

**GINGER AND DON BREAK INTO FAST COMPANY.**

Ginger and Don, together with a fast string of colts sired by Alloca, left last week for Fremont, Nebraska, where they will be entered in the races in progress there. Ginger and Don are the two horses who have been occupying the limelight in racing circles in our State the last few years. The former was owned by Colonel C. E. Loose of Provo, the latter by McCoy of Salt Lake. Last year they met in Provo to decide the superiority and when the shouting was, McCoy's horse surrendered the championship of the State to his rival although he forced the Provo animal to break the State record for the half mile to win. Later Ginger was raced at Phoenix, Arizona and was beaten by Queen Pomora, owned by Thompson of Salt Lake. When we consider that Ginger made the mare do all the heats under 2:8, and that she nosed him out at the wire in one heat in 2:7 $\frac{1}{4}$ , the showing was not at all bad.

Last Strawberry day at Provo saw another chapter in the story. Ginger and Pomora met again in best three out of five half-mile heats and Ginger got sweet revenge by taking three straight. The best time made was 1:2 1-5. Ginger doing this with scarcely any forcing, the mare in one heat only getting within hailing distance.

Mr. Hal Brown, of Spanish Fork, the present owner of Ginger has also acquired control of Don and will follow the Nebraska circuit the rest of the season. The present week his string is racing at Fremont, Nebraska; next week will find them entered at Columbus and the week following at Grand Island. After that Mr. Brown intends working through Missouri on half mile circuits. Brown is a dyc in the wool horsemen and knows, we think, his horses perfectly. He is proving this by fighting for half mile tracks. We do not know a great deal about Don on the longer distance, but we do of Ginger. On a mile track Brown will find a great many horses in Nebraska and Missouri that can beat Ginger. On the shorter tracks the ex-Provo horse will prove as invincible in Nebraska and Missouri as he was here. In any decent condition he can do better than a minute and that time will win Brown money in his new field. We wish him success and will keep our

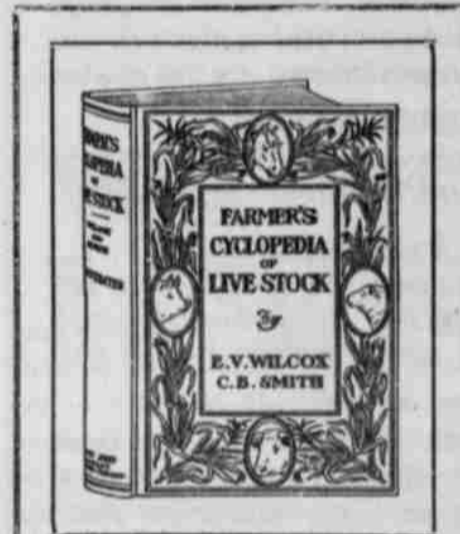

readers posted as to the amount of it, Mr. Brown encounters.
