

which is continued for several moments, hence the name of trumpeters. They are also distinguished from all other breeds by having a tuft of elongated feather scurling forward over the base of their beak and their feet are so heavily feathered that they have the appearance of abbreviated wings.

There is perhaps no branch of the fancier's in which money has been expended or more money earned than in the strictly fancy pigeon trade. While prices have never attained the magnitude asked and received for choice specimens of poultry, yet from \$50 to \$100 per pair for choice breeders, carriers or toys has not been unusual and when we consider the enormous trade in fancy pigeons in Europe and in America, it will at once be seen that a large amount of money has been invested. There is also no branch of the strictly fancy in which the average town or country boy or man may engage in which he may so surely count on a profitable investment, as in some one choice variety. Take White Homers for instance. There never yet has been a time when one could not dispose of all that could be produced at profitable figures for choice specimens. Take the Owls or Turbits and we doubt if any loft in America has ever been able to supply the demand upon them, if properly advertised, for choice specimens. Fancy pigeons are like fancy chickens

in that there is a great demand at good prices for choice specimens, and if the fancier will make the production of fancy birds his aim, he can not but succeed eventually to produce high grade stock, and when he has been able to accomplish this event if he will judiciously advertise his stock and can make good in his shipments, a steady income may be derived from a calling in which both pleasure and profit are combined.

DO YOU WANT A FARM PAPER?

"One Year's Subscription to the Deseret Farmer Free."

How You Can Get It.

Find a Cream Producer who is not shipping cream to The Jensen Creamery Co., and who may be selling on the "Long Time System," which means that the cream is sent in one month, and a month or more afterwards the farmer receives his check.

Explain to this Producer that The Jensen Creamery buys on the "Jensen Cash Paying System," which means that within about seven days after your cream is sent, your check reaches you.

It will be very easy to show how much better it is to sell for cash than it is to sell on the "Long Time System."

Send us the name and postoffice address of your prospective customer, and after we have received two shipments of cream from him, we will have The Deseret Farmer sent to you for one year without charge.

In case you are already a subscriber to The Deseret Farmer, we will send you some other farm journal instead.

By all means take a farm paper.

Yours very respectfully,
JENSEN CREAMERY CO.,
 Salt Lake City, Utah.

UTAH STATE POULTRY ASSOCIATION.

The first meeting of the Utah State Poultry Association since summer vacation was held Thursday night. The poultrymen will continue to hold their meetings regularly each month.

M. CHRISTOPHERSON, Mgr.

SALT LAKE NURSERY CO.
