NOTICE OF SPECIAL ELECTION.
Notice is hereby given that a special election has been called by the city council of Price, Utah, and will be held in Price, Utah, on the 23rd day of December, 1917, to determine the question whether or not Price shall issue its entire municipal plant and system, used for the purpose of generating, transmitting and distributing electric energy in and about Price, including all poles, wires, crossarms, meters, fixtures, equipment and appliances constituting a part of said plant and system, and all materials and supplies owned by Price for use in connection with said plant and system. There shall be three polling places, all at City Hall, in said Price, Utah, one thereof in an apartment therein where all qualified electors whose surnames commence with any of the letters of the alphabet from A to G, inclusive, may vote, and one in an apartment where all qualified electors whose surnames commence with any of the letters of the alphabet from H to N, inclusive, may vote, and one in an apartment therein where all qualified electors whose surnames commence with O to Z, inclusive, may vote, which are hereby for convenience designated as A to G, H to N and O to Z polling places, respectively, in said Price election district. All qualified electors of Price, a municipal corporation, who have paid a property tax in the year preceding such special election are entitled to vote. The polls will remain open during the time from 7 o'clock in the morning until 7 o'clock in the evening. City Council of Price, Utah, by A. W. Horsley, Mayor. Countersigned and attested: L. A. Lauber, City Recorder. (Seal) First pub. Nov. 23; last Dec. 21, 1917.

STOMACH TROUBLE AND CONSTIPATION.
Those who are afflicted with stomach trouble and constipation should read the following: "I have never found anything so good for stomach trouble and constipation as Chamberlain's Tablets. I have used them off and on for the past two years. They not only regulate the action of the bowels but stimulate the liver and keep one's body in a healthy condition," writes Mrs. Benjamin Hooper, Auburn, N. Y.—Advt.

Elimination of 10,482 acres of land from the Ashley national forest in Utah, made under date of November 26th in an executive order of the president, is reported to have been the result of recommendation of the forest service. In a communication issued from the headquarters of the Ogden division it is explained that much of the area eliminated is steep to be cultivated.

Main Street, Price, Utah

Stop Waste of Coal
You simply can't afford to waste coal now. It's too hard to get, and too costly when you get it. The difference between saving and waste lies in the stove.
Come in and let us show you a stove that will save you from one-third to one-half lot of fuel. Our stoves are as far ahead of the old fuel eaters you have been used to as they were ahead of the old fireplace of our fathers.

Wisconsin has extended its provisions relative to seizure of paraphernalia, used in violation of game laws to include automobiles, which, when used by persons hunting illegally, may be confiscated by conservation officers.

Bear in mind the care received by the colt the first eighteen months of his life will be a big factor in his worth at maturity.

TEACHERS OF UTAH MUST OBSERVE ETHICS

BOARDS OF EDUCATION CALLED DOWN AS WELL.

State Committee Decries Competitive Bidding For Services of Pedagogues, Which Has Been More Or Less the Custom in Times Past—All Are Warned to Play the Game Fair.

Revocation of certificates is the penalty to be meted out to teachers employed in the state of Utah who fail to play fair with boards providing them employment. In recent months so many complaints have been received by the state board of education from district school boards of violations of contracts by teachers that the state board recently decided to take action to prevent such infractions. A committee was employed to thoroughly investigate the reports and a large majority of the complaints were found justified. The impartial body returned a recommendation that where violations are found teachers shall be dismissed from service and their certificates revoked. The committee also decries competitive bidding among all district boards for the services of teachers. Following is the committee's report to the state board:

"No teacher can morally sign a contract for her services covering any part of the time for which she is already under contract in any school district without first having secured the agreement or consent of the school board with which she has entered into contract. The state board of education is in sympathy with any proper attempt on the part of a teacher to improve her financial or social condition, but considers it a breach of professional ethics for a teacher to seek employment elsewhere covering any part of the period for which she has already contracted her services. This provision, however, is not to be interpreted as in any way interfering with the right of the teacher to be considered for any position or employment at any time.

"It is contrary to good business and to high ethical standards for one school district to bid for the services of teachers in another district covering the period for which they are already under contract without the previous consent of the board of education with which they are under contract. In the interest of justice and right and as a protection to the teaching profession of the state, it is recommended that any teacher's certificate may be revoked whenever it has been shown conclusively that the holder has willfully failed to comply with the foregoing provisions or otherwise wantonly violated the agreements into which she has entered with school boards."

PLANNING BIG PROJECT

Government Man Pleased With Utah Basin Irrigation Scheme.

