

THE KANSAS CITY LIVE STOCK MARKET

RECEIPTS LARGE AND EVERYTHING AT GOOD PRICES.

There Was a Strong Country Demand All Last Week and Not Enough Stock to Go Round—Lamb's Bring \$14.20, Highest Price Ever Paid Here—Wool Brings Forty Cents.

The Sun Special Service

KANSAS CITY, Mo., Jan. 29.—Cattle receipts were 12,000 head and there was a place for everything at strong prices, cows ten cents higher. Twelve thousand hogs arrived, market five to ten cents higher, a little above the best time last week, top \$11.75, highest on record here and only two and a half cents less than Chicago. Sheep and lambs fell below the estimate, \$100 arriving, market stronger in ten cents higher, lambs \$14.20, a new high record.

Quality of beef grades averaged lower today than last week, and poorer of the winter. The best here sold at \$19.85. Short fed steers sold at \$9.25 to \$10.00. Feeders are turning their December cattle now, and prices are big, one man today clearing twenty-two dollars a head on steers put on feed December 19th. Five cars of just fair pulp fed steers from Ft. Morgan, Colo. weighing 1050 pounds sold at \$9.00. These cattle were offered in Denver Thursday, bid there \$8.25 for four loads, and \$8.50 for one load, freight paid to the river, showing a big fifty-cent margin here today. Cows sold ten cents higher, best heavy cows \$9.00 to \$9.50, canners \$6.00, the various grades in between, and veals today \$12.00.

There was a strong country demand all last week, and 14,000 stockers and feeders were bought and shipped out. Prices were strong every day, and not enough good feeding steers were received to go around, as packers get what they could of them. The market is firm today, feeding steers up to ten dollars, and stockers \$7.25 to \$8.00, prices one to two dollars above this time last year. Stock cows and heifers are in strong demand also.

In sheep and lambs quality has been lacking every day since last Monday, including today, though four loads of near choice lambs were here today, and sold at the top—\$14.20, the highest price ever paid here for lambs. Feeding lambs sold at \$12.45 and \$12.75, also new high records. No choice ewes, wethers or yearlings were here, best yearlings offered \$12.00. Choice ewes sold at \$10.25 last week, and would do a little better now, wethers worth up to \$10.50.

LAMBS BRING HIGH PRICE AT MT. PLEASANT RECENTLY

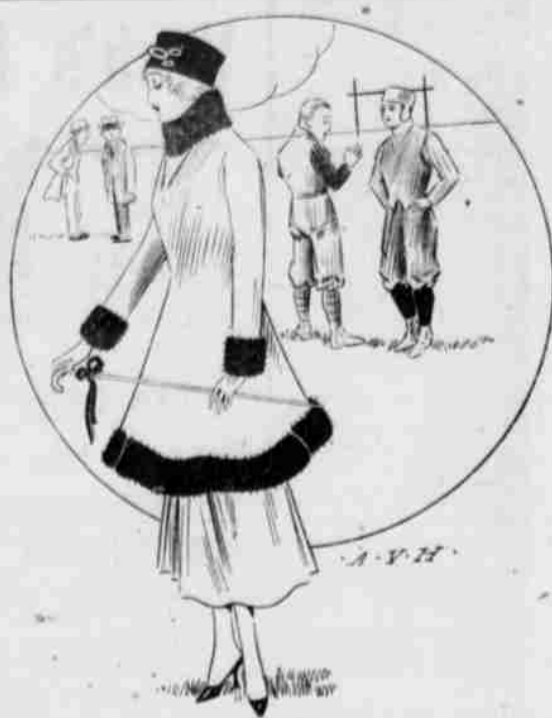

One of the best lamb sales ever made in Mt. Pleasant was the one made Wednesday when four cars of lambs were sold by J. B. Staker, Christian T. Madson and Parley Rosendorf to W. H. Grannis of Oakland, Cal., says Mt. Pleasant's Pyramid of Sat. Friday. The price paid for the lambs was 11 1/2 cents per pound with no shrinkage in weighing.

The average weight of the lambs was about ninety-eight pounds. This would make them bring a little more than \$11.25 per head. There were 1248 lambs sold in this shipment.

The feeders were purchased last fall for about 7 1/2 cents. This makes the greatest profit ever made by feeding lambs here.

WOOL IS BRINGING FORTY CENTS UP IN MONTANA

BUTTE, Mont., Jan. 27.—Forty-cent wool is an actuality in Montana. Fred L. Long of Northern Montana has sold his hundred and sixty thousand-pound wool clip, sheared in 1915, at that price. It has been stored in a

ASSAYS SHOW MUCH

strike in Paloma Mine Has Rich Value, Says Draffet.

