A Pasha Shot - Interesting Events.

Cairo, 20.—Abdallah Pasha, commander of Damietta, has been shot, by his own soldiers. Abdallah summoned his black regiment and said he expected them to fight till the last. He declared that Arabi had turned traitor and fled, but Kafr El Dwar was making a heroic resistance. A soldier asked why they should risk their lives for Arabi and Abdallah. The latter replied they were not fighting for him but for their religion, their country and their caliph. They should be ready, he said, to die, as he was. The soldier replied "then die," and shot him through the stomach. The following general order has been issued to be read at the head of every British regiment, on three successive parades: The general commanding in chief, congratulates the army upon its brilliant success, crowned by the capture of Arabi Pasha and the surrender of Cairo. The general commanding in chief feels proud to place upon record the fact that the brilliant achievements of the campaign are to be attributed to the high courage and noble devotion of all ranks. Called upon to show discipline, under exceptional privations, to give proof of fortitude in extreme toil, and show contempt for danger in battle. Officers and men have responded with zeal and alacrity, adding another chapter to the long roll of British victories.

The review of British troops on the arrival of the Khedive will be an imposing spectacle. It is expected that about 100,000 men will be in the line. The Swiss, Ninet, prisoner, denies that he aided Arabi Pasha in constructing defenses. He maintains he confined himself to the ambulance department, and says he wished to serve only under the Geneva Cross.

London, 20.—A telegram is published here stating that in consequence of some disorders in the Arab quarter of Cairo, General Wolseley has threatened, in the event of their renewal, to open fire from the citadel. The Times says: There can be no possible question whatever may be the ultimate solution of the political problem, the Khedive must, for a considerable time, lean upon the force which has destroyed the rebellion. Large numbers of our troops will no doubt return home, but there must remain sufficient to overawe dissatisfaction; and further organized action of a permanent form for the maintenance of order must proceed under English direction.

Arabi Pasha is suffering from fever and diarrhoea. Mahmoud Tehmy, his military adviser and chief engineer, is in prison with him. The cavalry regiment in upper Egypt remains faithful to Arabi. Fort Ghemleli is to be attacked by land and sea if the garrison refuses longer to surrender.

Alexandria, 20.—The departure of the Khedive for Cairo is postponed till Monday. The Bengal Lancers escort him. Ibrahim Tewfik Pasha, appointed governor of Dauenhoeur, has been ill-treated there. The Sussex regiment occupied the place. Three Copts were murdered; the murderers were arrested.

Reports of outrages and disturbances continue from the interior. All European houses and factories in Tanta are looted; also a few houses in Benha and Birket and Saba.

It was originally intended on the arrest of Mahmoud Tehmy that none of the prisoners would be executed without the consent of England. This decision was afterwards abandoned. It has since been arranged that British officers of high rank shall sit at the trials.

Constantinople, 20.—The tone of the Turkish press has completely changed during the week in favor of England. The Fakih has a violent article condemning Arabi Pasha.

Yellow Fever.

Brownsville, Tex., 20.—The mayor and aldermen have yielded to the request of a mass meeting of citizens, and opened communications to Matamoros. Governor Roberts telegraphed Mayor Carson that Doctor's Murray and Combe were authorized to take full charge of quarantine. As neither is a citizen or duly qualified officer of the state, the mayor awaits further developments before relinquishing sole control, and so informed the governor. The people sustain the mayor.

Pensacola, Fla., 20.—The situation is more gloomy; forty-one new cases and six deaths. Two deaths and several new cases on the vessels at quarantine.

Declined.

Cincinnati, 20.—The directors of the exposition have declined the proposition for the removal of the Denver mining exposition to this city.

Cider and Wine Presses.

NEW YORK REPUBLICANS.

Folger is Nominated—Adverse Criticism.

Many Republicans of New York Dissatisfied and Disgusted.

Saratoga, 20.—The second ballot was taken amid breathless silence, and while the vote was being counted, there were many changes of votes. Broome County delegates changed from Robinson to Folger, and Saratoga County announced a change of eight votes from Storin to Cornell. Montgomery County then withdrew Storin, and changed its vote to Cornell. Lewis County changed four votes from Wadsworth to Cornell. Much confusion and excitement at this point brought all the men on their feet at the same time and announcing changes. The chairman found it impossible to restore order, and refused to recognize delegates till quiet was restored; disorder reigned and for some minutes it looked as if the convention was making a stampede toward Cornell, and excitement was at fever heat. At length order was restored. The Oneida delegate announced a change of delegates from Wadsworth to Cornell. Loud calls for another roll call and confusion was renewed. Delegates charged that the change of Oneida to Cornell had been announced without authority, and the roll call of this county resulted in nine for Wadsworth, two for Cornell, two for Folger. Niagara announced a change of vote from Wadsworth to Folger. Monroe announced a like change, and delegates changed from Wadsworth to Cornell. Delegates shouted. Gardner of Monroe changed from Wadsworth to Folger. The delegates were now on the seats in different parts of the hall shouting at the chairman, but no one was recognized. Order being somewhat restored, General Sharpe, who nominated Folger, announced that Ulster County desired to cast nine votes for Folger. The changes were showing unfavorable to Cornell, and a St. Lawrence delegate said it was evident Judge Folger had the nomination, and he moved the nomination be made by acclamation. Ruled out of order. Sharpe asked that the announcements about to be made be made decently and in order, and that the delegates take their seats. Order was finally restored. Vote announced as follows: Folger 257, Cornell 222, Wadsworth 18; necessary to choose 249. The result was received with tumultuous cheers. Warner Miller United States senator, said the friends of Governor Cornell have labored incessantly to secure his renomination, and moved that his nomination of Judge Folger be made unanimous. This was done.