J. L. Lytel, in charge of the Strawberry reclamation project for several years past, has returned to his headquarters at Provo from a trip of preliminary inspection of the big government project now being undertaken in Duchesne county. As now contemplated, it will consist of taking water from the Duchesne river for irrigating about seventy-five thousand acres of fine land. Lytel is greatly impressed with the possibilities of the Utah Basin country, which only needs capital to take the water on the land and railroad facilities for bringing the crops to market.

When seen at the Tavern Hotel a few days ago on his way out to Duchesne, Lytel said of the Pleasant Valley project up near Scofield that the people of this valley are in possession of about all the facts, through the Sun that he has. However, he believes something will come of it through Senator King and our other representatives in congress at the present session.

He is committed to the Pleasant Valley and Price River Valley project, and is doing and has done everything possible in his power to get things going.

PRODUCTION MUST INCREASE, SAYS HOUSTON

CONFIDENT THAT FARMERS WILL MEET RESPONSIBILITY.

Secretary of Agriculture Points Out What Is Expected By the Government From the Agriculturists of the Country For the Coming Year—He Looks For Willing Co-Operation.

WASHINGTON, D. C., Dec. 8.—With record crops grown this year the nation's farm and live stock production must be stimulated to a still higher efficiency during the coming few months if domestic demands and the needs of the allies are to be adequately met, Secretary of Agriculture Houston says in his annual report to congress today.

"That the farmers of the nation have generously responded to the appeals for increased production, and that much has already been done to insure a large supply of foods and feedstuffs," says the report, "justifies no letdown in their activities or in those of all agricultural agencies. On the contrary, even greater efforts must be put forth in the coming months.

"There must be no breakdown on the farms, no failure of foods, feedstuffs or clothing. I cannot emphasize too strongly the urgent necessity of doing everything possible to bring about a further increase in the production of all essential commodities, particularly of the staple crops and live stock."

Spirit of the Farmers.
Confidence in the ability of the farmers to meet the unusual emergency caused by America's entrance into the war is reiterated by the secretary. Their willing co-operation since April has been prolific of encouraging crop increases, he says, and there is no doubt but that they have a complete and ready comprehension of the demands to be supplied as the war proceeds.

"The spirit revealed by the farmers and the results of their efforts during the present year," he says, "indicate that they recognize the responsibility resting upon them in this emergency. I am confident that they will patriotically continue to assume and to bear their full share of the country's burden.

"As it becomes more obvious that the surest way to force a righteous peace is to employ effectively all the resources of the nation, the farmers will increasingly put forth their strength, send their sons to fight at the front, and see to it that neither this nation nor those with which we are associated lack anything in the way of materials for food and clothing."

While the precise figures for meat, poultry, dairy products and vegetable oils are not yet available, the secretary estimates that the quantity of these commodities is greater than for 1912 and 1916.

Big Grain Increase.

An increase of a billion bushels over the five-year pre-war average was effected in this year's crop of staples. Unrevised estimates contained in the report are 3,191,000,000 bushels of corn, 659,797,000 of wheat, 1,240,000,000 of oats, 301,659,000 of barley, 50,000,000 of rye, 18,815,000 of buckwheat, 33,250,000 of rice, 73,380,000 of kafir, 439,486,000 of Irish potatoes, 44,727,000 of sweet potatoes, 15,957,000 of commercial beans, 42,400,000 of peaches, 11,419,000 of pears, 17,723,000 of apples, and 7,621,000 of sugar beets.

Situation in Meats.

"In considering the whole meat situation it should be kept in mind that there is a close relationship between the production of live stock and the supply of feedstuffs and that for more than a year past there has been a relative shortage of grains and of forage. The large production of these necessities during the present crop season should conduce to more satisfactory conditions for the producers of live stock and should, other things being equal, tend to bring about an increase.

"But with the destruction of live stock in Europe and the great demands from there for meat and fats, with consequent greatly increased exports from this country, it is clear that the supply will not be adequate for the domestic needs and for those of the nations with which we are associated in the war.

"The mere statement that the population has steadily increased in this country—the gain in the ten years from 1905 to 1915 being 12,000,000—with an absolute decrease in the live stock for the same period, would sufficiently emphasize the seriousness of the situation if conditions were normal and the demand for meats and fats were not so urgent."

The report announces the organization of a special agency to ascertain to what extent the government safely can permit the use of national forest ranges for cattle grazing. A severe winter and late spring in the West

this year induced the opening of the forest reserves to the animals much earlier than usual, and in 1915 the emergency use of the ranges for grazing purposes is to be much extended.

