HEAVY UTABS GOING AROUND FIVE DOLLARS TEN CENTS.

Dealers Claim the Beef Market Is Sluggish and Insist On Reducing Prices Fifteen to Forty Cents With the Exception of High Class Steers—Stockers Quite Firm.

Correspondence The Advocate.
KANSAS CITY, Mo., Aug. 31.—Cattle received here this week 52,999, last week 47,000, same week last year 59,709 head. Killers claim the beef market is sluggish, and they insisted on reducing the price of killing cattle fifteen to forty cents this week, with the exception of the highest class steers. Butcher grades lost the minimum amount. Stockers held up firm, but feeders slumped close to half a dollar. Veal calves advanced fifty to seventy-five cents, the best now \$9.00. Prime steers reached a new high figure this week, \$19.60. Best grass steers sold up to \$9.00, but the decline noted on killing cattle affected all of the grass steers, though most severe on the cheaper ones. Quarantine steers continued to slip this week, and the best grass steers now stop around \$4.00, light thin steers down to \$4.50. One reason for apparent losses is poorer quality in the offerings, tops having been sent to market previously in a good many cases. The decline in feeders is due partly to the lower prices for killing steers. Feeder prices now range from \$6.50 to \$7.50. Stockers are holding up because of the strong demand for them, and the light receipts of that class, especially of yearling steers. A train of Colorado beef steers sold this week at \$6.00 and \$6.10, weighing around eleven hundred pounds. Feeder prices will stiffen a little as soon as the new corn can be fed.
Sheep and yearlings held stronger this week, light New Mexico yearlings reaching \$5.25, heavy Utahs \$5.10, Montana wethers \$4.25, and Utah ewes \$3.50. Range lambs are closing the week fifteen to twenty-five cents under the best time, with tops around \$6.75. Feeding stock is firm, lambs at \$4.00 to \$5.25, wethers \$4.10, breeding ewes \$3.50.
SHERIFF AND DEPUTIES RAID COLTON "BLIND PIG."
Sheriff George T. Judd and Deputies F. Bachman and J. V. Dunn made a raid on a barber shop, an alleged "blind pig," in Colton under a search and seizure warrant one day last week. Some whisky, beer and empty bottles were taken and will be destroyed, unless the owners show the property was not kept for unlawful purposes. Henry Vincent, Theo. Nicholas and Robert Johnson, the proprietors of the barber shop, were also arrested and charged with selling liquor without a license. Their hearing is set for September 16th.

FORMER COAL MINE INSPECTOR IS DEAD

GOMER THOMAS PASSES AWAY AT SALT LAKE CITY.

Had Never Fully Recovered From The Shock of the Disaster and Rescue Work at Winter Quarters Eleven Years Ago—Funeral and Burial at Coalville Yesterday.

Gomer Thomas, a native of Wales, but a resident of Salt Lake City and well known as a coal mine expert, died at his home there last Sunday. The cause of death was liver trouble, but he had not been well since the Winter Quarters coal mine disaster eleven years ago, when two hundred and one miners were killed. He was not injured by the explosion, but undermined his health in the rescue work by inhaling the poisonous smoke and gases.

Deceased was a native of Abercarn, Monmouthshire, South Wales, born there, December 10, 1851. He came to America in 1861, settling in the coal regions of Pennsylvania. He later went to Akron, O., where in 1871 he was married to Sarah Davies, also a native of Wales, and the couple came to Utah in 1879. Mr. Thomas opened the Hoofield mines the same year that he came here, doing this for the Utah Central railroad.

In 1880 he was made mine superintendent for the Union Pacific and that year opened the Grass Creek coal mines in Summit county for the railroad company. He later opened other mines for the Union Pacific. He was appointed state coal mine inspector in 1895 by Arthur L. Thomas, then governor of the territory of Utah, and was re-appointed to that position when Utah became a state by the first governor, Heber M. Wells. He continued in that position until 1907, when he retired on account of failing health.

He was said to be one of the best informed men in Utah on coal and coal mines. He was possessed of a pleasant address and had many friends throughout the state. He held numerous offices of trust and at the time of his death was a director of the Salt Lake City Cambrian association. He belonged to no church, but was broad in his religious views and tolerant of the views and beliefs of others. In early youth he was a member of the Presbyterian church.

His widow, five sons, three daughters and ten grandchildren survive. The children are Harry L. Gomer, Thomas and Samuel, all of Salt Lake City; Mrs. W. M. Boyden of Coalville and Mrs. Richard Phoenix and Miss La Rue Thomas of Salt Lake City. Funeral services were held yesterday in the Latter-day Saints' meeting house at Coalville.

