**WHAT THEY SAY ABOUT "HEARTS OF THE WORLD"**

Charles W. Penrose, Second Counselor: "Hearts of the World" made me feel as though I was there in France myself. A tremendously inspiring picture."  
Capt. M. S. Game, Commanding Officer, Fort Douglas: "Hearts of the World" is a stirring and realistic picture. It's the greatest inspirer of patriotism I can imagine. The realism and photography are wonderful."

deal will prevent the necessity of sending government officers in this state to look up hoarders of sugar, the discovery of which would mean fines or other severe punishment, besides the disgrace of publicity.

**SCENICS ARE CUT OUT.**

No construction of pleasure or scenic highways will be started or improved until the war is over is the announcement of the state highway commission. Where a road is essential to marketing, up to the production and transportation of war necessities, improvements will be made of new work started, but only in such cases. The decision is in line with the war conservation program of the federal government.

**UTAH COMPILED LAWS.**

Utah's Compiled Laws, ordered by the last state legislature, will be completed and issued within the next two or three weeks. The revised edition will contain all changes in session laws since 1907, and accordingly the new copies will be brought up to date. Although the pages of the books will be the same size as formerly, they contain five more lines. The entire issue, with the new changes and additions, will perhaps contain nearly five hundred more pages than the former codes.

**NEW MANAGER IS HERE.**

W. E. Stoker, the new manager of Beevercraft & Sons wholesale house at Price, arrived from Provo this week and took charge of the business here. His successor, M. M. Nasita, who resigns to go on the road. The gentleman was formerly with the Beevercrafts at Provo in the same capacity, and his transfer to this city comes in the line of promotion. He has bought the H. H. Walters home here and will occupy it with his family during the next few days. Mr. and Mrs. Nasita are to continue making Price their home.

**AID INSTITUTE WORK.**

Teachers' institute work in outlying districts is to be aided by the state board of education, and an encouraging circular is being sent out by Dr. E. G. Gowans, state superintendent of public instruction, to district superintendents. Out of state funds will be paid traveling expenses of two speakers at each of two institutes in any one school district in the state. Dr. Gowans states, and he calls for dates of proposed meetings in order that the state committee, consisting of the dean of the normal school and the high school superintendent, may assist in obtaining these speakers.

**GOVERNMENT HAS SAYSO.**

Under a ruling by the federal railroad administration any road or other improvement contemplated by the state, county or city, a portion of the cost of which is to be taxed against a railroad under federal control, must be passed upon by the federal administration before any tax can be levied against the road. It is provided that the matter shall be taken up with the federal manager of the road interested and that he shall have the authority to pass upon the necessity for the improvement, and may decide whether or not the railroad should contribute toward the cost.

**UTAH-IDAHO MOTOR ELECTS.**

Utah-Idaho Motor company stockholders held their annual election for officers in Price last Monday evening. J. R. Thompson of Castle Gate was chosen president; C. R. Marcuse of Price, vice president; A. W. Horsley of Price, secretary, and S. C. Miles of Price, treasurer. These with William Littlejohn of Castle Gate, H. H. Magraw of Hiawatha, Henry Thompson of Ferron, Martin Milbrich of Hiawatha and A. E. Gibson of Storrs make up the board of directors of nine. The company has had an excellent business during the past twelve months and a bright outlook for the future.

**HONEY AT GOOD PRICES.**

About three cars of honey from Emery county has arrived at Price this week and is being shipped out by buyers here in every direction. Producers are getting twenty cents a pound at this time, but an advance is looked for soon. The Utah county crop is a little later, but will begin coming in during the next ten days dealers at Price state. That from the Utah basin section brings a slightly higher figure and some has been contracted here at twenty-one cents. The Green River section product has been going out for two weeks at around twenty cents the pound. County Bee inspector Herman Horsley of Price predicts that those who hold for a time will receive twenty-five cents.

**DEMOCRATS NAME DATES.**

At a meeting of the democratic state committee held at Salt Lake City last Friday it was decided that the state convention for the nomination of three candidates for the supreme bench should be held in Salt Lake City, September 20th. The selecting of September 20th as the date for the convention means that the Salt Lake county committee will have to select another date for the county convention, which, it was announced, would be held September 20th. It is expected that the county convention will be held the first week in October. The county convention for Carbon will most likely be held about the 14th of September, says Chairman Neil M. Madison.

