PRICE ACADEMY NOTES

Prof. L. A. James Points Out the Needs of This School.

The large entering class taxes the capacity of the class rooms. In fact the building now used for school purposes is entirely too small to meet the needs adequately. A new administration building is imperative, and something must be done in the near future along this line in order to enable the school to meet properly its growing opportunities.

The work in all departments is progressing in a very satisfactory way, both to pupils and faculty, notwithstanding the many changes both in the personnel of the student body and faculty.

With the social to be given this (Friday) evening by the juniors and seniors, all the classes will have entertained during the season. The socials given by the freshmen and sophomore classes were delightful occasions. It goes without saying that the junior-senior affair will not be below the standard.

A literary society has been organized for the benefit of the students of the academy. It meets every Friday at 11:30 o'clock and renders programs consisting of readings, musical selections, parliamentary drills, debates, etc. Because of the importance of training along this line, every student is required to participate in the programs throughout the year. Great benefit is being derived from this work.

Dr. J. F. Clearwater of Cheyenne, Wyo., father of Prof. J. B. Clearwater, has been a visitor at the academy for the past few days. While here he gave two or three inspirational and helpful talks before the students.

Arrangements have been made for awarding scholarship prizes at the close of the academic year. For the student making the best scholastic record a prize of ten dollars will be given, and for the next two, prizes of five dollars each.

The department of music is proving very popular this year. At present eighteen are registered in this department, and other prospectives are expected to register soon.

WILL TEST THE LIQUOR LAW; EXPRESS COMPANY TO FIGHT

J. A. Cottrell, agent of the American Express company at Nephi, who was arrested a short time ago charged with violating the Funk liquor law, which prohibits railroads express companies or other common carriers or agents of common carriers from delivering intoxicating liquors in dry territory, was bound over to the district court at the preliminary hearing at Nephi Saturday. His bail was fixed at two hundred dollars, which was furnished by the American Express company.

This is the first arrest made in the state under the provisions of the Funk law and will be carried through all of the courts that a test may be made as to whether the Funk law prohibits the receiving of intoxicating liquors in dry territory for personal use.

The liquor was shipped from Evanston, Wyo., after the Wyoming courts had compelled the express company to receive the shipment. When Cottrell made delivery of the liquor to the consignee at Nephi he was arrested by the county authorities.

CHARGES AGAINST HILTON ARE BEFORE COMMITTEE

The charges which have been preferred against O. N. Hilton, the Denver attorney who defended Joseph Hillstrom, the executed murderer of J. G. Morrison and his son J. Arling Morrison, were formally presented to the grievance committee of the Utah State Bar association by H. R. MacMillan, president of the association, last Saturday. Since the resignation of C. R. Varian there are only Frank K. Nebeker and A. J. Hoopangh on the committee. Nebeker received the charges and said that a date would be set for their consideration. He said a decision first would be reached as to whether the committee should ask MacMillan to fill the vacancy created by the resignation of Varian before proceeding with the charges or whether a committee of two is sufficient to pass upon them. It will be several weeks before the committee will be able to go through all of the evidence which has been submitted with the charges.

PRESIDENT SMITH HOME FROM COAST VACATION

President Joseph F. Smith of the Mormon church returned to Salt Lake City last Sunday from a stay of three weeks in Southern California, where he enjoyed a complete rest from all his responsibilities and labors.
