "The Old Homestead," while the spectacular features are something like those in Carter's productions.