**THREE CASES OF SMALLPOX.**

Mr. and Mrs. Gomer Peacock are still under quarantine for smallpox at their home in Price. First one of the children had it, then Mrs. Peacock and now that the two are convalescing, the second child is down with it. All are mild cases, however. As yet father and husband has been immune, but he is expected to come down any day. These cases are all traceable to Green River, from which place a brother of Mrs. Peacock visited the family on the 23d of July. Others, however, who were exposed about the same time have so far escaped. While here the visitor at-

The CARBON HIGH IS YOURS. Registration September 6th and 7th. Instruction begins, September 9th.

**SHORT STORIES OF THE PAST WEEK**

**MOST ALL ARE SHORT.**

That strict legislation may be necessary to adopt a standard size of packages imported into Utah as a means of preventing serious shortage in the weight of certain package groceries now being sold in this state, is the opinion of Walter M. Hayden, state food and dairy commissioner. Commissioner Walker recently discovered, he says, that considerable package goods, principally cereals, were short of the regulation weight stamped on the package. At present these goods come in various sizes.

**SUGAR IN SMALL LOTS.**

Scarcity of sugar should not curtail the canning of fruits and vegetables, the federal food board says, in a statement addressed to housewives who now are told plenty of sugar is available for "all legitimate requirements for canning and preserving." The statement says housewives can get sugar in twenty-five pound lots upon signing a certificate stating it is to be used solely for canning purposes. "It would be unfortunate if any fruits and vegetables were permitted to go to waste, because of the lack of sugar."

**SNOW FENCES COMING.**

J. H. Tuttle is the new district road engineer with headquarters at Price, says Myron's Free Press of the 14th. He has charge of all work in Duchesne, Uintah, Carbon, Grand, Emery and San Juan. He lately made a tour of inspection through Uintah Basin and found much needed work which will be done as rapidly as possible. Work is now in progress west of Myton. It is Tuttle's intention to crown and surface with shale all state roads leading into the basin. The width of the road will be about sixteen feet. Improvements on the Duchesne to Helper road will be one and a half miles of snow fences on Colton Summit.

**SEIZING MANY HERDS.**

Headed by Matt Warner, Sheriff George Cullingham has lately had three deputies in the hills between Carbon and Sanpete counties rounding up live stockmen ranging their herds in that section and who have so far failed to report them to the county assessor for taxation this year. Herds have been seized in several instances and owners made to come through with the money due Carbon county. The action is by order of the state board of equalization, says County Assessor Randolph. Many thousands of dollars will later come into the county treasury because of the sternness of the sheriff and the assessor. Herds where found are being held until all costs are also paid. "There is no foolishness about what

we intend," says Assessor Randolph. "Owners of these herds had ample warning."

**GIRL LABOR EMPLOYED.**

About twenty girls who have recently been employed on the Denver and Rio Grande right of way on the Heber branch, and some on the main line, have been laid off on order of the superintendent. The girls were employed in cutting weeds and otherwise cleaning up along the right of way. Here at Price lately and also at Wellington a number of young women have lately been destroying weeds for the Denver and Rio Grande and their work is said to be most satisfactory. They are paid three dollars a day, the same wage as section-men.

**WOOL FOR KNITTING.**

The action of the war industries board in halting the production of yarn for knitting in order to conserve wool for army uniforms "may result in the Red Cross getting less wool than it needs, but does not mean a complete stoppage of knitting in American Red Cross workrooms," according to an announcement by officials of the Atlantic division. They interpreted the board's order to mean that after an inventory of the country's wool supply had been made, production would be resumed and the Red Cross would receive its allotment after the needs of the army and navy had been supplied.

**OUR WOUNDED AND SICK.**

Exact information concerning the wounded and sick American soldiers overseas will be made immediately available to relatives or friends of the men under a plan being worked out by the war department. Secretary Baker says he has visited Surgeon General George A. Clark into the daily reports from the hospitals with a view to having them carded, catalogued and tabulated so that the most instant information can be given to all inquirers. The hospital records, Baker says, will be telegraphed here weekly from France, and it will be possible to give the exact nature of the wound or the disease from which the men are suffering. The information will be available through the adjacent general.