That the recent strike in the Paloma of Beaver county is one of genuine importance was demonstrated yesterday when President M. P. Draffet obtained the assayer's figures on the samples which he and others who inspected the property brought back from the workings on the seven hundred level, says Wednesday's Salt Lake Tribune.

Mr. Draffet says that there is a full face of high grade shipping ore, but that the assay was of the two feet of red oxide of copper, which proved to carry values of 11.8 per cent lead, 12.8 ounces silver and 21.58 per cent copper, this giving a value at present metal prices of approximately two hundred dollars a ton.

The other portion of the ore in the face is a high grade carbonate and it is considered a conservative estimate to place the average value of the entire body at better than a hundred and twenty-five dollars a ton. President Draffet says that the Paloma now has five faces of good shipping ore on the six and seven hundred levels and that three carloads are ready for shipment.

On the eight hundred level a station is being cut from which the ore-bearing fissure will be reached by drifting about forty feet. The strata of high grade ore which show in the shaft on this level convince the management of the continuity of the fissure to greater depths.

President Draffet declares emphatically that he is confident no more assessments will be levied on Paloma stockholders and equally confident that in a reasonable period the mine will be among the list of dividend payers.

FOR A BILIOUS ATTACK

When you have a severe headache, accompanied by a coated tongue, bloating of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a severe bilious attack. While you may be quite sick there is much consolation in knowing that relief may be had by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere.—Advt.

Due to the enterprise of the Bell system, the whole United States may be enabled to hear President Wilson's inaugural speech on March 5th over the long distance telephone.

DRY BILL PASSED; GOVERNOR WILL SIGN Adlets

(Continued from page one.)

placed on its final passage at 5:14 o'clock. Every member of the house who was present voted "aye" except Representative J. T. Raleigh of Salt Lake. When the bill passed the house on the way to the senate Mr. Raleigh voted against the bill because, he said, of the commissioner feature. He offered no explanation yesterday.

Representative J. H. Mace Was Overanxious.

Immediately after the result of the vote had been announced Representative J. H. Mace presented a motion providing that the sergeant at arms escort the messenger with the bill to the governor for his signature at once. When Speaker Tolton finally was given an opportunity to explain that the bill must be engrossed and enrolled and signed by the speaker of the house and the president of the senate before being sent to the governor the motion was withdrawn.

Representative D. D. McKay, however, fearing that something might happen to the original bill, presented a motion to the effect that two copies of the bill be engrossed, one to be sent to the governor and the other to be retained by the clerk of the house.

The bill probably will be signed by the speaker of the house tomorrow. The senate will convene Monday afternoon and the bill probably will be presented for the signature of the president and then be transmitted to the governor the same day.

THE RIGHT PLACE. Sunday School Teacher—Children do you know the place that is open to all—the poor, the rich, the sad, the happy; to man or woman, to young or old—do you know the house I mean? Small Boy—Yes ma'am—the station house.

COLLETT'S LUNCH ROOM

When you want a short meal we can serve you to your taste. Everything prepared and up to the minute. Cater to those who are in a hurry. Everything strictly sanitary and of highest quality. Main St., East of Elk Street.

It Started In The Kitchen

Avoid the horrors of indigestion. A statesman ate impure food—gave him indigestion—quarreled with another statesman—started the war was on!

We positively will not sell any inferior, impure or defective groceries if we know it. The best is none too good for our customers, and THEY ALWAYS GET IT.

We want YOU for a customer.

WOULD COMPEL ROADS TO BUILD RIGHT OF WAY FENCES

Compulsory construction of right of way fences by railroad companies is provided in a proposed amendment to existing statutes introduced in the upper house Tuesday by Senator Archibald Hays of Tooele. The bill provides that every railroad operating within the state shall erect fences along each side of its right of way where the tracks pass through enclosed lands. The railroad also is to be compelled to install such gates and crossings as may be necessary.

Until such improvements have been made the railroad company is to be held liable to civil action by any and all persons who suffer losses or injury or damage by the sounding or killing of live stock, whether or not the employees of the company are guilty of negligence.

If the railroad companies refuse to comply with the provisions of the proposed measure, the persons whose land the railroad right of way joins may erect the necessary fences and collect from the railroad concerned the full value of the work done.

SOMETHING GOOD.

Those who hate nasty medicine should try Chamberlain's Tablets for constipation. They are pleasant to take and their effect is as agreeable and so natural that you will not realize that it has been produced by a medicine. Obtainable everywhere.—Advt.