COMMENTS.

New York, 20.—To-morrow's Sun will say of Folger, in nomination for governor in Saratoga yesterday: The republicans put up a candidate whose name ought to be an admission to democrats at Syracuse, to-day. Folgers political experience and official career in the legislature, on the bench as chief justice of the court of appeals, and in President Arthur's cabinet as secretary of the treasury, has set him before the public as a man of weight and judgment. He will have full support of the republican party of the state. He will be strongly sustained by the administration and all the power and discipline of the republican machine will be brought out in his behalf.

New York, 20.—Defeated or victorious the republican party of New York has received a blow in the house of the friends, which is purely a gratuitous, trifling with its strength, and which will do more than anything which has happened in the last ten years, to diminish its capacity for growth, and to leave it without sympathy or respect of those who looked to it as an exponent of political morality and the champion of political reform.

To-morrow's Times has the following on the convention: The result will be a disappointment to a majority of republicans and to a large number of voters who, on other than party grounds, have appreciated the significance of the fight made against Governor Cornell. It may also turn out a disappointment to the men who have mainly been instrumental in bringing it about. The alleged representatives have deliberately set aside the strongest candidate presented to them, and have chosen a nominee who, if not the weakest in the public estimation, is at least the representative of the weakest and most unpopular section of the republican party. It is sufficient to note the fact that the republican party is represented by a candidate who is not in any sense the choice of the majority of the voters, and who, if elected at all, must owe the election altogether to the instinct of party rather than to popular choice. Jay Gould has triumphed at Saratoga, let the facts be distorted ever so ingeniously, and future governors of this state have been warned that they can not safely act counter to the schemes of Gould.

Prairie Fires—Poisoned.

Omaha, 20.—Extensive fires have been raging in the western part of Nebraska for several days, in Platte and Republican valleys, and they are spreading quite rapidly. They, no doubt, originated from sparks from locomotives; almost every train that passes starts a few fires. The whole country, owing to the luxuriant growth of grass, is one immense tinder box. There is danger of the fire sweeping the entire grazing country, and doing great damage, particularly to cattle. Two men, Albert Alexander and Mr. Doe, cowboys, were caught in the prairie fire west of North Platte, and were horribly burned. Doe has died, and it is doubtful as to Alexander's recovery. A fierce fire is progressing in Republican Valley, in the vicinity of Indianola, on the D. and M. Railroad. Several small towns have been saved only by the greatest exertions.

Daniel Wrarkin and John Keyser, laborers, this afternoon found a bottle in an old house, and supposing it to contain whisky, drank the contents which proved to be bed bug poison. Wrarkin died in one hour and Keyser is in a dangerous condition.

Railroad Racket.

Chicago, 20.—A war on rates, both passenger and freight to the northwest is thought to be imminent. This morning a meeting of passenger agents of the Chicago and North Western, Milana St. Paul, Chicago, Burlington and Quincy, and Chicago, Rock Island and Pacific held an agreement for pooling the passenger traffic between Chicago and St. Paul and Minneapolis was represented. The Northwestern and St. Paul roads demanded the insertion of a clause forbidding payment of commissions to other roads having longer routes. Refusing to accede the demand, the meeting adjourned without reaching any arrangement.

In the afternoon the general manager and freight agents of the same line met to consider a freight pool. Mr. Merrill, of the Milwaukee and St. Paul, declined to enter into any arrangement in regard to freight traffic till the passenger traffic was settled, and the meeting adjourned without doing anything. Unless an agreement is at once reached, it is believed a war will break out throughout Minnesota and Iowa, and as far west as Omaha.

Miscellaneous.

Pittsburg, 20.—The executive committee of the iron manufacturers association and representatives of the amalgamated association met this afternoon, upon the presentation of the old scale by the latter which was signed by the manufacturers. Fires will be lighted immediately.

Keokuk, Iowa, 20.—W. F. Russell and George Turbine, counterfeiters, were arrested at Albia and brought to this city to-day. Counterfeit nickels and dimes for their manufacture were captured in their possession.

Boston, 20.—The ware house of Lafayette street, burned. The stores on Magazine street in the rear, were damaged; Old Fellows Hall, and the residence of Edward Heath, were damaged. Loss \$100,000. Insured.

Springfield, Mass., 20.—E. G. Shaw's woolen mill at Wales, burned. Loss \$50,000; insurance \$81,000.

Washington Wisp.

Washington, 20.—The President appointed Horace B. Fry and James C. Reed, of New York, and Henry Blackstone, of Pennsylvania, a commission to examine the twenty-five miles of the Northern Pacific railroad in Montana.

The Melville reception committee has a telegram stating that Melville will arrive to-morrow.

The President has appointed a son of ex-Collector Smith, of Albany, major and paymaster in the United States army.

More Near Routes.

Philadelphia, 20.—The trial of Thomas A. McDewitt, Benjamin Wiley, Christian Price and H. L. Ensign, charged with conspiring to defraud government in star route contracts, was begun in the United States district court this morning.

That Comet.

Washington, 20.—Professor Ross, of the Dudley observatory, Albany, believes the comet near the sun is the return of the great comet discovered by De Goule in South America on the 5th of February, 1680.