**DO NOT HOARD, BUT LEND.**

Sharing sugar with your neighbors is supposed for as a patriotic duty by W. W. Armstrong, Utah food administrator, in a personal letter sent out last Friday. He especially calls on the business of the community to read the casualty lists coming from France and from this to understand that they, too, must do their part to help. He shows them where this can be done with sugar. Armstrong suggests that where a housewife has sugar to do and has not enough to sugar that she appeal to her neighbors and that they, if they have any more than they need, loan enough for home canning. The food administrator states that he hopes that this ap-

**A BILIOUS ATTACK.**

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.—Advt.

**NOTICE TO WATER USERS.**

State Engineer's Office, Salt Lake City, Utah, Aug. 1, 1918. Notice is hereby given that Walter M. Rutt, whose postoffice address is Woodside, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909, 1911 and 1915, to appropriate three-hundredths (.93) of a second-foot of water from a spring in Carbon county. Said spring is situated on unappropriated land two hundred feet north of a point 10,550 feet east of the northeast corner of Sec. 12, Twp. 15 South, Range 15 East, Salt Lake base and meridian. The water will be diverted at the spring and conveyed in a ditch for a distance of one hundred and twenty-five feet and there used from January 1st to December 31st, inclusive, of each year, for stock watering purposes. This application is designated in the state engineer's office as No. 7749. All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate, accompanied by a fee of \$2.50, and filed in this office within thirty (30) days after the completion of the publication of this notice. G. F. MCGONAGLE, State Engineer. Date of first pub. Aug. 2, 1918. Date of completion of publication Sept. 3, 1918.

**AN ORDINANCE GRANTING TO UTAH POWER AND LIGHT COMPANY, ITS SUCCESSORS AND ASSIGNS, AN ELECTRIC LIGHT, HEAT AND POWER FRANCHISE.**

Be It Ordained By the City Council of Price, Utah:  
Sec. 1—That there is hereby granted to Utah Power and Light Company, its successors and assigns hereinafter called the "grantee" the right, privilege or franchise, until August 31, 1928, to construct, maintain and operate in the present and future streets, alleys and public places, in the city of Price, Utah, and its successors, electric light and power lines, together with all the necessary or desirable appurtenances (including underground conduits, poles, towers, wires, transmission lines and telegraph and telephone lines for its own use), for the purpose of supplying electricity at wholesale to said city, but the "grantee" shall not acquire any rights hereunder to furnish electric service to said city or its inhabitants, except at wholesale to said city.  
Sec. 2—Poles and towers shall be so erected as to interfere as little as possible with traffic over said streets and alleys. The location of all poles, towers and conduits shall be fixed under the supervision of the city council of the city, but not so as to unreasonably interfere with the proper operation of said lines.  
Sec. 3—All lines constructed under this grant shall be constructed in accordance with established practice with respect to electrical construction, the location of said lines, as now under construction, is hereby approved and confirmed.  
Sec. 4—The city shall in no way be liable or responsible for any accident or damage that may occur in the construction, operation or maintenance by the "grantee" of its lines and appurtenances hereunder, and the acceptance of this franchise shall be deemed an agreement on the part of said "grantee" its successors and assigns, to indemnify said city and hold it harmless against any and all liability, loss, cost, damage or expense which may accrue to said city by reason of the neglect, default or misconduct of the "grantee" in the construction, operation or maintenance of its lines and appurtenances hereunder.  
Sec. 5—The "grantee" shall file its written acceptance of this franchise with the city recorder within sixty (60) days after its passage.  
Sec. 6—This ordinance shall take effect as soon as it shall be published as required by law, deposited and recorded in the office of the city recorder and accepted as required herein.  
Passed by the mayor and city council of the city of Price, Carbon county, Utah, this 22d day of July, 1918.  
GEORGE A. WOOTTON,  
Mayor.  
Attest: MAT GILMOUTH, City Recorder. State of Utah, County of Carbon—ss. I, the undersigned, the duly qualified and acting city recorder of Price, Utah, do hereby certify that the foregoing is a full, true and correct copy of an ordinance adopted by the city council of said city at a meeting held hereon on the 22d day of July, 1918. In witness whereof, I have hereunto set my hand and affixed the corporate seal of said city on this 20th day of July, 1918.  
MAT GILMOUTH, City Recorder. First pub. Aug. 2, last Aug. 20, 1918.
