CROWDS AT EMERY CONFERENCE LARGE

TITHING TEN THOUSAND DOLLARS OVER PAST YEAR.

Apostle George Albert Smith and Elder and Mrs. B. Murray Stewart From Outside in Attendance—Fire Destroys Huntington Home With Narrow Escape of the Occupants.

CASTLE DALE, Feb. 16.—Quarterly conference last Saturday and Sunday in the academy auditorium was perhaps the most largely attended ever held in the county. On both days, and especially on Sunday, Academy Hill was black with conveyances, mostly automobiles, and standing room was at a premium at some of the sessions. The extra large seating capacity was taxed at even the Saturday sessions. Elder George Albert Smith of the quorum of apostles was present from Salt Lake City, accompanied by his daughter and her husband, Elder B. Murray Stewart. All three visitors addressed the congregation at different sessions of the conference. The Emery Stake academy choir, under the direction of Prof. E. H. Nichols, rendered the major portion of the musical features, a piano solo by Miss Nellie Bunnell, vocal solo by Joseph Jameson, and a selection by a quartet of academy students also being enjoyed.

President Lars P. Oveson, opening the conference, stated that President Almo G. Jenkins was absent on account of serious illness of his aged mother in Orangeville. The speaker reported a marked improvement in the payment of tithing for the year 1917, and, continuing, he emphasized his appreciation of the fact that this is the designated gathering place of the Saints, prepared and reserved for just such trying times as these.

Elder Smith remarked the improvements in the stake since his former visit here some nine years ago, and congratulated the people on living here in the midst of plenty. There ran throughout the several discourses delivered by Elder Smith a current of thankfulness that the Saints were located here in the tops of the mountains in the place appointed for them, while the earth was visited with discord and contention. Here we have peace and plenty, and absolute freedom from the steadily attack of the great engines of war that greet the air and the sea. He also commented on the good that is to come to some of the examples set by our Utah boys in the huge training camps where their good habits will accomplish much in a missionary way. Elder Stewart commented on the condition of the world at the present time and mentioned some of the predictions of turmoil and contention that was in store for the people of the world.

Mrs. Stewart, speaking at Sunday afternoon meeting, bore a fervent testimony to the truth of the work, and related a wonderful instance of healing which she had witnessed as a nurse in a Salt Lake City hospital. She has had considerable scientific training, but felt thankful that she still enjoyed an even stronger faith in the efficacy of faith and prayer and the ministrations of the turn of God. President A. E. Wall, speaking Saturday, mentioned the fact that tithing in the stake had increased ten thousand dollars over last year, while four wards are now reaching their 100 per cent in ward teaching, the stake average being 91 per cent. Bishops H. M. Hoild of Orangeville, E. H. Larsen of Castle Dale and D. Huber Leonard of Huntington, and Elders James Peterson and U. W. Grange of the high council, spoke at Saturday's sessions. High Counsellors H. A. Nelson of Ferron and Christian Mortensen of Cleveland, Elder M. E. Johnson of Huntington, President A. G. Jenkins of Orangeville, Principal Arthur L. Beasley of the Emery Stake academy and Elder Peter E. Johnson of Huntington, the latter being just returned from the British mission, all spoke interestingly on Sunday.

The musical at Emery Stake academy Saturday night was a huge success, a large and appreciative crowd being present. The sentiments voiced being the effect that the pantomimes, from the tiny children in night gowns and pajamas, representing "Butter Little Children to Come Unto Me," to the old lady sitting in the frame knitting while "The End of a Perfect Day" was rendered, could not have been surpassed. The entire program was thrilling.

Fire At Huntington.

There was quite an exciting time in Huntington for a half hour last Saturday evening at about 7 o'clock, when the home of Mrs. Maggie Hablins was discovered to be on fire. The alarm was soon heard by some of the neighbors and they were on the scene without loss of time. They found that the fire had such a start that there was little use to fight it, so all hands turned in and began removing the furniture from the building, being successful in getting out almost everything. Fred Hodapp and wife were occupying two of three of the rooms and were fortunate in saving nearly everything. The building came down in a very few minutes, as it was of lumber and log construction. The fire began its course of destruction in the part occupied by the old lady, and was due to a defective stovepipe.

A. W. Anderson of Emery was in Castle Dale Friday, having come over to get his mother, Mrs. N. C. Anderson, and the latter sister, Mrs. Ella Jacobson of Heber City, who have been visiting local relatives since conference.

Chief Cox, the Ferron soldier boy who was aboard the inflated transport Tuscania, was landed safe according to word sent to his folks at Ferron by his wife, who is visiting in Columbus, O. It is probable that Columbus

boys claim to Cox as a daily paper at that place published his picture as one of the "three Columbus boys who were saved." This was account for the fact that he has not been listed among the men from Utah by the Salt Lake City press.