UTAH CONTRACTORS WILL USE THE UTAH ASPHALT

Utah asphalt is wanted by Warren Bros., owners of patents for bitulithic pavement. A. C. Cook, their agent, has filed a letter with the city commissioners at Salt Lake City stating that the company favors the introduction in Utah of the refined Utah asphalt on the condition that the product may be secured at the same price as the California product, which is now being used.

The refining should, and probably will, be done at the fields, because the natural asphaltum is about 90 per cent sand and the refining there would reduce transportation charges. The fact of the large percentage of sand contained in the Utah product may induce the Salt Lake-Pittsburg Oil company to put in a refinery at their properties above Sunnyside in Carbon county. In fact, it is understood the company is at this time figuring on such a plant.

Nervous? Thin? Pale?

Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.

If you think constipation is of trifling consequence, just ask your doctor. He will dissuade you of that notion in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable. Made up the J. C. AYER CO., Lowell, Mass.

SIXTY THOUSAND BUSHELS OF OATS

AUSTIN BROS. HARVESTING AT THEIR BIG RANCH.

Fifty Thousand Bushels Already Sold and Ten Thousand Being Held For Local Consumption and For Seed Next Season—Fifty Acres Planted In Wheat.

Austin Bros. of Salt Lake City, sheepmen and sugar beet growers, are at this time harvesting sixty thousand bushels of oats from their farm in Price River Valley about fifteen miles southeast of this city. The oats were grown on eighteen hundred acres of their big farm at the lower end of the Price River irrigation company's canal, not far from Cleveland. They have one thrasher at work and seven self-binders, cutting about seventy-five acres a day.

This is the first year of cultivation, the ground last season being raw land and entirely unimproved. Besides the eighteen hundred acres in oats they have fifty acres to wheat and the remainder in alfalfa, the latter being a good stand and showing as well, if not better, than anyone could expect for the first year. The oats are of superior quality and are averaging forty pounds and better to the bushel.

George Austin, who was here last Friday and Saturday looking after threshing, tells The Advocate that fifty thousand bushels of the oats have been sold in Utah and will be loaded at Wellington, the nearest railroad point, for shipment. The other ten thousand or more bushels will be held here for local sale and for seed next year. He and his two brothers are more than pleased with their first year's experience in this valley and have come here to stay, as it were.

Adjacent to the Austins are several tracts of forty to a hundred and sixty acres and in every instance these lands are this year profitable to the owners, the crops raised being away above the average. The eighty-acre apple orchard of the Austins on Miller Ridge is thriving, as are the orchards of several others in that vicinity. "You have here as good an apple country as there is anywhere West, and I look to see Price River Valley in the next few years become famous for its fruits."

The Austins are figuring to fence this big farm this year with woven wire fence—rabbit proof. It will take eleven miles or more of wire to go around this one tract of land. They are building houses, barns and cisterns for the comfort of their employes.

NEEPEL'S ATTACK OF DEATH.

"Five years ago two doctors told me I had only two years to live." This startling statement was made by Stillman Green, Malachite, Colo. "They told me I would die of consumption. It was up to me to try the best lung medicine and I began to use Dr. King's New Discovery. It was well I did, for today I am working and believe I owe my life to this great throat and lung cure that has cheated the grave of another victim." It's folly to suffer with coughs, colds or other lung troubles now. Take the cure that's safest. Price 50 cents and \$1.00. Trial bottle free at all dealers.

LOCAL OFFICERS LOOKING FOR NEGRO FROM DENVER

Local officers along the Denver and Rio Grande have been notified of the escape of Albert Lee, a colored trusty in the Denver county jail, whom the Denver authorities believe to be on his way to Salt Lake City. Lee is about five feet eight inches tall, bears an ugly scar on his forehead and face and has several gold teeth.

All along the line employes of the Denver and Rio Grande have been notified of the negro's escape by the office of Superintendent Rockwell in Denver, and the county authorities have started a thorough search for the man.

"The police in all the towns between Denver and Salt Lake City have been asked to help locate the negro."

CAUGHT A BAD COLD.

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncan of Tipton, Ia. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by all dealers.

BIDS WANTED.

The Independent Coal and Coke company will receive at their office at Kenilworth, Utah, bids for the driving of two (2) tunnels five hundred feet in length, ten feet in width and seven feet in height. Tunnels will be run through soft coal and sandstone. Bids should reach the office at the earliest possible moment.
