

Glasses That Blend

Use of various instruments in the examination of the eye have made the operation largely mechanical. Defects of vision may be found and analyzed without great difficulty, in most cases.

But to make glasses that seem a part of the face itself, rather than something stuck on the nose, is an art gained through a different sort of knowledge and enthusiasm. You have noticed glasses that improve the appearance of the wearer, and you have seen others that did not.

We make the former kind here, because we have both the skill and the will to make them. See us for comfortable glasses.

I went mourning without The Sun; I stood up and cried in the congregation.—Job, 30-28.

NATION-WIDE ECONOMY IS URGED BY GOVERNMENT.

To carry out the program of national economy demanded by the American people by the war they must adopt scientific and systematic methods of economy. Spasmodic and periodic saving will not fulfill the demand upon us. One method that has been proposed and has the approval of the treasury department is for every American to pledge himself or herself to economize and save, and with the savings at definite periods purchase specific amounts of war savings stamps.

We must give our nation, we must give our men in arms, all the strength and support possible. To do this we must cut our own demands on the labor, material and money of the country to the limit, and increase to the limit the supply of money, material and labor available to the government. All of our energies and resources should be devoted to the winning of the war, and to accomplish this we must economize, save and lend to the government.

Some definite systematic plan of saving, strengthened by resolve and a pledge to save and lend to the government, will be productive of the best results. The savings plan campaign is now on. Every patriotic American should make a pledge to save and keep the pledge.

Senator Hiram W. Johnson of California is taking a lively interest in the bill pending in congress for the rehabilitation and industrial re-education of crippled soldiers. He is so much in favor of the idea that he believes the policy should be extended so as to include those injured in industries. Senator Johnson states that he is ready to vote to extend the scope of the present bill so as to include that unfortunate class of our citizens or give his support to a separate measure drawn for that special purpose. The attention that Senator Johnson and his friends are giving the matter inspires legislation in the near future for the relief of industrial cripples.

The American who buys a liberty bond and forthwith sells it has performed only half a service for his country. To buy bonds and then sell them immediately tends to make the war burden of the country heavier instead of lighter, as it decreases the market value of the bonds. Liberty bonds are the safest and soundest and one of the best investments in the world. To sell them unless imperatively required is not good business and is not good Americanism.

For our part, we haven't noticed any flaws in the musical world since they commenced to lock up this nation's army of dutch orchestra leaders.

M. JEANNEY

Most recent photograph of the very able French minister of war.

Deputy Sheriff Delpias went to Zion yesterday to get U. E. Foster, wanted at Winter Quarters for third degree burglary. He is alleged to have recently broke into a dwelling at the coal camp, taking a revolver and numerous other articles easy of carrying away.

Marshal Larsen was out on the job Tuesday evening and arrested two women at the Caribon Hotel. They deposited twenty-five dollars each with Justice Lee and the following day left the city. Other places were visited, but no arrests were made.

Carl Lonsdale of Watta is serving a fifty days sentence in the county jail for violation of the liquor laws in lieu of a cash fine. Nick Esquibel has deposited fifty to the city for the same offense, while James Kirkland has done likewise with the county.

Rev. H. T. Zehbers has recently united in marriage at Price William Trinnaman and Viola Osgood, both of Hoosier, and James McClusky and Oara Gordin of Clear Creek.

Next Sunday at 11 o'clock Rev. Alfred F. Gervasoni will say mass at his home at Price, followed by Sunday school. His residence is on North Eighth street, the former home of Robert McKane.

NOTICE

Sec. 58 of Price City ordinances, in part, as follows:

"No building or structure of any kind shall be erected upon blocks 25, 26, 27, 41 and 42; the south half of block 40; the north half of block 27, and the north half of block 28 of Price townsite survey, except they be of either brick, adobe, concrete or rock. All outside walls must be at least eight inches thick and roofs must be made of non-combustible material."

At a meeting of the city council held June 4, 1918, it was ordered that this part of the ordinance be published that all may have knowledge of the same. Any person contemplating the erection of any building within the above limits must obtain permission of the city through the building committee before commencing such erection or alteration.

This ordinance must be enforced to protect the city from danger from fire and to prevent high and excessive insurance rates, and the penalty provided for not obeying it is very severe. It would be well for any person contemplating the erection of any building or alteration outside this district to consult the building committee to enable them to meet the terms of the ordinance.

The building committee consists of John A. Mathis, H. B. Goetzmann and Thomas Fitzgerald and either may be consulted. By order of city council.

DRAFT QUOTAS ARE FIXED FOR THE STATE

FIRST CALL TAKES TEN MEN FROM CARBON.

However, Some Are to Go Locally From the Second Which Takes An Even Five Hundred From the Commonwealth—Accumulated Credits Make Up Difference At This Time.