An unknown autoist ran down the little daughter of Mr. and Mrs. W. H. Raab Friday afternoon at the turning of the road east of town. The little girl tried to cross the road as the car approached, but was struck and suffered a sprained ankle and several bruises. The driver brought the girl into town, where she was treated.

Emery county appears to be about to contend for the diverse championship of the state in proportion to population. Eight divorces have been or will likely be granted before the termination of the present term of court. One of the cases comes from Green River, two from Huntington, one from Mohrland, one from Castle Dale, one from Clawson and two from Emery.

Mr. and Mrs. Joseph B. Meeks of Huntington announce the engagement of their daughter, Miss Rachel, to C. A. Grundy of Canada. The marriage will take place the first of March.

D. A. Breen of Salt Lake City was in Castle Dale this week on business. He is associated with A. J. Nielson of the Nielson and Burton ranch interests, in a four thousand acre irrigation project for which they are filling on City second-foot of water from Moody Creek.

In mentioning the award of war savings stamps to the two young ladies who gave their papers at the time of "Parsons' Stomping" visit here, the fact that Principal Beasley of the academy was the donor of the stamp given to the district school winner (Miss Dolores Gregerson) was overlooked. C. E. Larsen, director of the war savings campaign, was the donor of the stamp won by Miss Nettie Larsen of the academy.

It is reported that Oscar Beebe and his associates have disposed of their Tropic Mountain uranium claims at a very good figure.

Peter Johansen is the owner of a brand new automobile and will likely have her broke to spurs and quit before very long.

W. L. Lamph, who is now with the state road commission, is in Castle Dale collecting the equipment in charge of Carl Willberg, state road agent, the first of the week.

Mr. and Mrs. Elgin Kofford, who are maintaining a winter residence at Black Hawk, are entertaining a new addition to the family—a beautiful baby girl, born last week.

Around the County.

There is a move on foot to purchase the old roller mill and rehabilitate it for the coming season's grinding. A committee composed of G. A. Waters, S. H. Larsen and Lars Christensen is investigating the matter and will report at Monday night's priesthood meeting.

Members of the Pleasure club were entertained Wednesday afternoon by Mrs. Emery Larsen.

Green Liver is reported to have purchased a total of two thousand dollars worth of war savings stamps, while Ferron is second with fifteen hundred dollars. The good work is gradually getting a firm hold on the minds of the people of the county, especially the kiddies, and it is the easiest thing in the world for the postmasters to keep a sufficient supply of stamps on hand. The idea of collecting deficit stamps with volunteerism is only just now made vacant by the resignation of G. Sorenson, Jr., who has held the office since the inception of the local chapter. New members are continuing to enroll their names since the selection of Mrs. Emmet Day as chairman of the chapter, and the work of the auxiliaries has also quickened in a very noticeable manner. Another big Red Cross drive is hinted at for the near future, and it is very evident that Emery county will be able to make a big showing as the handicap under which the organization labored until recently is now overcome.

What might have been a serious accident was only averted by the presence of the many size telephone poles at the intersection of Main and Center streets late Thursday afternoon when a car owned and driven by George Jensen, the blacksmith, was run into by Hyrum Seely's car, driven by Carl Seely. It is thought that the brake furnished by the pole was the only thing that prevented the Jensen car being bowled over. As it was, the latter car only suffered some badly crumpled running boards, while the Seely car had one front wheel completely smashed, the radiator sprung so badly as to be useless and the front axle and the radiator and steering rods twisted up pretty badly.

Whether because of the fact that exactly thirteen automobiles were utilized last night by the academy to convey as many lusty lugged rosters as could be carried to the second league basketball game with Carbon high school at Price, or whether it was because of it being a Friday, the team representing the local school came out on the short end of a thirty-one to twenty-three score, with the result that there was not near the excitement on their return that marked their going. The local team is not one which is discouraged, however, and what they feel confident they will do to the victors of last night at the third and final game to be played on the Huntington floor in about two weeks would be shameful to print.

The Mutual play given last week at Cleveland was a success in every way. The parts were well rendered and they were greeted by a very large audience. Over forty dollars was taken

Uncle Sam's Postman Has a New Job

He is now also a recruiting officer to enlist the financial support of the youngsters. Let him be your children's adviser in the matter of thrift. Let him show them what it means to substitute interest-bearing Thrift Stamps for the penny savings bank. Let him be the medium to put your children into actual contact with their country's government.

The Thrift Stamp represents to the children what the Liberty Bond represents to adults. The penny embodies war power just as the dollar,—for pennies make dollars. The Thrift Stamp idea is designed to reach those who think in terms of cents. The power of the penny is shown by the fact that the government hopes to raise two billions of dollars from the sale of these stamps.

Thrift Stamps make a reality of the children's patriotism by allowing them to aid the government with money for war purposes. A child's savings may be a means to shortening this war by days, and every day means the redemption of colossal waste.