SCOFIELD MAN IS NOW ON HIS WAY TO FIRING LINE

SCOFIELD, Dec. 8.—Lee R. Thomas of Scofield is on his way to France with a field artillery regiment, according to a telegram received today by his mother, Mrs. E. H. Thomas. He reported at Camp Lewis December 6th with the last draft contingent and was transferred to the field artillery at Long Island. He is 27 years of age. His father, the late T. H. Thomas, was a civil war veteran of the South.

ARE MARRIED AT ZION

Former Young People of Sunnyside Surprise Their Friends.

SUNNYSIDE, Dec. 8.—Friends locally have received the news of the wedding this week at Salt Lake City of J. C. Moore, formerly of this town, and Miss Emily Lassen of Fairview. The former holds a responsible position with the Utah Fuel company general office at Zion, while the bride taught school here for several terms. The couple has many friends locally who are extending congratulations. The groom, it is understood, is soon to join the aviation service of his country.

About twenty carpenters have been working during the last few days on the amusement hall, with the idea of completing it by Christmas, when a big opening dance is to be given.

Miss Mabel McMillan and Homer M. Haynes, two of Sunnyside's popular young people, were married in Salt Lake City Friday, November 30th. Upon their return to Sunnyside the latter's mother, Mrs. R. M. Galbraith, served an elaborate wedding dinner at her home to their honor.

Mr. and Mrs. Samuel Naylor entertained at supper Monday evening at their home for Messrs. Oscar Evans and Evan Jones, who will leave the middle of the month to enlist in the service of their country.

Mr. and Mrs. Thomas Williams of Helper spent Thanksgiving in Sunnyside, the guests of Mrs. J. Williams. Mr. and Mrs. Levi Montgomery of Heber City, Mr. and Mrs. Alonso Tidwell, Miss Vesta Montgomery and Miss Minnie Tidwell of Wellington were the guests of Mrs. George F. Wells during the past week.

Mrs. Lou Taylor and Miss Ruth Martin entertained at dinner Sunday at their cottage for Miss Maude M. Burke, Miss Irene Thomas, R. E. Davidson and Frank Tucker.

Dr. and Mrs. A. W. Dowd had as their guests on Thanksgiving, Dr. H. E. Dowd of Hiawatha and Dr. James E. Dowd of Salt Lake City and families.

Miss Clione Lassen has returned to her home in Fairview after spending the last few months here.

Mr. and Mrs. Daniel Stevenson spent the latter part of the week in Castle Dale visiting relatives.

Mrs. Tallieson Evans entertained the Red Cross workers at her home Wednesday evening.

Mr. and Mrs. J. Llewellyn of Alberta, Canada, are visiting in Sunnyside with their nephew, J. E. Llewellyn, for a few days.

Coke ovens and mines here are working full time these days.

WOMAN KNOWN LOCALLY

Wife of Donaldson of McWhirter Fame Asks For Divorce.

"I think he runs a gambling game," was the hesitant answer of Mrs. Margaret Donaldson as to the occupation of her husband, James M. Donaldson, when she was asked about it while on the witness stand in Judge J. Louis Innes' division of the Third District court at Salt Lake City last Saturday.

Mrs. Donaldson was under examination as a witness for herself in her suit for a divorce. The decree was granted on the ground of non-support. No information as to where the husband might be operating a gambling game was volunteered by the witness or asked by counsel.

Mrs. Donaldson is a sister of "Kid" Davis, the prize fighter, and is known by many persons in Carbon and Emery counties, where she lived before going to Zion. She was married to Donaldson at the state capital several years ago. Donaldson is one of the men who "turned" the McWhirters, two Scotchmen, of several thousands of dollars in a fixed poker game.

Donaldson served time at the Utah penitentiary for the McWhirter deal and was supposed to have reformed after getting out of the penitentiary on parole. The Davises reside at Cleveland in Emery county, where "the kid" is working his father's farm.

Improvements in beet harvesting machinery made this year will release an army of four thousand workmen in Utah alone during the 1918 beet harvesting season and permit them to harvest other crops, according to estimates made by Mark Austin, field superintendent of the Utah-Idaho Sugar company. It required six thousand men to harvest the 1917 beet crop, but only two thousand will be necessary next year.

HOW TO PREVENT CROUP.
In a child that is subject to attacks of croup, the first indication of the disease is hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off and all danger and anxiety avoided.—Advt.

He Was Onto Our Good Service

The story is told of a citizen of a nearby town who went into a business man's office, but because of the presence of others ahead of him, he could not gain an immediate audience. Leaving the establishment, he went to the nearest telephone and called up the man he wanted to see. Thus he made the others in the office wait until he was through talking over the phone.

The telephone "gets there" and refuses to wait once the bell rings.