Allotments of quotas for the local boards in Utah for the two pending calls for national army men effective in this state have been fixed. Under the first call, which is for four hundred and fifty-three men to report at the University of Utah for eight weeks of mechanical training, the allotment of quotas is tentative and may be changed, if for any reason some local boards are unable to furnish their quotas of these men, who must be grammar school graduates and have had some mechanical training and some mechanical aptitude. An effort will be made to secure the men under this call through volunteering of Class 1 men, or men of deferred classes, who may waive their deferred classification in order to take advantage of this training. The course is an exceptional opportunity for young men who desire a training of material advantage to them both in their army career and in civil life.

The men desired particularly are automobile drivers, automobile mechanics, telegraphers, radio operators, electricians, cementworkers, ironworkers and mechanics of all kinds. It is not necessary that one shall have learned his trade in order to be eligible for this call, but all men who have had some mechanical experience and some mechanical aptitude are eligible, provided they have a grammar school education. In the bulletin based announcing this call, local boards are requested to notify state headquarters if for any reason they are unable to fill their quotas under this call. The opportunity to volunteer for this course will expire today, June 7th, and it is urged that all qualified men who desire to take advantage of this call at once.

The second call, which is for five hundred men to report to Camp Lewis, Wash., during the five-day period beginning June 20th, is a general draft summons. The quotas are fixed in proportion to the number of men available for general military service in Class 1, after deductions are made for accumulated credits under previous calls. It will be noted that Carbon, Juab, Kane, San Juan, Summit and Weber counties and local boards for Division No. 1, Salt Lake county, and Division No. 1, Salt Lake City, are not called upon to furnish any men under this call.

These boards furnished large numbers of men under previous calls and their accumulated credits exceeded their current quotas. This is the first call apportioned strictly on the basis of the number of men classified in Class 1 in accordance with a recent act of congress. Heretofore quotas have been apportioned on the basis of population. Under the first call Carbon county furnishes ten men, Emery six, Duchesne ten and Uintah eight. Nine go from Carbon under the second call, but Duchesne furnishes fourteen, Emery seven and Uintah ten.

USED CARS AT BARGAINS THIS WEEK.

- Two Studebakers.
- Two Oldsmobiles, eight.
- One Buick, six.
- One Buick, four.
- One Ford touring.
- Get it quick before they go. Price Garage Company, A. G. Guthrie, Manager.—Adv.

No man is really old until the pockets in which he once carried photographs, gloves, cigarettes and pressed flowers are filled with dimples and wrinkles.

Wheat Shortage...

Need have no terrors for people who have learned to like all the good "ests" this country produces. When you buy food for your kitchen or your barn from this house, you have our guarantee of purity. When you tire of the high price of flour, come to

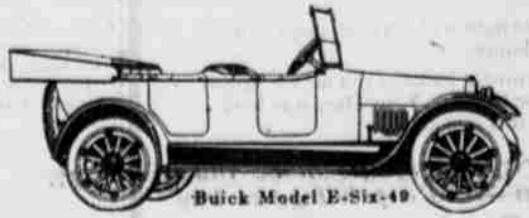

THE "FEED" STORE

and see the other good articles of diet—cornmeal, oatmeal, grits, hominy, rice, shorts, buckwheat flour—any number of grains that take the place of wheat. But if you want wheat flour, we have it, and the very best.

Everybody Knows Valve-In-Head Means Buick.

Among its myriad other uses the motor car acts as a connecting link between the various conveniences that form the machinery of modern business. It helps to unify the activities of the railroads, the tractors, the telephones, the reapers in developing the productive ability of the individual and the nation.

NEARLY A SCORE OF YEARS SPENT IN THE DEVELOPMENT OF THE VALVE-IN-HEAD PRINCIPLE HAVE FITTED BUICK CARS FOR THE IMPORTANT PART THEY ARE FILLING IN THE INDUSTRIAL WORLD TODAY, AND SIDE BY SIDE WITH THE GREAT ENGINEERING ACHIEVEMENTS HAVE BEEN DEVELOPED THOSE NICETIES OF MANUFACTURE THAT RESULT FROM RIPPENED EXPERIENCE AND SINCERE EFFORT.

THUS THE SEASONED MOTORIST FAVORS THE BUICK. HE LIKES ITS SLEEK TRIMNESS. HE PRIDES HIMSELF ON ITS POWER AND PERFORMANCE AND HE NEEDS ITS UNFAILING SERVICEABILITY IN HIS DAILY OCCUPATION. THE BUICK LINE IS A BROAD ONE, COMPOSED OF BOTH THE OPEN AND CLOSED MODELS FOR FROM TWO TO SEVEN PASSENGERS. IT CONTAINS A CAR FOR EVERY KIND OF MOTORING SERVICE.

WE CORDIALLY INVITE YOU TO TAKE A TRIAL SPIN IN ANY OLDSMOBILE MODEL YOU MAY SELECT.