Thrift Stamps cost 25c each. Books of 16, with a few cents added, are at any time exchangeable for certificates which will be worth \$5.00 in 1921. These Stamps are received as payments on Liberty Bonds. You may obtain them at any Post Office, your mail carrier, and at most stores.

in, and this will assist greatly in decreasing their winter expenses. The soldiers' farewell party, held at Cleveland Saturday night in honor of Lee Timothy, Maynard Alfred, Jacob Minchey and Peter Johnson, was also a grand success. The hall, which was beautifully decorated with the national colors, was packed and an excellent program was rendered. Jimmie Nielsen, a Cleveland boy, but called from Carbon county, was also in attendance. Lee Timothy left Sunday, he already having volunteered for service in the marine corps.

Mr. and Mrs. Ernest Davis of Cleveland are entertaining a new girl at their home, with all concerned doing nicely.

Mr. and Mrs. Sam Richards of Standardville and Mr. and Mrs. Ralph Alger of Storr were Sunday visitors at Cleveland.

The character ball given Valentine night at Cleveland was a success in every way. A large crowd was in attendance. Ruth Alger (a sunflower) and Gerald Jensen (a count) were winners of prizes.

Emery county has twenty-two students at the agricultural college at Logan, Ferron mine, Emery three, Castle Dale one, Cleveland three and Huntington six.

UTAH'S QUOTA IS FILLED

Capt. A. J. Mechin Says Voluntary Inductments Sufficient.

When the next draft is put into effect Utah will not be called upon to furnish any men. Such is the declaration made by Capt. A. J. Mechin, chief clerk in the adjutant general's office, on his return from a trip to Carbon last Saturday, where he visited the Ogden and Weber county local draft boards. "Men are offering themselves to be inducted into the service voluntarily in such numbers as to make it certain now that Utah's quota will have been furnished before the call for the next draft is issued," declares Captain Mechin.

"How many men Utah will be asked to supply we do not know exactly, but the number will be somewhere between two thousand and twenty-five hundred. Owing to the irregularity with which reports are made by some of the smaller counties outside of Salt Lake, I cannot say at this time exactly how many men have voluntarily entered the service, but the rate is high enough so that we are now certain the next call will not mean placing men from this state in the national army who do not want to go. On the contrary, it will be found that Utah's quota has already been supplied.

"The boards are now explaining to men who ask permission to enlist in the army that, while drafted men may not have such permission, they can cause themselves to be voluntarily inducted into the service." Enlistments are still being accepted in the marine corps and the navy, but these are credited against Utah's quota in the draft.

PRICE ASTONISHED BY MERCHANTS' STORY.

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. ONE SPOONFUL buckhorn bark, glycerine, etc., as mixed in beer, relieved me INSTANTLY." Because Adler-Lax flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach and gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. A. D. Rutledge Drug Co.—Advt.

ROYAL SOCIETY PACKAGE OUTFITS

The quality and value of the materials in Royal Society Package Outfits are maintained under all conditions, creating a standard of excellence that insures beauty and service through usage and laundering. Every package contains the stamped article to be embroidered, either made up or ready for making, sufficient floss to complete the embroidery, and exact instructions.

In our Art Needlework Department we carry full assortments of Royal Society Embroidery and Crochet materials and Package Outfits, the quality of which is assured beyond question.

- Baby Dresses 75c and 85c
- Gowns \$1.25 and \$1.50
- Knitting Bags 75c
- Waists \$1.00

Bessie Kennedy, Millinery

Main Street, Price, Utah.

NOTICE TO WATER USERS.—State Engineer's Office, Salt Lake City, Utah, Feb. 17, 1918. Notice is hereby given that John H. Romjue, whose postoffice address is Wellington, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah 1905, as amended by the Session Laws of Utah, 1909, 1911 and 1915, to appropriate four (4) second-foot of water from Coal Creek in Carbon county. Said water will be diverted at a point south thirty-three degrees forty-five minutes east 1347 feet from the north-west corner of Sec. 4, Twp. 15 South, Range 11 East, Salt Lake base and meridian, and conveyed by means of a ditch for a distance of 14,000 feet and there used from March 1st to October 31st, inclusive, of each year, to irrigate three hundred and sixty acres embraced in the ENHWA and BW of Sec. 4, Twp. 15 South, Range 11 East, Salt Lake meridian, Carbon county, Utah said lands being in possession of the plaintiff, L. A. McGEHEE, Plaintiff's Attorney, Postoffice Address, Price, Utah. First pub. Feb. 1, last March 1, 1918.

For December New Mexico was credited with 48,429 Red Cross articles as compared with 8241 in November, Utah, 24,925 as compared with 2754 in November, Wyoming, 30,572 as compared with 17,308 in November; Colorado, 200,782, as compared with 22,758 in November. Because of the great demand for surgical dressings each state's energies were directed to a heavy output of this article, with the result that the warehouse clearances registered the largest gain of all in this line.

The scarcity of wool fabrics indicates that spring jackets will have to be short.
